Reed discusses transition, year ahead

Let me first take the time to welcome each of you back to Kwajalein and to say Yokwe to all new employees now serving on Kwajalein Atoll or better known as USAKA. My first year in command has come and gone and now I have only 11 months remaining prior to my change of command with Col. Frederick Clarke. Yes, the Army will let you know that you can and will be replaced while still in the job. I have found the first year to be a time I will not soon forget; it was a

busy and fun time, but it was also a challenging time.

As I look to close out my final year at USAKA, I want to inform

you that Lt. Gen. Kevin Campbell [Commanding General, Space and Missile Defense Command] was truly happy with what he viewed as actions with our mission and our attempt to improve activities at Kwajalein. He also expressed his heartfelt thanks and appreciation for all you do daily for the United States government. Many of you may not have seen him, but his

Letter to the editor

Reader: Why do we have weed roof gardens?

I've lived on Kwaj now for over a year and I still haven't found anyone who can answer the question, "Why are weeds growing on the roof tops of hard-housing?" I have heard of "Green Roof Gardens" but I can honestly say that I have never heard of "Weed Roof Gardens." Has someone developed a new roofing technology that I haven't heard about?

Anyway, as I watch maintenance do all this cleaning, painting, and caulking of windows to prepare vacated housing for new occupancy I can't help but wonder...Who is responsible for making such decisions? Please correct me if I'm wrong, but isn't fixing a structure below a bad roof like building a house without a foundation? Somewhat of a house of cards effect...collapse is inevitable.

I would imagine that all those weeds and their penetrating

roots have caused severe damage to the roof and any open flashing or, should I say, hanging flashing on the roof. Not to mention all the wonderful moisture that those weeded roofs are retaining. Every time it rains it's sort of like a lawn being fertilized; algae and mold are feeding on the roof...Yuk! And all that wonderful moldy moisture is seeping throughout the house too for everyone to breathe....doesn't that just make your day?

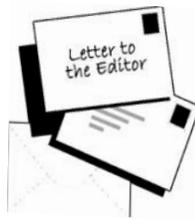

And, last but not least, let's not forget the rat problem. They aren't just partial to trailers, you know. In fact, roof rats love a good old nasty roof and so do other little critters like ants, coach roaches, spiders, etc.

So once again I ask...Why are there weeds growing on the roofs of hard-housing?

Renee McGinnis

To all those involved in restoring hot water to the Coral Bachelor Quarters. After a week and a half - the hot shower was very much appreciated.

Six take Army oath

Year-long prep program results in new careers

By Tamara Ward
U.S. Army Kwajalein Atoll

Sept. 1 marked a life-changing moment for six Marshallese men as they officially finished the Recruit Indoctrination Program by being inducted into the United States Army. William Boutu, Willie Beio, Benny DeBrum, Paul Lemari, Henty Maika, and Aless Lanwi were the young men who successfully completed the military training program.

The RIP, implemented a year ago, emphasized physical and academic training, and overall military discipline for young men interested in joining the U.S. military. News of the successful program has reached Marshallese President Kessai Note, Gen. George W. Casey, Jr., Army Chief of Staff, and Sgt. Maj. of the

Army Kenneth O. Preston. There was no requirement to join the military after completion, but the young men were encouraged by being prepared for the Armed Services Vocational Aptitude Battery, and trained to march. Some U.S. Army Kwajalein Atoll active duty military helped in the program and were in attendance to cheer on the new military family members. "When I was informed of the program and asked to volunteer I did not hesitate to help where needed", said Chief Warrant Officer Phyllis Mitchell, acting director of Community Activities. "The participants inspired me because they gave it their all and didn't give up. They had so much determination and stayed focused. The program was not easy for them because of the culture difference but the recruits

were determined to go the distance. I am very proud of all the recruits who participated." USAKA Commander Col. Stevenson Reed was also in attendance and performed the oath of office.

Inductee William Boutu had a lot to say about what the program meant to him. "I joined the program to build a better future for my family and myself. The high part of the program was finding friends and people that care when you least expect it. The low was figuring out that I wasn't invincible after all. The induction ceremony meant that I was being honored by those before me and setting an example of those after me." When asked about his feelings about his

House beautiful

Challenge pits commander against first sergeant

Hourglass reports

Col. Stevenson Reed, U.S. Army Kwajalein Atoll commander and USAKA's 1st Sgt. Kenneth Mackey are in a unique challenge: Who's the best decorator?

