THE KWAJALEIN HOURGLASS

The Kwajalein Hourglass is named for the insignia of the U.S. Army 7th Infantry Division, which liberated the island from the forces of Imperial Japan on Feb. 4, 1944.

The Kwajalein Hourglass is an authorized publication for military personnel, federal employees, contractor workers and their families assigned to U.S. Army Kwajalein Atoll. Contents of the Hourglass are not necessarily official views of, or endorsed by, the U.S. Govern-

ment, Department of Defense, Department of the Army or USAKA. It is published Saturdays in accordance with Army Regulation 360-1 and using a network printer by Kwajalein Range Services editorial staff.

Standout Kwaj teens represent at national convention, council

By Jamie Simpson
CYSS Work Study Student

The Child, Youth and School Services department and the teen community are all very proud of Iwanlani Furgeson and Dori DeBrum.

Furgeson was selected by the Boys and Girls Club of America to participate on a Teen Advisory Council. This council provides feedback and insights related to BGCA's services to teens, programs offered and much more. The feedback provided by teens is significant in making sure the BGCA is a positive place for teens. Ferguson will be representing not only BGCA programs run on Kwajalein, but BGCA programs run all over the global Army teen community. Furthermore, due to Furgeson's nomination, CYSS staff is attempting to secure her a position at the BGCA Keystone Club National Conference in Atlanta in March.

The National 4-H Conference chose DeBrum to be a youth delegate at their event in April in

Photos by Jared Barrick

Iwanlani Furgeson, left, was selected by the Boys and Girls Club of America to participate on a Teen Advisory Council. Dori DeBrum, right, was chosen to be a youth delegate at the National 4-H Conference in Washington, D.C.

Washington, D.C. Delegates at the conference participate in various activities including engaging in personal development experiences

that will increase knowledge, resources and skills; presenting a youth voice about specific issues to a partnering agency affecting youth and communities nationwide; and creating positive social change in their communities in a meaningful and genuine way. DeBrum will be representing Kwajalein 4-H clubs, but will also be the only delegate at the conference from an Army installation.

Furgeson had to be nominated by CYSS staff and show that she was a teen with good standing in the community and good leadership skills among her peers. DeBrum completed numerous essays explaining her community service, involvement in 4-H programs and how she will further develop 4-H on Kwajalein when she returns. Both teens went through a very nerve racking and competitive process for their selections and both are now feeling the benefits of their hard work. We know that they will both be successful in these individual endeavors, and represent Kwajalein and the Army teen population in a positive light.

WORKING TOGETHER

Photo by Bill White

Members of the Republic of the Marshall Islands Kwajalein Atoll Government delegation, U.S. Army Kwajalein Atoll and Reagan Test Site attend the Community Relations Council meeting held at USAKA Jan. 18. The CRC is mandated by the Compact of Free Association between the U.S. and RMI. The meeting focuses on community-level issues of mutual interest between USAKA, the RMI and KALGOV, and the combined efforts between USAKA and the RMI to make a better life for all who live in Kwajalein Atoll.

Excess items waiting for your purchase

Hourglass Reports

It's the big building at the very end of the island. Most people rarely venture down there, but you could be missing out. Building 1500, the Defense Center Control Building, houses the Excess Property Processing Facility. With the decrease in island population over the years, there are many items within departments that are no longer used or needed. Malcolm Gowans is the EPPF supervisor. He oversees two EPPF logistic clerks and three warehousemen: Elain Iaman, Shana Loek, Elmi Johnson, Darrel Lemari and Nebu Patterson. USAKA Government Property Administrator and Plant Clearance Officer, Lauren Harrold, oversees the disposition operation at the EPPF. Harrold is responsible for approving all reutilization, sales and donations. Together, they all work to reutilize items throughout the contract to save money. Harrold is also in charge of determining if items that are excess to the needs of the government can be donated. They will donate to schools, churches, hospitals and non-profit organizations on Ebeye and Enniburr.

The whole process starts when someone determines they have government property that can no longer be used within their department. They fill out a required 1046 Disposition Form and turn it in to the EPPF, along with the item(s). Check the EPPF/DCCB calendar on the intranet to see which week is the "receiving week" (Kwajweb home page > Contractor Information > KRS > EPPF/DCCB). There is a warehouse receiving area at the DCCB where you turn in your items along with the 1046 form. All government property, even if you consider it scrap or junk, must be tracked. If you have a lot of items to disposition, you can set up an appointment with EPPF and they can arrange to assist; that can include bringing a container to your building, or working with Harrold so that a pre-inventory scrap disposition determination can be conducted at your location instead of hauling it to the DCCB and doing it there.

