

**U.S. Army Space and Missile Defense Command /Army Forces Strategic Command
(USASMDC/ARSTRAT)**

ACQUISITION FORECAST

USASMDC/ARSTRAT issues the Acquisition Forecast of expected contract opportunities to industry. The forecast contains anticipated procurements (in excess of the simplified acquisition threshold) with the intent of increasing industries' knowledge of USASMDC/ARSTRAT's procurements and to enhance competition.

The procurements described in this forecast are expected to be solicited in this fiscal year and beyond, based on the best information available at the time of publication. All projected procurements are subject to revision or cancellation. Final decisions regarding the extent of competition (i.e., small business set- asides, 8(a) set-asides, unrestricted etc.), will not be made until each procurement is initiated. We recommend you also review FEDBIZOPPS at <https://www.fbo.gov> for the actual notice of a pending contract opportunity.

This estimate is for planning purposes only; it does not represent a presolicitation synopsis or constitute invitations for bid or request for proposals, nor is it a commitment by the Government to purchase the described products/services.

Titles of Action - Last Updated March 2016

- 1. Environmental Planning, Compliance, and Remediation Technical Services (EPCARTS)**
- 2. Meteorological Support Services, U.S. Army Kwajalein Atoll/Reagan Test Site (USAKA/RTS)**
- 3. Systems Engineering and Technical Assistance Contract (SETAC)**
- 4. Reagan Test Site (RTS) Range Support Services**
- 5. Broad Agency Announcement (BAA) - New & Innovative Ideas for Space & Missile Defense Technology – **Under Revision****

1. Title of Action: Environmental Planning, Compliance, and Remediation Technical Services (EPCARTS)

Contract Expiration Date: N/A

Request for Proposal (RFP) number: W9113M-15-R-0005

Name of Requiring Activity: U.S. Army Space & Missile Defense Command /Army Forces Strategic Command (SMDC/ARSTRAT), Office of the Deputy Chief of Staff Engineer (DCSEN)

Description of Effort: Support to assist the Office of the Deputy Chief of Staff, Engineer (DCSEN) in execution and implementation of environmental remediation services and environmental compliance plans and programs in support of USASMDC/ARSTRAT and their customer's mission to include:

- **Perform investigation and remediation of contaminated sites (to include, but no limited to, fuels (petroleum, liquid rocket fuel/oxidizer, solid rocket propellant, etc.), (hazardous/toxic/radioactive waste, munitions, and explosives concern, PCBs, etc.)**
- **Perform field investigations (including, but not limited to, installation of monitoring wells, soil borings, soil, sediment, water and air sampling) and laboratory analysis of soil, water and air samples.**

Type of Action: 8(a) Competition

North American Industry Classification System (NAICS) Code: 562910 with a small business size standard of 500 employees

Estimated Period of Performance: 5 years

Total Estimated Value of the Proposed Action: \$48 million

Release Date of the Draft Request for Proposal (RFP): TBD

Contract Specialist: Summer Wilson, 256-955-6017

Contracting Officer: Lana Fischer, 256-955-5987

2. Title of Action: Meteorological Support Services, U.S. Army Kwajalein Atoll/Reagan Test Site (USAKA/RTS)

Incumbent: Atmospheric Technologies System Corporation

Contract Number: W9113M-07-C-0067

Contract Expiration Date: November 2016

Name of Requiring Activity: U.S. Army Space and Missile Defense Command, Ronald Reagan Ballistic Missile Defense Test Site

Description of Effort: Kwajalein Meteorology Support Services. This contract support the programs base and test support operations by collecting, processing, and interpreting meteorological data. They also provide specialized weather forecast; provide meteorological consultation services, as well as performing the normal duties of a weather forecasting office and meteorological observatory providing daily forecast for residents.

