

THE KWAJALEIN HOURGLASS

World War II Navy Seabee Gerald Halpin returns to Roi-Namur where he was stationed during the war. For more, see Page 4.

(Photo by Lee Craker)

All those chickens are coming home to roost

My wife and I visited London two years ago and we were very surprised to find that a cup of coffee cost the equivalent of six U.S. dollars.

But in today's exchange rate against the British pound,

that same cup of coffee would cost almost 12 U.S. dollars. When we traveled to Italy three years ago, the Euro was worth 83 cents. Today, it's worth \$1.47.

The U.S. dollar keeps hitting new lows against other world currencies on an almost daily basis.

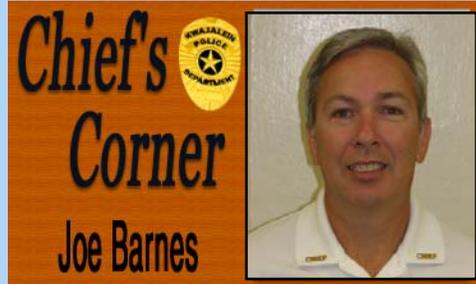

I mean, things are pretty bad when our money is worth less than something called the 'Loonie.'

For the first time in more than 50 years, the Canadian dollar (the Loonie) is worth more than the U.S. dollar. It wasn't long ago that our dollar was three-to-one against the Australian dollar. Not these days.

Our money *might* be worth more than Sri Lanka's, but then,

See CHICKENS, Page 7

Good things about Kwaj police are overlooked

For the first time since my arrival, I was made aware of a concern by a resident through an anonymous 'Thumbs Down' in the *Hourglass*.

The concern is that our police vehicles are spending more time on the grass than on the paved roads.

As designated emergency vehicles, there are a lot of instances when that is true. First, there are no drive-ways, parking shoulders or access to many of the facilities we are responsible for checking daily. Additionally, our Kwajalein police officers have to position our vehicles to properly monitor traffic or survey specific areas. For whatever reason, I am confident the officers are in the commission of their duties.

See POLICE, Page 12

Corrections

The last sentence of the flip-flop story on Page 5 of Saturday's paper was cut off in the production process. The last sentence read: "I think, for me it was more about the visitation with those people than it was about bringing them shoes that I know that will be put to good use." *The Hourglass* regrets the error.

On Page 7 of Saturday's paper, Mike Herrington's dates of service in Vietnam were listed as 1872-1976. Uh . . . we're pretty sure that should have been 1972-1976. Sorry about that Mike.

Saturday's front page photo was taken by Mike Zeitzmann.

The TV and Entertainment Guide is published on Fridays and is available in the gray boxes at the following locations: outside the post office, Surfway, Café Pacific and in the hallway of Building 805 across from the police station.

The Hourglass is now located in the AFN office on the second floor of Building 805, next to Grace Sherwood Library.

To the person who took my bike out of my yard with my sons baby seat on it. This was my transportation to get my child around the island.

To all those 'Thumb Downers' who focus on small stuff and fail to get the whole story before they submit their 'Thumbs Down' opinion. I believe this forum should be for issues that affect the moral and welfare of everyone on island, not just the inconveniences of a few individuals.

THE KWAJALEIN HOURGLASS

The *Kwajalein Hourglass* is named for the insignia of the U.S. Army 7th Infantry Division, which liberated the island from the forces of Imperial Japan on Feb. 4, 1944.

The *Kwajalein Hourglass* is an authorized publication for military personnel, federal employees, contractor workers and their families assigned to U.S. Army Kwajalein Atoll. Contents of *The Hourglass* are not necessarily

official views of, or endorsed by, the U.S. Government, Department of Defense, Department of the Army or USAKA. It is published Saturdays in accordance with Army Regulation 360-1 and using a network printer by Kwajalein Range Services editorial staff.

Work schedule going to four ten-hour days

By Dave Norwood

Kwajalein Range Services president

As an initiative under the U.S. Army Kwajalein Atoll Power Reduction Plan, Kwajalein Range Services has been directed to modify its work week schedule to include four ten-hour work days wherever it is practical. The primary motivation for going to this "4-10" schedule is that it will reduce by 20 percent the number of days that affected facilities are occupied. That will allow for the reduction of power consumption by turning out the lights and raising the thermostat settings. In order to realize the savings in any given facility, it is necessary that all the occupants work the same schedule.