Gowans always says, "Less is best. The less you're responsible for, the better off you are." He recommends you disposition anything you are not using and probably never will. You can call property management to get a listing of items that are on your account. If you take the time to comb through your listing and disposition what you don't need, you will save time on annual inventories and also potentially help save money on the contract. "If we don't know an item is excess, somebody may be going out and buying that item, when we already have it available for reutiliza-

The EPPF/DCCB intranet site is a source of information including the receiving and sale calendar and necessary forms for disposition.

tion," Gowans said. Office items such as desks, chairs and filing cabinets are often transferred between departments.

Reutilization within the government is always first, and this is in accordance with the Federal Acquisition Regulation. Once items arrive at the EPPF, Gowans and his staff take the property that has been identified as excess and determine if the items can be reutilized in some other area within the contracts that support the USAKA and RTS mission; this is provided the Army Item Manager has not made a decision for the item to be returned for further use by a government agency. After reutilization screening by the Army and follow-on screening by USAKA and RTS contractors, excess items are again reported to the on-island government representatives. If the items are allowed to be dispositioned locally, the first decision by the GPA/PLCO is to determine if the items are eligible to be offered on a Right of First Refusal, which offers the items to the Government of the Republic of the Marshall Islands under the Compact of Free Association. The GRMI can either place a bid on the items or not. If no bid is received, some items can then be offered up in a sealed or Unsolicited Bid Sale here on Kwajalein.

Unsolicited Bid Sales are conducted every two weeks at the EPPF. Sealed bid sales are special sales that are

advertised locally and conducted as needed. The calendar on the intranet shows sales days and hours of operation.

“Anyone can come down here and review items for reutilization,” Gowans said. You must wear close toed shoes to enter the building. Show up on any sales day, at any time, to review sales items. When you sign in, you are required to read and review the sales terms. The sales terms are posted on the front desk at the EPPF in both English and Marshallese. Once you have read the terms, you can browse the items in the warehouse. If you see something you would like to purchase, fill out a bid form, which includes your name and contact information, for the items you are bidding on and how much they cost. These forms are passed along to Harrold for review. Once she approves the sale, the forms are sent to KRS finance. The buyer is notified of approval and must go to finance to pay for their items. You must show your ID at the finance office; the person paying for the item must be the same person who won the bid. Once items are paid for, you have 30 days to pick up your items from the DCCB; you must bring your paid bid form back with you.

Since the Barge Slip Ramp has been unavailable, the government has allowed items purchased by Ebeye residents to remain in the EPPF. Special LCM transfers began in December to start hauling that property over to Ebeye. Items with

Photo by Sheila Gideon

Office and housing furniture are the most available excess items for sale at the EPPF. Head down to the DCCB to check out items during sale weeks.

the oldest purchase date are being transferred first. This special LCM will run once per month through May 2013. There are a lot of items that need to be transferred; if you purchase an item this month, there is no guarantee it will make it on an LCM transfer now through May.

Special Bid Sales are occasionally done on Roi-Namur when there are a large amount of items identified as excess (normally furniture). Items are reviewed for reutilization and then reported to the USAKA GPA/PLCO. Then, if warranted, a sale will be advertised and conducted.

What if you know of an item you need, but it is not currently at the EPPF for sale? Gowans maintains a Needs and Wants List. “If people are looking for something specific that we actually don’t have now, we will put them on a list.” He will be on the lookout for those items and call if and when it comes in.

Property management staff is standing by to assist with any part of this process. Simply call and ask for assistance. The more people who turn in excess items, the better chance it can be reutilized and help save money on the contract.

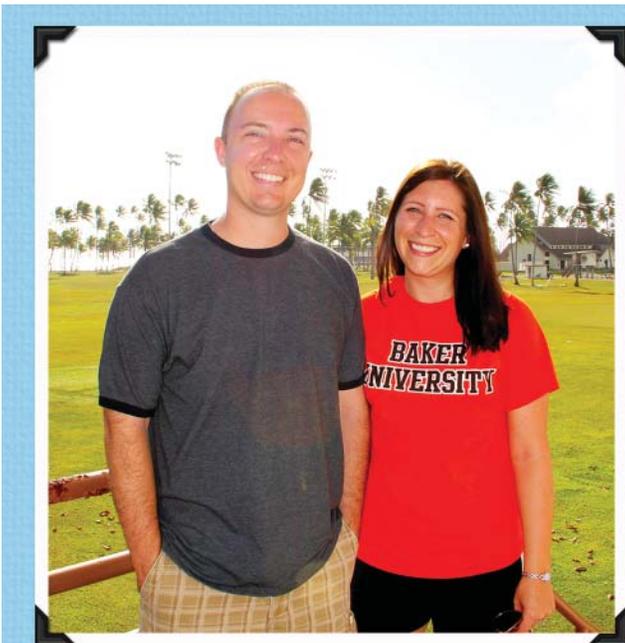

Photo by Sheila Gideon

Yokwe!