Type of Action: Competitive (X) or Sole Source ()

Is Procurement a Set-Aside: Yes (x) No () 8(a) competition

North American Industry Classification System (NAICS) Code: 541712 with a small business size standard of 1,000 employees

Estimated Period of Performance: 5 years to include all options

Total Estimated Value of Proposed Action: \$11M - \$15M

Estimated Release Date of Request for Proposal (RFP): TBD

Contract Specialist: Nathan Martin, 256-955-5906

Contract Officer: LaQuita Mox, 256-955-5907

Technical Office Point of Contact: Dennis Heath, 805-355-3779

3. Title of Action: Systems Engineering and Technical Assistance Contract (SETAC)

Request for Proposal (RFP) number: TBD

Name of Requiring Activity: U.S. Army Space and Missile Defense Command/Army Forces Strategic Command (USASMDC/ARSTRAT)

Description of Effort: SETA support for various USASMDC/ARSTRAT missions to include air, space, missile defense; cyberspace; homeland security/homeland defense; and warfighter efforts as they are defined by higher headquarters, the Department of Defense (DoD), and Congress.

Type of Action: Competitive – Multiple strategies being considered
- Multiple Award IDIQ
- GSA Oasis

Is Procurement Set-Aside: 100% Small Business Set-Aside

North American Industry Classification System (NAICS) Code: TBD

Estimated Period of Performance: 5 years

Total Estimated Value of Proposed Action: TBD

Estimated Release Date of Request for Proposal (RFP): TBD

Contract Officer: Netausha Stoudmire, 256-955-4344

Contract Specialist: TBD

4. Title of Action: Reagan Test Site (RTS) Range Support Services

Incumbent: Kwajalein Range Services JV

Contract Number: DASG60-02-C-0074

Contract Expiration Date if all Options are exercised: 2018

Name of Requiring Activity: U.S. Army Kwajalein Atoll/Reagan Test Site (USAKA/RTS)

Description of Effort: Provides services for the RTS on Kwajalein Atoll, to include the operation and maintenance of sensors and systems, mission data collection, support to customers for missile and system testing, and space surveillance and object identification for the Warfighter. Additionally, contract support services are required to support activities at a control center in Huntsville, AL

Type of Action: Competitive (X) or Sole Source ()

Is Procurement Set-Aside: TBD

North American Industry Classification System (NAICS) Code: TBD

Estimated Period of Performance: TBD

Estimated Dollar Value: >\$500 million

Estimated Release Date of Request for Proposal: 3rd Qtr 2016

Contracting Officer: Kim Gillies, 256-955-5875

Contract Specialist: TBD

Current BAA Under Revision

5. Title of Action: Broad Agency Announcement (BAA) W9113M-09-0001-2014 for New and Innovative Ideas for Space and Missile Defense Technology

Name of Requiring Activity: U.S. Army Space and Missile Defense Command/Army Forces Strategic Command (SMDC/ARSTRAT)

Description of Effort: This Broad Agency Announcement (BAA) is a competitive solicitation procedure used to obtain white papers/proposals for basic and applied research and that part of development not related to the development of a specific system or hardware procurement. The BAA is described in FAR 6.102, "Use of Competitive Procedures" and FAR 35.016, "Broad Agency Announcements". The Competition in Contracting Act (CICA) of 1984 issued as Public Law 98-369 (98 stat, 1175 et seq.) authorizes use of "general solicitations" or BAAs. The use of general solicitations meets the "full and open" competition requirements of CICA.

The SMDC/ARSTRAT announces interest in receiving research, development, and technology maturation white papers/proposals with technical, management, and cost consideration. White papers/proposals submitted should include new ideas for advanced and innovative concepts as well as prototype hardware and software for current and emerging space and missile defense science and technology. The SMDC conducts space, directed energy, missile defense, cruise missile defense and related technology research and development for the Army, Missile Defense Agency, Joint Improvised Explosive Device Defeat Organization, Office of the Secretary of Defense High Energy Laser Joint Technology Office, and other defense-related government agencies. Furthermore, SMDC plans and executes missile defense test and evaluation programs and related analysis and is interested in pursuing opportunities for technical cooperation and partnerships with academia, industry, and international organizations.

SMDC is interested in receiving white papers/proposals for the basic and applied research efforts described under this BAA. This announcement is an expression of interest only and does not commit the Government to make any award or to pay for any response preparation costs. See full BAA located at the website below.