KRS has begun planning to implement a 4-10 schedule. It is clear that not all activities on USAKA can change to a four-day work week. A perfect example is the Kwajalein Schools which will continue to

operate on a five-day academic schedule. Also, because of the close interdependency between many agencies and offices on USAKA, the change of work week schedule in one area may have the effect of forcing changes to occur in other areas. All of these secondary and tertiary impacts may not be known until the changes begin to go into effect, and some adjustments may need to be made.

However, there are many consequences of this change that are known. The office hours for most 4-10 offices will be from 6:30 a.m. to 5:30 p.m. including an hour for lunch. These extended work hours will have to be accommodated by changes in intra-atoll transportation, both the island ferries and the Metroliner flights, and by changes in the hours of operation at the Child Care Center. Because of these changes, even the offices that stay on a five-day schedule will need to adjust work hours to be from 6:30

a.m. to 3:30 p.m. Most retail facilities will be closed an additional day each week; the days of operation will be adjusted to minimize the impact on the community. The hospital and dental clinic will probably go to a four-day schedule, but the work week will be modified so that they are open for service on one of the days the 4-10 workers are off. This will make it easier to make medical and dental appointments.

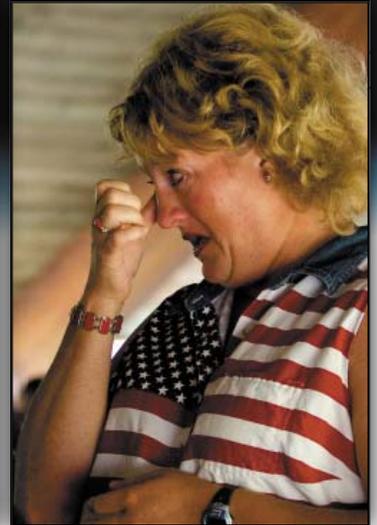

The goal is to complete planning so that the necessary changes and adjustments can be implemented by the first of December. More detail on community related impacts will be provided once specific plans are in place. Work week schedules for individual offices and agencies will be determined and published, also.

The Hourglass will be taking the opportunity as time goes on to share more information on this particular initiative and on other power reduction initiatives.

HONORING THEIR SERVICE

TO OUR COUNTRY

Greg Horner, left, plays the bagpipes at Monday's Veterans Day Ceremony. Officers from the Kwajalein Police Department, center, raise the colors and Candace Everts, right, listens to the speakers. The ceremony was held in the chapel and U.S. Army Space and Missile Defense Command Sgt. Maj. Ralph Borja, Col. Stevenson Reed, U.S. Army Kwajalein Atoll commander and Gerald Halpin, World War II veteran spoke.

World War II veteran visits Roi, helped rebuild island after Operation Flintlock battle in 1944

By Nell Drumheller
Editor

Gerald Halpin is a man who has done quite a bit in his life, not the least of which was the three years he spent in the U.S. Navy as a Seabee.

Halpin was a Carpenter's Mate with the 109th Construction Battalion. History buffs might recognize the 109th. It's remembered in the Marshall Islands as the battalion of Seabees attached to the Marines assigned to fortify and rebuild Pacific islands after the Japanese were routed in 1944.

Halpin returned to Roi-Namur last weekend, showing his son Peter where he'd lived and worked for a few months while battles

were waged across the Pacific. "I didn't expect it would be as beautiful as it is. I'm amazed at the number of trees and how beautiful it is. When I left here it was all rubble," he said during his tour of Roi-Namur.

"We came in here actually to do construction work," Halpin said. "The first thing was to clean up the place. You know it was complete rubble. Everything had been bombed and shelled for a few weeks by the U.S. before the invasion."

A report from a U.S. Marine artillery spotter in an aircraft over Roi during U.S. attack on the Japanese described the destruction, "Great God Almighty! The whole damn island has blown up!" On the beach another officer recalled that "trunks of palm trees and chunks of concrete as large as packing crates were flying through the air like match sticks. The hole left where the blockhouse stood was as large as a fair-sized swimming pool."