Michelle and Jason Huwe arrived at Kwajalein Jan. 17, from Olathe, Kan. They heard about Kwajalein through Matt and Mindi Gerber, teachers at Kwajalein High School. Michelle is the new Athletics and Facilities Coordinator, and Jason is the temporary duty Chapel Lead. They are both looking forward to meeting new people and learning to scuba dive during their time here on Kwajalein.

Kwajalein National Honor Society students lend a helping hand to neighboring schools

Article and photos by Eva Seelye
Media Specialist

Last year, the Kwajalein chapter of National Honor Society had an idea to support our Marshallese neighbors on Ebeye; what better way to raise money than our annual Coffee Shop? The vote was unanimous and the decision final – all proceeds from the 2012 Coffee Shop would go to supplies to our neighboring schools of Calvary, Jabro and SDA. The event was successful and NHS walked away with a substantial profit. The service project, however, was put on hold until the following year due to minimal time before summer break. This postponement didn't hinder the group in the least; they picked up the project immediately, sending representatives to each school to ask what supplies they preferred. Upon return, groups were formed for each school and supplies were then found and ordered in bulk.

Once the packages arrived, the schools were notified and the date was set for Jan. 14. All of NHS met at Matt Gerber's classroom at precisely 7:30 a.m. to begin loading boxes into trailers and head down to Dock Security Checkpoint. Some of the students from Jabro greeted NHS at the Ebeye dock as everyone started heading towards the schools. Upon arrival at the schools, the students greeted the Kwaj High teens with a welcoming song and traditional Marshallese necklaces.

"It was a once in a lifetime experience," said Molly Premo, a sophomore in NHS.

"There were at least a hundred kids at Calvary," explained Mary McPhatter, vice president of NHS. One of the NHS members then spoke to the group explaining the steps that led them to the deliverance of supplies, followed by a Marshallese translation from another NHS student. The supplies were then presented to the schools. They varied from paints and notebooks to basketballs and packs of 144 ping pong balls. The teachers as well as the students were thrilled.

NHS students, Eltina John, left, and Rachel DeLange, explain in English and then Marshallese how the donated items were purchased.

National Honor Society advisor, Matt Gerber, and NHS student, Colleen Furgeson, pack boxes of supplies to bring to Ebeye schools as part of a service project that began last year.

After this exciting presentation came the games. The students had brought a variety of fun-filled activities to allow both the Ebeye students and the Kwaj students to interact and have a great time. Many of the groups played the toilet paper ice-breaker game. The kids were told to take as much toilet paper as they needed for a week. Then, for each square, the student had to say one thing about themselves. Human knot, "one-two-three look up," and Simon Says were other games that were popular with the kids. However, one game that they all truly enjoyed was the "Hugging Game." The kids were told to spread out. Then, when the leader calls out a number, the students had to get into a group with said amount of people. Some of the students played volleyball and basketball games as well.

After two hours of fun activities, the NHS students returned to Kwaj. They were sincerely thanked by every individual student and teacher. As they departed, hugs were shared and inside jokes were expressed one more time.

Malkie Loeak, a senior in NHS, stated, "Although I translated, I believe the games and activities created a greater understanding and bond between the two schools."

Not only was it a great time, it was an unforgettable experience – allowing the NHS students to make a difference in our neighbors' education.

Weather quirks of 2012 explained

By Rebekah LaBar and Dustin Williams
RTS Weather Meteorologists

It was a relatively normal year for Kwajalein weather in 2012; certainly not what the Mayans predicted. As we enter 2013, let us look back on several aspects of our weather during the last year.

Rainfall

At Kwajalein Island, 87.51 inches of rain fell during 2012, which is 6.21 inches shy of the yearly average, 93.72 inches. Aside from May, which was wetter than average, the first eight months of the year were close to normal. At the end of August, rainfall accumulation for the year to date was just 0.94 inches above average. The months of September, October and November, usually the wettest of the year, were well below normal. During this three month stretch, 19.44 inches of rain fell, which is only 58 percent of the 33.79-inch average amount for the same time. December was a very wet month with 15.33 inches falling, well above the 8.13 inches average, due in large part to a couple of developing tropical waves. This erased 7.20 inches from the yearly deficit, but the year as a whole still ended up below normal.

