

# THE KWAJALEIN HOURGLASS

**Visiting Australian Paralympic Swim Coach Brendan Keogh, is giving clinics to Kwajalein swimmers and coaches. For more, see Page 6.**

*(Photo by Nell Drumheller)*

# Commander updates transition plan

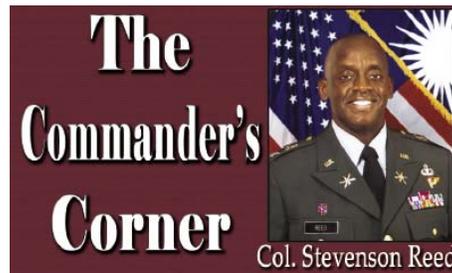

Let me start off by wishing each of you a Happy New Year as the first month of 2008 is halfway complete. My wish is that you are blessed with great health, happiness, and love during the year.

This past week, I witnessed several aircraft landing on Kwajalein as families returned after their holiday break. Par-

ents returned to start work again, children returned to start their second semester of the school year, and both sought friends as they retrieved their luggage from baggage claim.

In this editorial, I continue my efforts to keep you informed on transformation. I believe the interview on the radio in October, the television interview in No-

vember with Window on the Atoll, the Town Hall in December and the *Hourglass* articles, have all served to provide you the most current information. Today, I will address three specific transformation topics and will follow up with additional details next

month. The topics for to-

## COMMENTARY

# In real life, it's seldom all that funny

I was watching a TV program last week with two critics discussing a movie called *Juno*.

Both of them praised the movie saying what a wonderful job the actors did, especially the young lady who plays the title character. They also said it had a great script and so on and so forth. But then they said something that struck me as strange. They said it was a very good teen pregnancy 'comedy.'

I suppose most everyone has

heard of this movie and knows it's about a high school girl who becomes pregnant by her boyfriend (who is

more of a friend than boyfriend).

Well, I'll tell you — I've known two teen girls who got pregnant. They were daughters of friends and co-workers back in the states.

Comedy wouldn't be the first word I would use to describe what those girls and their parents went through. I think tragedy might be a better word for what they endured at that time.

Neither girl married the father of

## Letter to the editor

# Ebeye resident thanks Kwajalein community for help with boat

I would like to extend my thanks to the friends, families, and some I didn't have a chance to talk to in the Kwajalein Community for generously helping us repair our boat *Kejeban-Kij*. Our short time here was painless and enjoyable because of you stopping by and saying hello to the working crew or allowing them to borrow your bike. My words cannot convey enough for your generosity. I'm pleased to say that

all your support and cooperation has paid off. *Kejeban-Kij* is back in her prime and ready for service. Komol tata to Larry Cotton and San Juan Constructions Company, Noda Lojkar, Mike Wilttrout and family, Kirk and Raci Haferkorn, Yoshi Kemem and family, the RMI Host Nation office and the U.S. Army Kwajalein Atoll commander. May God bless you all.

—Rev. Hone Patrick, Ebeye

## THE KWAJALEIN HOURGLASS

*The Kwajalein Hourglass* is named for the insignia of the U.S. Army 7th Infantry Division, which liberated the island from the forces of Imperial Japan on Feb. 4, 1944.

*The Kwajalein Hourglass* is an authorized publication for military personnel, federal employees, contractor workers and their families assigned to U.S. Army Kwajalein Atoll. Contents of *The Hourglass* are not necessarily

official views of, or endorsed by, the U.S. Government, Department of Defense, Department of the Army or USAKA. It is published Saturdays in accordance with Army Regulation 360-1 and using a network printer by Kwajalein Range Services editorial staff.

# Electricity costs will be billed to clubs, boathouse owners

Hourglass reports

Private clubs and boat house owners will receive electric bills in a couple of months. Kwajalein Range Services was tasked by U.S. Army Kwajalein Atoll to develop processes to recoup cost of electricity used by private boat lots and clubs.