And from this wreckage the Seabees were tasked to clean up the mess and build a usable airfield.

"We were cleaning the place up and there were an awful lot of burials to take place, there were a number of thousand," Halpin said. "One of our jobs was picking those bodies up and seeing they got in the ground. After that it was to clean the place up and get the airstrip redone because it had been bombed too."

Halpin recalled the hard work during his time in the Marshalls, but said there were also some good times.

Halpin and his son, Peter take the Roi-Namur battlefield tour.

Roi and Namur were scenes of utter devastation after the 1944 battle.

“There was a big Quonset hut at the end of the runway on the Namur side and it had been destroyed somewhat by bombs; both ends of it were open. And then one day we were doing some coral work on the airstrip and a Marine flyer came in flying a Corsair and he flew it upside down through that old hangar. We all almost dropped over in awe.”

Halpin was a teen when he joined the military, and he recalled one of the things he and his younger buddies did for fun. They’d dive offshore and collect shells. “Well we used to collect cat eyes, little shells, and we’d polish them. We could pay the pilots ten or eleven cat eyes to go on a bombing run. Can you imagine that? We’d pay to go on a bombing run and get shot at?” He added that the natives of Roi and Namur seemed concerned about the young Sailors’ antics. “The Marshallese kept shaking their heads at us and indicating that we shouldn’t be do it. We didn’t pay attention. And then later as we were leaving to go back to Hawaii, our ship stopped in Kwajalein and I saw the biggest

shark I’d ever seen. Then I knew what the Marshallese were warning us about.”

A shark attack wasn’t the only danger Halpin faced while on Roi and Namur. “We were unloading huge 500-pound bombs, because Admiral Nimitz said before we [the United States] went out to any more islands they’d have to be bombed for several weeks, so there was this huge pile of explosives in the middle of the island. The place was being cleaned up, when the Japanese came back and bombed us.”

The Japanese’ second bomb hit the middle of the ammunition storage area, “We thought we were being bombed for about four hours, but it was our own explosives going off mostly.”

Halpin said the runway was “pretty functional” before the Seabees moved on.

Though he entered the Navy as a youth, what he saw and did matured him quickly. He said of his time in the service, “It made me more appreciative of my comrades,

Halpin and son, Peter, attend the Veterans Day ceremony Monday.

See VETERAN, Page 6

VETERAN, from Page 5

the people above me. The higher level people were very fair and did their jobs. I think it enlightened me to perhaps work harder and decide where I was going from there."

Halpin's sights were set on higher education when he left the service. "After we got released, I think it was in June, I applied to go to college. I got accepted to start college in the spring. I figured I'd already spent four years away from high school and college and so it'd be better if I got into college in September rather than six months later so I went up to college at Syracuse University.

"As a result of my work in the Seabees I had to keep busy everyday," he said. And so the next stage of his life began. His brother, who had served in Europe, was working on his doctorate at the same school. "I found out that to stay in a boarding house up there cost \$30 a month," he said, adding that was quite a bit of money at the time. "We had six or eight thousand returning veterans enter that school in September of that year." Recognizing the immediate need for housing, Halpin did the math and came up with a plan. "I had to keep busy, my brother and I rented a room for \$30 a month. I bought two old houses using the GI Bill and since I was a carpenter, I renovated them." He became a landlord when he made them into boarding houses. Soon he was receiving \$30 a month from each of

his tenants. It was the beginning of a long and successful career as an entrepreneur and developer, fueled by initiative, timing and hard work. "I had my classes from 8 to 11 in the morning and then a job in the afternoon and revamped the houses."

Since then Halpin has been founder, chief executive officer, chairman or president to hundreds of businesses.

In the 1960s, with his business partners, he developed an area outside of Washington, D.C. now known as Tysons Corner. He also built a missile launching station in Utah; developed a propellant manufacturing facility on several thousand acres on the Outer Banks of North Carolina and developed several hotels, resorts and housing areas.

His experiences in the Navy helped mold his future.

The key to success, according to Halpin, is "Get good staff, good people. I found out that some of the best people I could hire were retired military people." He added that there was more to success than just hiring the right people. "Treat them correctly. We have some secretaries that are millionaires and some gardeners that are almost millionaires."