"The colonel and I, many know, compete all the time and it is good clean fun," explained Mackey. "Whether it is on the softball field, golf course, or basketball, it

doesn't matter, we always compete."

He continued, "Several people commented about the interior of our homes and we came up with the idea to have an interior decorating contest with community involvement to promote the "Quarters of the Quarter" Program."

The installation-wide "Quarters of the Quarter" competition will give area exterior designers a chance to shine. "Typically on all military installations there is some sort of "Quarters of the Quarter" or "Yard of the month/quarter/year" competition," Mackey said. "The competition is used to promote a sense of pride within the community through the residents who take pride in their yard and by showcasing their efforts."

The colonel and USAKA's senior enlisted advisor thought hype surrounding a competition between them would be a good way to promote the rejuvenated

Col. Stevenson Reed's decorations include a model of a traditional canoe.

Photos by Lee Craker

program. Reed said that the "Quarters of the Quarter" program is not new to Kwajalein, but has been dormant for some time.

It might seem a bit confusing that the "Quarters of the Quarter" program promotes exterior home care, but that the colonel versus first sergeant competition is all about what the interiors look like. Mackey admitted that he couldn't compete with the colonel in

an exterior contest. "Well to be perfectly honest, everyone on island knows two things: one, the colonel's yard is not maintained by him and two, I would lose because he lives with a beautiful ocean view."

He added, "So since several people commented on our homes, we felt it fair to have an interior competition."

Community members can check out both homes

Col. Stevenson Reed's home includes an entertainment area facing the ocean.

Col. Stevenson Reed's decor is clean and uncluttered and features antiques and collectables from around the world.

1st Sgt. Kenneth Mackey extinguishes a candle during the Window on the Atoll taping in his quarters.

One of the bedrooms in 1st. Sgt. Kenneth Mackey's home reflects a golf scene and is dedicated to Col. Stevenson Reed.

virtually...by viewing the latest Window on the Atoll which began airing today. Then it's up to individuals to determine who has the better interior design flair. People can vote for their favorite interior by sending an e-mail to: Kwaj_Quarters_of_the_Quarter@smdck.smdc.army.mil Voting ends Oct. 6.

Mackey said there were no holds barred in the competition. "Rules, there are none; may the man with the best interior design win. At the end of the day, we just want to promote the Quarters of the Quarter Program."

Mackey dedicated some of his interior design inspiration to the colonel, "I dedicated one room to the colonel called, "The Golf Room." Even though I am

terrible at golf, he force fed me the game and now I love the game. Golf is a game that amazes me because every single hole is different but then again, if you're having really bad day...every single hole can be the same."

The colonel admits that his ocean view is inspiring, "The ocean view that I see and hear everyday I wake up. It is an amazing site each morning."

"We just hope to inspire the community through the spirit of good competition within the community. It is a sense of pride that we want the residents to have in their home and its appearance to others," Mackey said.

The installation-wide competition begins in October. "To be honest,

I have seen a lot of good looking quarters on island so I know that the competition is going to be steep," Mackey said. "In my opinion, a good clean yard with no trees can look just as appealing as a home with many trees and plants. I am going to stick to the judging criteria that the committee establishes and go from there."

Just the facts:

- Program judged every quarter
- Judges will be the first sergeant, USAKA public affairs officer, and two representatives from installation management
- Both family and unaccompanied personnel's housing will be judged

• Five yards recognized each month from one of the five housing areas

Recognition/awards given based on:

- Overall yard appearance
- Yard is policed and mowed
- Lawn is edged along walks
- Leaves raked
- Shrubbery is trimmed
- No grass or weeds in flowerers
- Initiative and creativity
- Curb appeal

"There will be prizes and recognition given from USAKA as well as gift certificates by AAFES tentatively scheduled to start in March," Mackey said. "We will publish the specific rules, gifts, and other areas of recognition in a later edition of the *Hourglass* before the competition begins."

Army supports mission to recover Russian sub

by Spc. Morrene E. Randell
Army News Service

A light breeze rippled over the dark water of Providence Harbor as two divers sank below the water's surface, leaving behind a long trail of air hoses and the sound of their breathing through the radio.

Usually a transport vessel, the U.S. Army Vessel New Orleans, Landing Craft Utility 2031, from the 824th Transportation Company (Heavy Boats) is rendering itself as a diving platform for Army and Navy divers attempting to salvage a sunken Russian submarine in Providence Harbor.