Why was 2012 drier than normal, especially during the heart of the wet season? In a normal wet season, the Intertropical Convergence

Zone, an area of colliding low-level trade winds, settles in the central RMI and produces a band of heavy precipitation and thick clouds, aided by an upper-level trough to the north. This wet season, the ITCZ was disorganized and inconsistent due to the absence of the upper-level trough.

In spite of being below average overall, 2012 featured two of the wettest days on record. Here are the top 10 wettest days for Kwajalein Island, dating back to 1954, with those from 2012 in bold:

Dec. 16, 1972	11.19 inches
June 2, 1995	8.82 inches
May 17, 1980	8.35 inches
May 6, 1980	7.28 inches
Nov. 24, 1975	7.24 inches
Dec. 17, 1972	7.12 inches
March 24, 1955	6.40 inches
Dec. 19, 2012	6.36 inches
Oct. 19, 1968	6.10 inches
June 18, 2012	5.52 inches

Thunderstorms

Kwajalein Atoll only averages around 10-12 thunderstorm days per year. In 2012, there were 17 thunderstorm days. The most active month for thunderstorms was July, with five thunderstorm days. Of particular note were thunderstorms that developed on July 14 around the southern atoll, producing several dozen detected cloud-to-ground lightning strikes during the morning hours. Later in the year, on Sept. 8, a large cluster of

thunderstorms produced electrical activity all around the atoll during the early morning hours, with a couple hundred detected lightning strikes in just a few hours.

El Niño/La Niña/

Madden-Julian Oscillation

Sea surface temperature and heat content in the equatorial Pacific Ocean have important consequences for weather around the world. El Niño (La Niña) is characterized by a positive (negative) sea surface temperature anomaly in this region. Early in 2012, an established weak La Niña was in place, in general meaning drier than average weather for Kwajalein Atoll, which was the case. La Niña dissipated in April, leaving near average sea surface temperatures in the equatorial Pacific for the rest of the year. When conditions are neutral, the Madden-Julian Oscillation, a tropical disturbance that propagates eastward around the globe in 30-60 days, becomes a more important driver of weather in the global tropics. Kwajalein's above average precipitation in May, followed by a near normal June, is likely the result of an MJO phase. As neutral conditions continued through the rest of the year, and are projected to continue through early 2013, normal to slightly below normal precipitation has been and will continue to be the rule for Kwajalein Atoll.

KWAJALEIN HASH HOUSE Harriers will hold a Red Dress Run on Sunday. The "On-Before" is at 4 p.m., at the Ocean View Club. The "On-Out" is at 4:30 p.m. This year's hares are Queen LaQ and GetOutofJailFree. Trails include mountains, valleys, beaches and lots of shigg. Adults only. For questions, call 53667 or 51042. Don't forget to wear your red dress. Read up on the World Hash House Harriers at www.gthhh.com.

THE OPTOMETRIST, Dr. Chris Yamamoto, will be on Kwajalein and will see patients Sunday through Feb. 7. Call the Hospital for an appointment at 52223/52224 for eye exams or ES&H at 58855 for prescription safety glasses.

THE DENTIST WILL BE OFF ISLAND through Thursday. The Dental Clinic will be open regular business hours during this time. For more information, call 52165.

2013 INNER TUBE WATER Polo season dates are Feb. 5 to March 23. Registration ends Tuesday. Cost is \$100 per team and each team will be required to provide an official for season play. All teams must have a representative present at the mandatory Manager's Meeting held at 5 p.m. on Tuesday in the CA Office, Building 805. Questions, call Community Activities at 53331.

MANDATORY ISLAND ORIENTATION has been rescheduled. It will be from 12:30-4:30 p.m., Feb. 6, at CAC Room 6. Arrive 10 minutes early to sign in and be seated by 12:30 p.m. It is required for all new island arrivals but not recommended for dependent children under the age of 10. Questions, call the meeting facilitators at KRS Environmental, Safety and Health at 51134.

THE UNIVERSITY OF MARYLAND University College 2013 Spring Mid-Session registration is now open. Register through Feb. 7. Session dates: Feb. 11 to April 14. Schedules can be viewed by visiting the website <http://www.asia.umuc.edu>. Need help? Email the Asia office at de-asia@umuc.edu or call or visit the Kwajalein office at 52800, Coral BQ, Room 1.