Quarters of the Quarter

The following houses and trailers have been selected as finalists for the Quarters of the Quarter Program.

- North: Quarters 188 Dome, (Giedroc)
- South: Two-way tie between Quarters 445-B, (Beniamina) and Quarters 105-A (Childers)
- Central: Quarters 229-A, (Lindborg)
- Trailers: Trailer 532, (McGinis)

Final judging will take place Dec. 15.

CHICKENS, from Page 2

I haven't checked it today. The way the dollar is sinking faster than the *Titanic*, you never know.

There is talk in financial markets of worldwide abandonment of the U.S. dollar. Financial giant Warren Buffet has been amassing foreign currency for several years now, which shows his non-faith in the U.S. dollar.

China, Japan and South Korea have the most holdings in dollars due to the trade deficit the U.S. has with those countries. All three of those nations are starting to divest themselves of dollars in favor of more valuable currencies such as the Euro. That will drive the dollar down even further.

So, why has the dollar become a shadow of what it used to be?

The answer is complicated, but one of the prime reasons is free trade which has led to massive U.S. debt since the creation of the North American Free Trade Agreement and the World Trade Organization.

In 1993, before NAFTA, the U.S. trade deficit was \$100 billion. The current deficit is more than \$857 billion and climbing. Since 2000, the national debt has doubled to more than \$9 trillion.

The huge expense the wars in Iraq and Afghanistan have created is in addition to all that. The U.S. is spending almost \$12 billion a month for the Iraq war. It's estimated that the cost of both wars will exceed \$1.9 trillion by 2009.

That money is being borrowed from foreign countries (mainly Japan and China) at a rate of more than \$2 billion a day. A new congressional report said the interest alone on that money could come to \$550 billion.

Many economists have been saying for years that the massive borrowing we're doing is unsustainable.

It would be funny if it wasn't so scary that our country, burdened as it is with massive debt for which it has to borrow billions of dollars, still keeps giving billions in foreign aid to countries that hate us. Can somebody explain that to me?

Oil was selling at \$35 a barrel before the invasion of Iraq. It's now selling for nearly \$100 a barrel which adds directly

or indirectly to the cost of everything we use and consume in our daily lives.

As foreigners make more and more money off the U.S., they are buying up our companies, real estate and infrastructure. Some of our toll roads, bridges and highways are owned by foreign investors. They are buying our banks and other financial institutions.

Baby Boomers will start retiring by the millions in the next few years putting an incredible strain on the country's finances as we try to pay for Social Security and Medicare.

Then there's the credit crisis with the subprime loan debacle that is affecting the dollar.

So, what does all this mean to the average American?

Quite simply, a sinking dollar means a poorer country.

As the dollar sinks, it's purchasing power sinks and the countries that export items to us will demand more dollars for their goods. Therefore, everything we import will cost the American consumer more money.

I believe that's called inflation, which leads to less consumer spending, which leads to less goods being sold by companies, which leads to layoffs, which leads to recession.

OK, what's to be done about it? Well, that's a question that might not have an answer at this point in time.

But there is no option except to solve these problems and quickly.

In my opinion, the very first thing that should be done is to withdraw from any and all free trade agreements we have entered into. We should either stay out of such agreements altogether, or, negotiate agreements that don't make total chumps out of us. We must demand a level playing field or no deal.

Japan and China have been playing games for years with the value of their currencies. They have been dumping products on our markets for less than what it cost them to make in order to drive American companies out of business. And for years, our government has allowed it.

If foreigners play those games, then

Congress should enact tariffs and whatever else is necessary to bring the price of their products in line with ours. We have to do something to protect ourselves from these cheating business practices that are driving our country broke.

We have to stop the foreign aid we give around the world. It's time to take care of our own people in our backyard.

We have to find a solution to the Iraq situation. The spending we do there just can't go on for too much longer. Do the math. It's simple economics.

At this point though, no matter what we do, we're pretty much between a rock and a hard place.

To strengthen the dollar, the Federal Reserve would have to substantially raise interest rates. This would mean less borrowing and less dollars in circulation which would increase the value of the dollar.