The fees for electricity at private boat lots have been established and the fees for private clubs are under development. Both fee structures are set by USAKA according to the rates established in the Financial Policy and Rate Manual.

Boat house owners will be required to sign a Power Use Agreement certifying the number and type of appliances in their boat house. The Power Use Agreements will be sent to boat house owners in February. All boat houses on Kwajalein were inspected by KRS personnel in September.

Boathouse billing will be done bi-annually through KRS Finance,

with monthly fees for basic service, \$3; small refrigerators, \$5; refrigerator/freezers, \$8; freezers, \$10.50; and window air conditioning units, \$32.50. Fees are the same for Kwajalein and Roi-Namur. Appliance energy usage is based on the energy estimated to be used by a new appliance per Department of Energy. The cost of the electricity is based on the electrical rate contained in the Financial Policy and Rate Manual which is updated annually, based on actual operating costs.

There 112 lots on Kwajalein and 13 on Roi-Namur. All lots on Kwajalein have been surveyed and 82 have electrical service. The lots on Roi-Namur have not been surveyed yet. Billing will be done through the KRS Finance Office.

Rates for private clubs have yet to be determined. The clubs are being metered now with an estimated completion date of Feb. 9.

For more information on this program, call Jim Landgraaf at 53360.

## Polish missile defensive site would benefit all Europeans

By Gerry Gilmore  
American Forces Press Service

A proposed anti-ballistic missile defense site in Poland would benefit all of Europe, a senior Pentagon spokesman said Tuesday.

Defense Secretary Robert M. Gates and Polish Defense Minister Bogdan Klich discussed Iraq, missile defense and other issues today during meetings held at the Defense Department's headquarters, Pentagon Press Secretary Geoff Morrell told reporters.

Gates and Klich "had a discussion about a range of issues," Morrell reported, including Polish plans to reduce their forces in Iraq while increasing their troop contribution in Afghanistan. There are now approximately 900 Polish troops in Iraq and around 1,200 in Afghanistan. News reports say Poland is considering withdrawing its forces from Iraq sometime this year, while sending 400 more troops to Afghanistan.

But Gates and Klich spent most of their time together discussing missile-defense issues, Morrell said. American security experts believe that a missile-defense system should be installed in Eastern Europe, specifically placing an interceptor site in Poland and a related facility in the Czech Republic to counter the threat of a potential ballistic-missile strike from Iran.

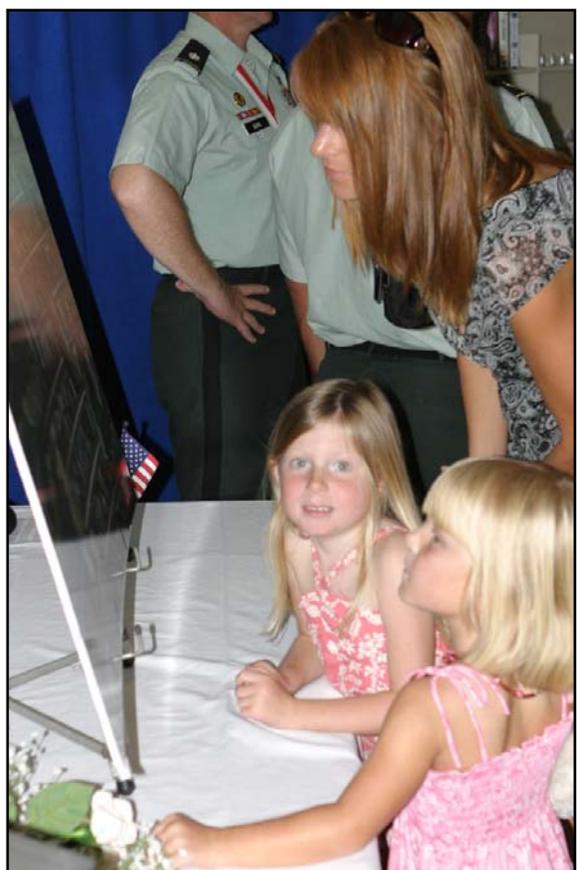

The proposed missile-defense program is "of vital importance, not just for us, but really for Europe, and that's the key here," Morrell emphasized. "Putting these interceptors in Poland does far more to benefit Europe and our allies there than it does for us."