The New Orleans is an Army Reserve vessel manned by a crew of Soldiers from 143rd Sustainment Command (Expeditionary). It made its way from its home mooring in Tampa, Fla., to Rhode Island on Aug. 15 to take part in the 40-day innovative readiness training mission, a program that allows Defense Department funding, personnel and equipment to support U.S. civilian projects that provide invaluable combat training that would apply to a unit's mission.

"It's nice, because it's an opportunity to get to work together with people we don't normally work with and understand and appreciate what they are doing," Army Chief Warrant Officer Anthony Tartaglia said. The crew "gets training that they can carry on either in their civilian life or in their military career," the New Orleans' vessel master said.

Most people don't know the Army even has boats, or for that matter, why the Army would need them. The New Orleans is one of 35 LCU-2000 series in service and has a crew of 15 to 17 enlisted personnel and two officers and has a berthing of

seven staterooms, 17 bunks and one sickbay. Its galley facilities can accommodate a full crew and passengers for two weeks. The boat is 174 feet long and is powered by twin 1,250 horsepower engines that move it at speeds up to 14 knots.

"When there are large ships that can't come into some ports, we will go out to them," Army Chief Warrant Officer Clark Patton, chief engineer of the New Orleans, said. "We also transport materiel and men, as well as help the Navy transport their materiel when needed."

The LCU-2000 series serves the Army by transporting cargo and equipment all over the world, and it supports missions in harbors, inland waterways and the open ocean. The landing craft utility is a shallow-water landing craft capable of reaching beaches in four feet of water with a full load.

At the onset of Operation Iraqi Freedom, the 824th was dispatched to the Persian Gulf, where it served as a diving platform for divers who were clearing oil platforms of explosives. The Rhode Island mission is similar, but far less dangerous.

Beneath the New Orleans lies a Juliet 484 Russian submarine. Army and Navy divers are using the boat's ramp as a platform to survey the sub, which sank earlier this year.

"It sank this April after a particularly nasty nor'easter," Tartaglia explained.

The storm drove a massive wave into the harbor, and because the submarine was modified to include hatches that allow tourists onto the vessel, it was no longer watertight, he said.

Divers have removed the fore and aft visitor hatches and will replace them with

Diver Petty Officer 2nd Class William F. Stetson III gives the "OK" sign to let a fellow Sailor know he is receiving proper oxygen flow.

dams. This will make the submarine watertight and allow the team to pump water out of one hatch while the other remains open allowing air to enter and causing it to become buoyant and float back to the surface.

"It's in shallow water. ... The deepest part is about 35 feet," Navy Petty Officer 2nd Class William F. Stetson IV, one of the divers, said. "So it's easy to get down to." PO-2 Stetson is with Mobile Diving Salvage Unit 2 from Little Creek, Va.

The teams of divers have been surveying the sub to come up with the safest and most practical way to raise it. "We're in phase one of a two-part phase mission," Stetson said. "We've connected four wires and hydraulic cords to keep it stable and prevent it from going any further into the channel. In the second phase, another team will come back and actually raise the sub."

As further insurance to stabilize the sub when it is raised in 2008, four 7,200-pound anchors called "dead men" have been buried in holes 10 feet deep and wide, and they have been attached to the submarine. The anchors also are being

used to pull the submarine toward the pier with hopes it will slightly right itself and resurface.

"This is an excellent mission," Sgt. Kristopher Stribbling said. "To get the chance to come out here and dive on a Russian submarine is phenomenal," the Army diver added. "It's a very unique mission being a submarine, so it has all kinds of new knowledge to take back to the unit."

All parties involved agreed that the knowledge acquired from such a unique dive is invaluable. "You don't get to salvage a vessel like this very often," Stetson said.

But for the historians involved in the sub's recovery, it's not just about the salvage training. "We need to preserve it for historical value," Frank Lennon, of the Russian Submarine Museum, said.

Museum officials and locals of Providence aren't the only ones hopeful, however, that the recovery mission will succeed.

"When it comes up, I hope they find that they can restore it, so I can come back and visit it while it's above the water," Stetson said.

Eleven servicemembers die in Global War on Terror

Eleven servicemembers died in support of the Global War on Terror since Aug. 25.

Lance Cpl. Rogelio A. Ramirez, 21, of Pasadena, Calif., died Aug. 26 while conducting combat operations in Al Anbar province, Iraq. He was assigned to 1st Battalion, 1st Marine Regiment, 1st Marine Division, I Marine Expeditionary Force, Camp Pendleton, Calif.