But, on the other side of that coin higher interest rates would put the brakes on the economy as loans for businesses and consumers would cost much more which would lead to less items purchased and jobs lost. The result could be a deep recession.

However, given those two choices, I'd raise the interest rates and do all I could to strengthen the dollar. We can weather recession. We can't weather worthless money.

All the chickens of free trade, globalization, trade deficits, robbery of the Social Security trust fund, pork barrel spending, deficit spending, tax cuts, massive borrowing, underfunding of Medicare, and the costs of Iraq and Afghanistan are coming home to roost.

I don't profess to be an economist or have answers. I'm just an ordinary citizen who figures if the United States doesn't get its financial house in order soon, it may be Americans who are crossing borders looking for jobs.

When the peso is worth more than the dollar, Mexico will probably build a wall to keep us undesirable Americans out of their country.

But hey, they might hire some of us to help build it.

Macy's Thanksgiving sale is through Friday.

- 30 percent off Thanksgiving holiday merchandise
- 20 percent off Christmas holiday merchandise
- 50 percent off all holiday cards
- 25 percent off toys
- 20 percent off jewelry and watches (logo items excluded)
- 30 percent off China, crystal, novelty serving and decor pieces

Twelve servicemembers die in Global War on Terror

Five Soldiers died of wounds sustained when their patrol was attacked by direct fire from enemy forces in Aranus, Afghanistan on Nov 9. They were assigned to 2nd Battalion, 503rd Airborne Infantry Regiment, 173rd Airborne Brigade Combat Team, Vicenza, Italy. Two died Nov. 9: **1st Lt. Matthew C. Ferrara**, 24, of Torrance, Calif., **Spc. Sean K. A. Langevin**, 23, of Walnut Creek, Calif. Three died Nov. 10: **Sgt. Jeffery S. Mersman**, 23, of Parker, Kan.,; **Spc. Lester G. Roque**, 23, of Torrance, Calif. and **Pfc. Joseph M. Lancour**, 21, of Swartz Creek, Mich.

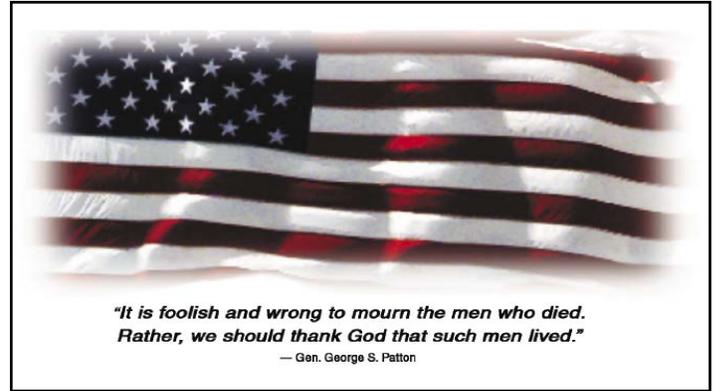

Spc. Jermaine D. Franklin, 22, of Arlington, Texas, died Nov. 9 in Jisr Naft, Iraq of wounds sustained from an improvised explosive device. He was assigned to the 1st Squadron, 32nd Cavalry Regiment, 1st Brigade Combat Team, 101st

Airborne Division (Air Assault), Fort Campbell, Ky.

Sgt. Phillip A. Bocks, 28, of Troy, Mich., died Nov. 9 while conducting combat operations in Aranus, Afghanistan. He was assigned to Marine Corps Mountain Warfare Training Center, Bridgeport, Calif.

Staff Sgt. Patrick F. Kutschbach, 25, of McKees Rocks, Pa., died Nov. 10 in Bagram, Afghanistan from wounds suffered in Tagab, Afghanistan when his vehicle was struck by a rocket propelled grenade and small arms fire. He was assigned to the 1st Battalion, 10th Special Forces Group, Stuttgart, Germany.

Sgt. Joseph M. Vanek, 22, of Elmhurst, Ill., died Monday in Baghdad, Iraq of wounds suffered when enemy forces attacked his unit using small arms

He was assigned to the 2nd Battalion, 325th Airborne Infantry Regiment, 2nd Brigade Combat Team, 82nd Airborne Division, Fort Bragg, N.C.