The United States and Poland are members of NATO.

## New Year's reception

Chelsey Bean, left, Rachael Blacketer and Jennifer Bean examine a photo collage representing U.S. Army Kwajalein Atoll's year in review at the USAKA Commander Col. Stevenson Reed's New Year's reception. The reception was held at the Religious Education Building Sunday with approximately 80 people attending. The reception is an Army tradition where the post commander greets community members and thanks them for the year's activities.

## UPDATE from Page 2

day are the status of transformation, remote distributed operations, and the fiber optic cable system.

Status of transformation: This month I will brief several groups on the status of transformation. My first stop will be the leadership of the U.S. Pacific Command in Honolulu. I will then travel to brief staff members of the Department of Interior, State Department, and Congress. The information I will share is simply the information I provided to you in November/December.

Since then, our commanding general, Lt. Gen. Kevin Campbell, has approved the concept and timeframe of the transformation, and I will generally provide the groups with background and information, and give them an opportunity to ask questions.

Our next major event will be a synchronization drill in Huntsville, Ala., in April, that will involve all government agencies, Department of the Army civilians, and contractors associated with major activities of transformation.

I will then provide the residents of Kwajalein and Roi with the status in a May town hall.

Remote distributed operations:

Our initial RDO focus is up and running as we've begun a space operation prototype in Huntsville. Individuals continue to look for an interim facility for the personnel who will work and transition to Huntsville starting next summer. The facility will either be located on Redstone Arsenal, a General Services Administration-leased facility in Huntsville, or there will be a Missile Defense Agency Advanced Research Center contract modification to accommodate RDO.

Personnel from RTS will start to demonstrate the proof of concept in fiscal year '08 as we continue to show limited Space Operations/Shadow Operations using our sensors from Huntsville.

The final facility will be a military construction project, which is projected to be complete in 2013. Logistics are also a major consideration for RDO, and USAKA will begin to reduce the Marine assets and confirm current plans to transport goods and services out to Kwajalein. We will continue consolidating similar facilities on Kwajalein.

I expect to implement a monthly budget variance meeting to track funding and ensure we have the most efficient business practices possible.

Kwajalein cable system: The contract date for the fiber optic cable system is set for May and is on track to be signed. Fiber is the key and will enable RDO to become a reality in fiscal year '10. This will allow our customers to see their tests, real time in Huntsville while sending minimum personnel on temporary duty to Kwajalein. In other words, we will take the Range to the customer and that will increase our direct customer reimbursables.

Our initial focus will be to stand up a space operations prototype in Huntsville to shadow the space operations conducted here on Kwajalein. As the capability matures over the next two to three years, mission responsibility will shift to our Huntsville facilities.

This is an update of the latest information I have.

I thank all members of my staff for their hard work and members of Kwajalein Range Services and Massachusetts Institute of Technology/Lincoln Laboratory for their assistance and efforts in the areas of transformation, RDO, and the Kwajalein cable system.

Again, expect additional information on these areas to be provided in February.

## REAL LIFE from Page 2

their child. That's in line with statistics that say a teen mother is hardly ever involved in a long-term relationship with the father — *after* she becomes pregnant — go figure.

I'm sure *Juno* is a very good movie in that it's well-written and well-acted. The title character is supposed to be an intelligent, wise-cracking young lady. I'm sure it has parts that are humorous and make an audience laugh. It no doubt has parts that are heartwarming.

I might see it sometime. I like a good movie as much as anyone else.