Pvt. Justin T. Sanders, 22, of Watson, La., died Aug. 29 in Taji, Iraq, in a non-combat related incident. He was assigned to the 2d Battalion, 8th Cavalry Regiment, 1st Brigade Combat Team, 1st Cavalry Division, Fort Hood, Texas.

Staff Sgt. Andrew P. Nelson, 22, of Moorhead, Minn., died Aug. 29 in Muqadadiyah, Iraq, of wounds suffered when insurgents attacked his unit. He was assigned to the 1st Squadron, 73rd Cavalry Regiment,

2nd Brigade Combat Team, 82nd Airborne Division, Fort Bragg, N.C.

Staff Sgt. Jason M. Butkus, 34, of West Milford, N.J., died Aug. 30 in Baghdad, Iraq, of wounds suffered when insurgents attacked his unit. He was assigned to the 1st Battalion, 28th Infantry Regiment, 4th Infantry Brigade Combat Team, 1st Infantry Division, Fort Riley, Kan.

Sgt. 1st Class Daniel E. Scheibner, 40, of Muskegon, Mich., died Aug. 30 in Al Noor, Iraq, of wounds sustained when his vehicle struck an improvised explosive device. He was assigned to the 2d Battalion, 12th Field Artillery Regiment, 4th Striker Brigade Combat Team, 2d Infantry Division, Fort Lewis, Wash.

Spc. Travis M. Virgadamo, 19, of Las Vegas, died Aug. 30 in Taji, Iraq, in a non-combat related incident. He was assigned to

the 3d Squadron, 7th Cavalry Regiment, 2d Brigade Combat Team, 3d Infantry Division, Fort Stewart, Ga.

Sgt. Kevin A. Gilbertson, 24, of Cedar Rapids, Iowa, died Aug. 31 in Landstuhl, Germany, of wounds sustained when insurgents attacked his unit during combat operations Aug. 29 in Ramadi, Iraq. He was assigned to the 1st Battalion, 77th Armor Regiment, 2nd Brigade Combat Team, 1st Infantry Division, Schweinfurt, Germany.

Spc. Christopher G. Patton, 21, of Lawrenceville, Ga., died Sept. 1 in Baghdad, Iraq, in a non-combat related incident. He was assigned to the 2nd Battalion, 5th Cavalry Regiment, 1st Brigade Combat Team, 1st Cavalry Division, Fort Hood.

Master Sgt. Patrick D. Magnani, 38, of Martinez, Calif., died Tuesday near Bagram, Afghanistan, in a non-combat related inci-

dent. He was assigned to the 31st Medical Support Squadron, Aviano Air Base, Italy.

Spc. Rodney J. Johnson, 20, of Houston, died Tuesday in Baghdad, of wounds suffered when insurgents attacked his unit. He was assigned to the 1st Squadron, 4th Cavalry Regiment, 4th Infantry Brigade Combat Team, 1st Infantry Division, Fort Riley.

Two Soldiers died Wednesday in Balad, Iraq of wounds suffered from an improvised explosive device. Killed were: **Cpl. William T. Warford III**, 24, of Temple, Texas. He was assigned to the 215th Brigade Support Battalion, 3rd Brigade Combat Team, 1st Cavalry Division, Fort Hood and **Pfc. Dane R. Balcon**, 19, of Colorado Springs, Colo. He was assigned to the 1st Squadron, 7th Cavalry Regiment, 3rd Brigade Combat Team, 1st Cavalry Division, Fort Hood.

Congress passes law defining saluting

Hourglass reports

A Bill was passed on July 25 clarifying veterans' and servicemen's salute of the flag.

Bill S.1877 was presented to Congress by U.S. Senator Jim Inhofe (R-Okla.)

Prior law, (U.S. Code Title 4, Chapter 1), stated veterans and servicemen not in uniform should place their hand over their heart without clarifying whether they can or should salute the flag.

"The salute is a form of honor

and respect, representing pride in one's military service," Inhofe said. "Veterans and service members continue representing the military services even when not in uniform.

Unfortunately, current U.S. law leaves confusion as to whether veterans and service members out of uniform can or should salute the flag. My legislation will clarify this regulation, allowing veterans and servicemen alike to salute the flag, whether they are in uniform

or not. I look forward to seeing those who have served saluting proudly at baseball games, parades, and formal events. I believe this is an appropriate way to honor and recognize the 25 million veterans in the United States who have served in the military and remain as role models to others citizens. Those who are currently serving or have served in the military have earned this right, and their recognition will be an inspiration to others."