Two Soldiers died Tuesday in Mukhisa, Iraq of wounds suffered when an improvised explosive device detonated during dismounted combat operations. They were assigned to the 2nd Battalion, 23rd Infantry Regiment, 4th Stryker Brigade Combat Team, 2nd Infantry Division, Fort Lewis,

Wash. Killed were: **Sgt. Christopher R. Kruse**, 23, of Emporia, Kan. and **Spc. Peter W. Schmidt**, 30, of Eureka, Calif.

Pfc. Casey P. Mason, 22, of Lake, Mich., died Nov. 13 in Mosul, Iraq of wounds suffered when enemy forces attacked his unit using small arms fire. He was assigned to the 728th Military Police Battalion, 8th Military Police Brigade, 8th Theater Sustainment Command, Schofield Barracks, Hawaii.

Rumor Mill checks into trailers, alcohol, job fairs

The latest three rumors submitted to the *Kwajalein Hourglass Rumor Mill* have been declared untrue. Kwajalein Range Services leadership answered the following rumors:

1. "U.S. Army Kwajalein Atoll is having KRS clean and reconnect the power to some of the 'better' trailers that are empty, the ones with additions, etc. USAKA personnel now living in trailers will have the option to move into these 'better' trailers. However, when KRS employees asked if they could move into the 'better' trailers they were told that it was not an option. Is that true?"

2. "It is rumored that Roi Namur will be a "dry" island i.e., no alcohol, is this true?"

3. "I heard that teachers are being sent to job fairs in the states to look for new jobs and that KRS is paying for the trip. Is that true?"

Submit rumors to *The Hourglass* at hourglass@smdck.smdc.army.mil.

Rumors will be forwarded to the appropriate

departments for answers. The rumors and the answers to them will be printed in *The Hourglass*.

HELP WANTED

KRS has the following job openings. For contract hire positions, call Sheri Hendrix, 256-890-8710. For all others, call Carolyn Veirup, 51300. Full job descriptions and requirements for contract openings are located online at www.krsjv.com. Job descriptions for other openings are located at Human Resources, Building 700.

NEED EXTRA money? KRS employment applications are continually accepted for all Community Services departments and the Human Resources temporary pool for casual positions. Some examples of these positions are: sport officials, scorekeepers, delivery drivers, lifeguards, catering/dining room workers, medical office receptionists, temporary office support, etc. For more information, call the KRS HR Office at 54916.

Hush puppies

Friday

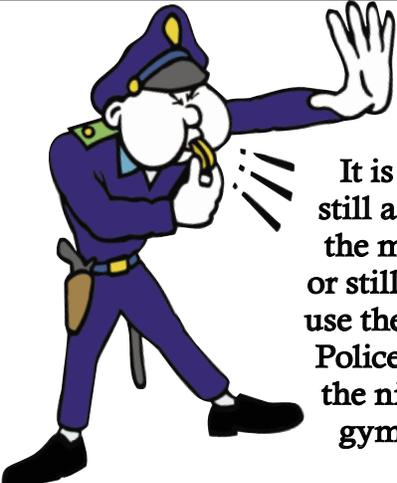

THANKSGIVING
Turkey with trimmings
Crab legs/baked ham

Café Roi

SIX SIGMA
PERFORMANCE-BASED LEADERSHIP

Electronic Timekeeping Design for Six Sigma: A Six Sigma team designed a new process to transfer from manual time cards to eTimesheets. This effort eliminated the administrative efforts to collect, distribute, audit, resolve errors, obtain hard copy signatures, and transport to and from Payroll. Savings realized from this effort are \$25,000 in hard savings from saved paper and ink along with \$262,000 in soft savings by eliminating the manual administrative work.

Curfew!

It is a violation for anyone under 18 or still a high school student to be out past the midnight curfew. Anyone under 18 or still in high school is not authorized to use the Ivey Gym after curfew. Kwajalein Police will check the facility throughout the night time hours. Anyone using the gym past curfew will be detained for trespass and curfew violation.