But I can't help being concerned with something as serious as teen pregnancy being treated as a 'heartwarming comedy'.

As I said, the experience I've had with the subject was anything but funny. I saw those parents cry their hearts out and two young girls at the edge of emotional destruction. And then, there were the those amusing questions the girls had to ask themselves — do I keep the baby— do I give it up for adoption — or do I do that other thing?

Yeah, a lot of chuckles.

I didn't see many heartwarming or humorous moments while the girls and their parents were trying to decide what to do.

The problem with movies — even if they're very good — is that they aren't real life. I mean, in the movies, cops solve all sorts of crimes in 90 minutes. Heck, entire wars are won in 90 minutes or less.

Of course, anything is possible on the silver screen I guess — even a teen pregnancy story with a happy ending.

I hope this movie doesn't send some kind of 'wrong' message to teenagers. Lord knows they get enough of those every day.

I've seen the news that Jamie Lynn Spears, sister to Britney, is only 16 and pregnant. I've heard she has a hit TV show that's very popular with teen and pre-teen girls. It's been said that before getting pregnant, she was a good role model for young girls.

Ha, ha, ha — very funny, isn't it?

No, it's sorta really not.

One would think young Jamie Lynn would have learned a hard life lesson by watching the trainwreck her sister has become. I hope she doesn't follow the same downward path.

And by the way, there might be something wrong with a society that seems to take some kind of perverse pleasure in watching two young women, Lindsay Lohan and Britney, self destruct in terribly sad and troubling meltdowns.

I guess compared to that, teenagers getting pregnant isn't a big deal.

At any rate, I'm pretty sure I'll watch *Juno* when I get the chance. Like I said, I like a good movie.

But if I laugh at certain spots or feel 'heartwarmed' while watching it, I think I'll remember two young girls — and that in real life, teen pregnancy is very rarely funny.

# Lindborgs win Quarters of Quarter

## Hourglass reports

Cris and Eric Lindborg received the Quarters of the Quarter plaque from 1st Sgt. Kenneth Mackey, U.S. Army Kwajalein Atoll Jan. 10.

The Quarters of the Quarter recognition program is an USAKA initiative. Lindborg's quarters were the first recognized since the program was rejuvenated in 2007.

The judging took place the last Saturday in December for the first fiscal year quarter of 2008. Five yards were selected as finalists. The judges were the first sergeant, the public affairs representative and an installation management representative. They used 'Christmas Spirit' as the criteria for choosing the finalists. The standard operating procedure that defines the criteria puts emphasis on general appear-

ance, building, lawn policed area, flowers, shrubs, initiative and originality.

The first sergeant said that he relinquished the winning Quarters of the Quarter sign from the contest between him and Col. Stevenson Reed, USAKA commander, which was the kick-off to the program, to the Lindborg's. The Quarters of the Quarter sign will be passed to the next Quarters of the Quarter winner sometime in early April for the 2nd quarter of 2008.

# Local swimmers, coaches soak up visiting Aussie's swim techniques

By Nell Drumheller  
Editor

Brendan Keogh, Australia's Paralympics National coach, is visiting Kwajalein to instruct local swimmers and coaches.

His visit is a part of Fédération Internationale de Natation, or FINA an international association that supports swimmers. His trip to Kwajalein was paid for by a grant through the Marshall Islands Swim Federation. "Swimming Australia has an obligation to develop or to assist in the development of swimmers and coaches within the Pacific, Asian and African regions," Keogh said. "So this particular one I was available and I saw it as personal development for me."

Keogh's clinics on Kwajalein include sessions for young people and adults as well as sessions for the rescue swimmers with the Kwajalein Fire Department.

He's been coaching for 20 years; his coaching career began when he was a competitive swimmer. "I competed and made it to my age-group national finals in the 400-freestyle." He was at the pool one day when the manager of the pool asked him to assist with a group because the coach for the group had not shown up. "So I took the group, and the next day he asked me again because he'd sacked that particular coach and from there on everyday when I showed up he'd ask me to take that group again. A month down the track it was my group, it all started from there."