OATH from Page 3

upcoming trip to basic training, he replied, "I'm ready, but my body is still protesting." Boutu also encouraged other men thinking about joining the program. "Joining the program is going to be challenging in many ways, but you aren't alone. There's a team of people there that will happily help if you ask." Quoting his mentor Sgt. Maj. Frank Cota, "Nothing that's worth having is ever easy to get"

Cota, former Range Operations non-commissioned officer in charge, was credited in his absence, with inspiring the program by mentoring young Marshal-

lese men on physical fitness and discipline. "I have to give credit where it is due," USAKA 1st Sgt. Kenneth Mackey stated in reference to Cota. "If Sgt. Maj. Cota hadn't been involved, we may never have gotten this program off the ground."

The inductees will all be leaving in January, and plans are now being made for the second year of RIP which will include and encourage Marshallese women interested in joining the military. For further information, please contact Mackey by phone (51414) or e-mail (Kenneth.Mackey@smdck.smdc.army.mil).

HELP WANTED

KRS has the following job openings. For contract hire positions, call Sherri Hendrix, 256-890-8710. For on-island hires, call Carolyn Veirup, 51300. Full job descriptions and requirements for contract openings are located online at www.krsjv.com. Job descriptions for other openings are located at Human Resources, Building 700.

NEED EXTRA money? KRS employment applications are continually accepted for all Community Services departments and the Human Resources temporary pool for casual positions. Some examples of these positions are: sport officials, scorekeepers, delivery drivers, lifeguards, catering/dining room workers, medical office receptionists, temporary office support, etc. For more information, call the KRS HR Office at 54916.

Hole in one

Congratulations to Pam Frase

On Aug. 31 Frase scored a hole in one on the 138-yard par three 15th using a 7 wood. Playing in the group with Frase was Kim Parker, Nancy Nast, Geary Shotts and Jim Feldpausch.

COMMANDER from Page 2

visit was Aug. 24-27. He also provided me with guidance on what he wanted me to accomplish prior to my change of command next summer as a minimum for the individuals living and working on the island. The two points he provided me were to make a plan for transition that my replacement can execute and communicate that plan for the workforce quickly. Therefore, I would like to take a moment to address how I plan to accomplish the task he provided:

a. Transition: We have several individuals working under the direction of George Snyder [director, Sensors Integration and Test and Evaluation Directorate] and me to complete a plan of what USAKA will look like at the end-state of transition. That plan cannot be made or completed without the assistance of our contractors; however, we must first complete all legal and contractual requirements. As you may have heard last year, the budget was reduced by more than \$20 million dollars between the periods of FY09-10; therefore, like any large company throughout the world, change is going to occur, but now we must manage the change. The issue is now completing the plan and allowing all members of the team in the planning process so you can see how to implement that plan. I believe we will be able to allow all the contractors in on the plan in the next two or three weeks. I am going to Huntsville and will be getting that approval during the dates of Sept. 3-13. It is the goal of Campbell and the leadership of SMDC to inform the workforce as soon as possible of the specifics of the transition. I expect this will be complete and ready for a briefing at a town hall in November. I understand that this is a tough action to achieve as a leader, but I owe you that information;

therefore, I want to communicate the changes which will be approved by Campbell prior to the November town hall meeting. Please stand by for a full presentation.

b. Building a plan that we can use from the period FY07-11: As I reviewed the funding lines for Kwajalein, FY07 and FY08 are not bad years for funding. It is still above any types of cuts in funding; however, FY09 and FY10 are periods that we cannot do business as usual because the cuts will affect the missions and quality of life on Kwajalein Atoll. Therefore, we are building a plan that will address the hard years and allow me the opportunity to shift some funding to the critical areas and mitigate some of the shortfall with the budget. It is not just a plan; I must have a plan that must be approved and have all the changes communicated to the community and the customers.

In closing, I see the upcoming year being even harder than my first year of command. Having achieved some solid goals for the community such as bringing AAFES [Army and Air Force Exchange Services] on island, getting DeCA [Defense Commissary Agency] to change their position and now consider coming to Kwajalein in FY08, and improving our customers from only five to over 13 missions in FY08, I feel these were all positive actions that will keep USAKA relevant in the future; however, completing the task of transition will be the ultimate goal.

It is my aim to be honest and timely with the upcoming changes.

I OWE YOU THAT MUCH AS YOUR LEADER AND THE COMMANDER of United States Army Kwajalein Atoll.