BINGO IS FEB. 7 at the Pacific Club. Card sales begin at 5:30 p.m.; Bingo begins at 6:30 p.m. Blackout completion at 55 numbers with \$1,500 payout; Windfall completion at 25 numbers with \$1,500 payout. Must be 21 to enter and play, bring your ID. Questions, contact Darren Moore at 55599 or Ted Glynn at 53338.

ADOPTION SUPPORT GROUP: Has your

family grown through adoption? Are you interested in learning more about adoption? All are welcome to the Kwajalein Adoption Support Group. We will meet at 7 p.m., Feb. 8, at the CDC House, 213-A.

YYWC BASKET AUCTION will be at 7 p.m., Feb. 10, in the MP room. Kwaj and Roi residents are invited to a festive evening of wine, cheese and hors d'oeuvres featuring a silent auction, live auction and raffle of baskets filled with unique items. We have some fantastic baskets to bid on and 100 percent of the money raised goes back into regional schools. Tickets are \$15, which includes food and two beverages, and can be purchased at the Mic Shop during normal business hours; 11 a.m.-1 p.m., Mondays, on the PX porch; or by calling DeDe at 52306. Bring a date or bring a friend, but come enjoy an elegant night out with us!

THE BARBER/BEAUTY STYLIST will be on Roi on the following dates: Tuesday, Feb. 12, Feb. 26, March 12 and March 26.

SOLO GUITARIST DELANEY DAVIS will perform at Kwajalein: 6:30 p.m., Feb. 14, at Emon Beach; and 8 p.m., Feb. 24, at the Vet's Hall. She will perform on Roi-Namur: 7 p.m., Feb. 16, at the Roi Scuba Shack. Come enjoy live music compliments of the Quality of Life Committee.

NEW PRICES FOR MEALS at Zamperini Dining Facility and Café Roi, effective immediately: box lunch, \$6; breakfast, \$5; brunch, \$8; child's brunch, \$4; dinner, \$7; lunch, \$7. The dining policy has not changed. Only meal card holders and DVs can dine during the week. Non-meal card holders can only dine during Sunday brunch.

FEBRUARY IS BOAT Registration Month for all boats on lots and moorings. Buy your 2013 sticker at Small Boat Marina through February for \$25. Starting March 1, there will be an additional late fee of \$10.

LOST YOUR RESOLVE but not the weight? You are more likely to achieve your weight loss goals when you have support! Call 53362 for information about the weight management group that is starting this month.

VOLUNTEERS ARE NEEDED at the Grace Sherwood Library for the month of February. If you have a few free hours, contact Midori Hobbs at 53331.

THE KWAJ AUTOMOTIVE RENTAL Program is open from 7 a.m.-7 p.m. on weekdays and 6:30 a.m.-7 p.m. on weekends and holidays. For questions call 53341.

ISLAND RESIDENTS: We need your help col-

Military Casualties

Sgt. David J. Chambers, 25, of Hampton, Va., died Jan. 16, in Panjwai District, Kandahar Province, Afghanistan, of wounds suffered when he encountered an enemy improvised explosive device while on dismounted patrol. He was assigned to the 1st Battalion, 38th Infantry Regiment, 4th Stryker Brigade Combat Team, 2nd Infantry Division, under control of the 7th Infantry Division, Joint Base Lewis-McChord, Wash.

Sgt. Mark H. Schoonhoven, 38, of Plainwell, Mich., died Jan. 20, at Brooke Army Medical Center, Fort Sam Houston, Texas, from wounds suffered when enemy forces attacked his unit with an improvised explosive device on Dec. 15 in Kabul, Afghanistan. He was assigned to the 32nd Transportation Company, 43rd Sustainment Brigade, 4th Infantry Division, Fort Carson, Colo.

lecting Box Tops for Education. Clip box tops from participating food items and send them to school with your children or drop them off at Surfway's bulletin board. The Box Tops will help support the Ri'katak student lunch program.

TEACH OUR KIDS TO BE GREEN! Turn off your lights, computer and TV when not in use; don't let the water run continuously when brushing your teeth; use cotton or recycled material bags instead of plastic; recycle your plastic bags and used paper.

E-TALK: What is a Pandanus Tree? The pandanus is a native plant found throughout USA-KA. Removal of any variety of pandanus trees requires evaluation by KRS Environmental.

SAFELY SPEAKING: Take 5 for Safety: Take 5 to correct hazards in the office. Many office workers have been severely injured because simple safety rules and procedures were overlooked.