A girl on Keogh's swimming team made the 1996 Paralympics squad and again in 2000, and Keogh applied for the team as an assistant coach.

"I do my job because it's swimming, not because I'm working with disabled people most of the time. If I changed my job tomorrow I'd be working within swimming." He added that if he couldn't work with swimming that he'd probably be unemployed.

At the first clinic on Wednesday Keogh watched seven swimmers

move up and down the pool. The swimmers represented local athletes from high school through masters. Keogh critiqued each swimmer and explained what they were doing correctly and identified their bad habits.

He pointed to one swimmer and said, "She's a natural in the water. If I had to use one of the swimmers to show an example of how to do things I'd use her." He pointed out another, noting how hard this swimmer worked in the water, that she was using almost twice as many strokes as the first swimmer to get down the pool, he explained that the second swimmer was working too hard and would be exhausted before long.

Keogh said he learns as much from the clinics as the participants do.

"There are so many challenges with coaching," Keogh said. "You want to keep up to date with modern coaching philosophies, there's the keeping up to date with modern techniques, and I haven't even gotten to communicating with the athletes."

Sometimes I think the hardest challenge is making the athlete aware that the coach shouldn't have to always be the motivator, sometimes they have to motivate themselves."

Keogh worked with the group of swimmers for a couple of hours. In that time he learned quite a bit about them, all revealed by how they approached swimming.

"You have to work to get to know each individual athlete, and find out which way they like to be pushed. I think also you take into account there's difference in the genders as well, you often find that younger kids the girls might like a more disciplined, hard-working type program where as the boys at that age might like to run a muck a bit and race. You also find different training values among sprinters and distance swimmers."

He encouraged the group to use the pace clock at the Adult Pool. He said that without accurate pacing they weren't training, but were

**Opposite page: Kwajalein swimmers practice techniques under the watchful eye of visiting paralympic coach Brendan Keogh at the adult pool. Above: Swimmers listen to tips from coach Keogh.** (Photos by Nell Drumheller)

swimming for stress relief.

Swimming has been one of the main sports of the Paralympics since the first games in Rome in 1960. FINA rules are followed with a few modifications, such as optional platform or in-water starts for some races and the use of signals or 'tappers' for swimmers with blindness or visual impairments. No prostheses or assistive devices are permitted. Paralympics swimmers compete in the freestyle, backstroke, butterfly, breaststroke and medley events. Swimming is open to both male and female athletes having either a physical disability or blindness or visual impairment.

Athletes with a visual impairment are classified into three classes, according to the degree of vision loss: S11 for athletes with no sight to class S13 for legally blind.

In the case of swimmers with a physical disability, classification is based on several factors i.e., muscle strength, movement co-ordination, joint range of movement and/or limb length. The swimmers are also required to perform a practical water session, performing all strokes and accordingly assessed on their ability.

Keogh will be on Kwajalein through Thursday. He is staying at the Kwaj Lodge and is available for one-on-one clinics. For more information, contact Cris Lindborg at 52935, or Keogh directly through the Kwaj Lodge.

# Thirteen servicemembers die in Global War on Terror

Three Soldiers died Jan. 8 of wounds sustained during combat operations in Samarra, Iraq. They were assigned to the 2nd Battalion, 327th Infantry Regiment, 1st Brigade Combat Team, 101st Airborne Division (Air Assault), Fort Campbell, Ky. Killed were: **Sgt. David J. Hart**, 22, of Lake View Terrace, Calif., who died in Balad, Iraq; **Pfc. Ivan E. Merlo**, 19, of San Marcos, Calif. and **Pfc. Phillip J. Pannier**, 20, of Washburn, Ill., who died in Samarra, Iraq.

Six Soldiers died Jan. 9 in Sinsil, Iraq, of wounds suffered when an improvised explosive device detonated during combat operations.

