

Vision

USASMDC/ARSTRAT – a diverse, complex, and global command that provides critical capabilities to our Army, U.S. Strategic Command (USSTRATCOM), Combatant Commanders (COCOM)/Army Service Component Commands (ASCC); in synch with Joint Forces Component Command – Integrated Missile Defense (JFCC-IMD).

One command – split based – multi-component – diverse constituencies – dispersed locations – talented work force of Soldiers, Civilians, Contractors; public servants.

The Army's force modernization proponent for Space, High Altitude, and Global Missile Defense; the Army's operational integrator for Global Missile Defense.

- Providing trained and ready space and missile defense capabilities to the COCOMs and to the Warfighter.
- Building future Space and Missile Defense forces.
- Researching, testing, and integrating Space, Missile Defense, directed energy, & related technologies.

Close, collaborative relationships with MDA and a multitude of stakeholders

Nested within the Army's enterprise; engaged with and embedded in the Headquarters Department of the Army Air and Missile Defense Task Force (HQDA TF)

Provide staff support to U.S. Army Cyber Command (AR-CYBER) until FOC; retain close organizational linkages

Disciplined stewards of our nation's resources – accountable, cost culture

Precise, confident, fit, disciplined, courageous Soldiers and Civilians; tough, caring, courageous leaders. Committed to safety in all that we do

A responsible and cooperative tenant at Redstone Arsenal, Peterson AFB, and on the installations on which we live and serve

A values based command – caring for and serving Soldiers, Civilians, Families

As the Army's force modernization proponent for space,

global missile defense, and high altitude; and as the Army's operational integrator for global missile defense, USASMDC/ARSTRAT will focus on three core tasks:

- Providing trained and ready space and missile defense forces and capabilities to the component commands and in support of the warfighter;
- Building future space and missile defense forces;
- Researching, testing, and integrating space, missile defense, high altitude, directed energy, and other related technologies.

Command Goal

To provide dominant space and missile defense capabilities for the Army and to plan for and integrate those capabilities in support USSTRATCOM and Geographic Combatant Commanders missions.

Mission

USASMDC/ARSTRAT conducts space and missile defense operations and provides planning, integration, control and coordination of Army forces and capabilities in support of U.S. Strategic Command missions (strategic deterrence, integrated missile defense, and space operations); serves as the Army force modernization proponent integrator for global missile defense; and conducts mission-related research and development in support of Army Title 10 responsibilities.

The U.S. Army Space and Missile Defense Command/Army Forces Strategic Command relies on industry, non-profit organizations, universities, and government laboratories to perform its mission through contracts, grants, cooperative agreements and other transactions.

It fully supports the national policy of positive and continuing efforts to encourage all small business concerns, including Small Disadvantaged Businesses, Woman-Owned Small Businesses, Service-Disabled, Veteran-Owned Small Businesses, Historically Underutilized Business Zone Small Businesses and Historically Black Colleges and Universities and Minority Institutions, to participate and share in these acquisitions.

USASMDC/ARSTRAT strives to place a fair proportion of its total procurement dollars for supplies and services with small businesses.

Command small business personnel are available to assist small business firms in becoming familiar with the USASMDC/ARSTRAT organization and provide counseling and guidance related to the small business programs.

The Small Business Office will also assist you in understanding the procurement procedures and provide information on sub-contracting opportunities to advance the growth and development of small businesses and HBCU/MIs in becoming competitive contractors.

These guidelines provide a simplified procedure for doing business with the command. The associate director for the Office of Small Business Programs acts as the point of contact and will respond to inquiries and provide any business counseling that you may require.

We welcome the opportunity to assist the small business com-

munity in pursuing procurement opportunities with the command.

Steps to take for doing business with USASMDC/ARSTRAT

1) Review the command's website at <http://www.army.mil/smdc>. Become familiar with the organization's structure. Click on Small Business Programs and review business opportunities.

2) Call or write to Huntsville office:
U.S. Army Space and Missile Defense Command/Army Forces Strategic Command
ATTN: SMDC-SB
P.O. Box 1500
Huntsville, AL 35807-3801
(256) 955-3412 or Toll Free: (866) 260-8428

Call or write to Colorado Springs office:
U.S. Army Space and Missile Defense Command/Army Forces Strategic Command-
Colorado Springs
ATTN: Directorate C
350 Vandenberg St.
Peterson Air Force Base, CO 80914-4912
(719) 554-1969

3) Discuss your company's capabilities and interests with the small business staff. Request a USASMDC/ARSTRAT organization chart. Request status of procurements in which you are interested.

4) Frequently review the FEDBIZOPPS website at <http://www.fedbizopps.gov> for contracting and subcontracting opportunities.

5) Be alert to announcements of industry briefings, business opportunity conferences, and trade fairs in your area. Make it a point to participate whenever possible. This is an excellent opportunity to meet with technical and/or acquisition personnel who are searching for qualified firms that may serve to support their mission requirements.

6) Follow-up with the Office of Small Business Programs. Be sure your Central Contractor's Registration information is up-to-date and accurate.