You're invited for Thanksgiving

Friday at Café Pacific

- 11 a.m.-6:30 p.m., unaccompanied personnel
- 1-6:30 p.m., all other residents

The community is invited to a Thanksgiving feast at Café Pacific on Friday. Some of the items the chefs will prepare include a carving station featuring roast prime rib and Virginia smoked ham, roasted turkey with all the trimmings, steamed crab legs, cashew-encrusted mahi mahi, tortellini in asiago cream sauce, chilled seafood bar including jumbo peel-and-eat shrimp, mussels on the half-shell, smoked salmon and a variety of desserts. Beer and wine will be sold. Customers are not allowed to bring alcohol. No take out meals unless request form submitted in advance. Menu is subject to change due to availability.

Are you of the Jewish faith and looking for fellowship? A meeting will be at 7 p.m., Tuesday, in the Religious Education Building. All Jewish denominations are welcome. Questions? Call Larry or Cindy, 52395.

U.S. Army Kwajalein Atoll

THE LOGISTICS HOUSING OFFICE reminds all housing residents, per SPI 1353 building permits, that in order to transfer a deck, fence, patio cover etc. from one quarters to another, the recipient must have an approved building permit. For more information, call the building inspector, 53288.

IN A CONTINUING effort to provide customers with heart healthy alternatives, Café Pacific is now utilizing zero trans fat margarine for the preparation of soups, sauces and gravies.

Notice of reclaimed water standard violation

On Oct. 12, a repair was necessary for a cracked chlorine injector for the reclaimed water system.

While the injector was being repaired for a period of time less than two hours, the chlorine levels at the point of entry for the reclaim water were below the required 1.0 parts per million (ppm) and were measured as low as 0.17 ppm during this two hour duration.

Following this event, bacteriological samples were obtained from the

point of entry and no fecal coliform were present. The Reclaim Water Document of Environmental Protection requires public notification when reclaim water standards are violated. If you have any questions, contact Anne Robinson, 58301.

Ilo Balide October 12, 2007, juon jermal in karpen ar aikuj in komon non ijo ej drelon chlorine non reclaimed water system eo. Ilo tore in jermal in ej komon (ikotan 0630 non

POLICE, from PAGE 2

If parking on the grass is the worst Kwaj resident complaint about KPD, I'm confident we are in pretty good shape. For instance, did you know that our staff safely processes as many as two or three thousand people through the Dock Security Checkpoint per week.

Did you know that our staff, at times, has to work as many as 18 hours straight at the airport because of a late incoming flight?

Maybe you didn't catch the *Hourglass* article that told of the dangerous, open ocean rescue that KPD's marine section performed a few months back. Or how about the fact that KPD Officers and Access Control Officers stand their posts or patrol their sectors 24 hours per day, seven days a week, 365 days per year.

They gladly perform duties expected of them in order to support, protect, and serve the command and community of Kwajalein and Roi. Quietly, without seeking praise, recognition or fame, our officers do the tasks appointed them.

Do they complain sometimes?

Of course, but only to each other. You see, you could not be expected to understand the challenge of being an enforcer of the law in a small community where you live, unless you have also worn a badge.

So, we stand our post and patrol our sectors, we raise the flag of this great installation in the morning and we lower it at night. We respond to your calls of need and investigate all of the nuisance alarms that go off in a rain storm. We hold community-sponsored events like Bike Safety Rodeos and participate in sports activities. We interact with the school staff and stand crosswalks to ensure the safety of our Kwaj kids.

Hey, I'm OK taking complaints and I will always take your cares and concerns seriously enough to look at each and every matter. I recognize that we won't be able to please everyone and I accept that.

We do try our best, as all those assigned to this department are professions in every sense. When you're tightly tucked into your beds tonight falling fast to sleep, you can rest easy.

Know with comfort that KPD officers and ACO's are on their watch. I know, and I am honored to serve with them.

Once again I extend my open door policy to all of you in the community and command.

Let me know how we are doing . . . both the good and the bad. See you around the island.

Until next time, be safe, be well and continue to look out for each other.

THE CHAMPIONSHIP swim meet is at 4 p.m., Monday. Come out and cheer on the swimmers. Questions? Call Lora Kendrick, 54186, or e-mail: Kendrick@kwajalein-school.com.