They were assigned to the 3rd Squadron, 2nd Stryker Cavalry Regiment, 1st Armored Division, Vilseck, Germany. Killed were: **Cpl. Todd E. Davis**, 22, of Raymore, Mo.; **Staff Sgt. Jonathan K. Dozier**, 30, of Rutherford, Tenn.; **Staff Sgt. Sean M. Gaul**, 29, of Reno, Nev.; **Sgt. Zachary W. McBride**, 20, of Bend, Ore.; **Sgt. 1st Class Matthew I. Pionk**, 30, of Superior, Wis. and **Sgt. Christopher A. Sanders**, 22, of Roswell, N.M.

**Sgt. David J. Drakulich**, 22, of Reno., died Jan. 9 in Chagali, Afghanistan of wounds suffered when his vehicle struck an improvised explosive device. He

was assigned to the 508th Parachute Infantry Regiment, 4th Brigade Combat Team, 82nd Airborne Division, Fort Bragg, N.C.

**Lt. Col. Richard J. Berrettini**, 52, of Wilcox, Pa., died Jan. 11 in San Antonio of wounds suffered on Jan. 2 in Khowst Province, Afghanistan when his vehicle encountered an improvised explosive device. He was assigned to the Pennsylvania Army National Guard Medical Detachment, Erie Clinic, Erie, Pa.

**Lance Cpl. Curtis A. Christensen Jr.**, 29, of Collingswood, N.J., died Jan. 11 from a non-hostile incident in Al Anbar province, Iraq. He was

assigned to 2nd Battalion, 8th Marine Regiment, 2nd Marine Division, II Marine Expeditionary Force, Camp Lejeune, N.C.

**Pfc. Keith E. Lloyd**, 26, of Milwaukee, died Saturday in Tal Afar, Iraq of wounds suffered when his vehicle encountered an improvised explosive device. He was assigned to the 1st Squadron, 3rd Armored Cavalry Regiment, Fort Hood, Texas.

## Kwajalein pest control facts

**RODENTS:** The resident rat on Kwajalein is the roof rat. They live and nest in coconut trees and feed on coconut or anything else that is readily available. Roof rats are very inquisitive, opportunistic and agile. They will find any opening into a structure.

Residents can make it harder for rats to gain entry by doing a few simple things. Check for holes around pipes and air-conditioners (if you can stick your figure in the hole, a rat can get through). Keep dryer vents clean — not only are they fire hazards, they are the main way rodents find their way into quarters. If the trap door is full of lint, it will not shut properly and rats will be able to get through.

Trim any tree limbs or palm branches that are touching or within two feet of your quarters. These are rodent highways.

Clean up clutter inside and outside. Stacked wood, boxes, unused toys and scuba gear make great nesting places. At work, don't leave any food where rats can get to it. Desk drawers are not rodent proof.

Doing these simple things will make quarters and work places less attractive to the roof rats.

**FLIES:** On Kwajalein, there is a species of fly called the filth fly, including the housefly, blowfly and bottle fly. As the name suggests, they need filth to live and breed. Stop the filth — stop the fly.

Tightly seal all trash in trash bags — not shopping bags — before disposing of it. For instance, residents should take a trash bag to a cookout on the beach and seal all trash tightly and then place it in a proper trash container. Killing adult flies by islandwide spraying will only reduce the fly population for a short period of time.

Cutting down on breeding sources will have a long-lasting affect on the fly population.

**MOSQUITOES:** The Asian tiger mosquito is Kwajalein's mosquito. It is an aggressive biter and one of the few that will actively bite during the daylight hours. They will lay their eggs in any water-holding receptacle such as flower pots and buckets. Residents can help control these pests by thinning out overgrown trees, plants and shrubs and by mowing yards regularly. Dump standing water around quarters and work areas on a routine basis. This will help eliminate breeding areas and reduce the mosquito population.

## HELP WANTED

**KRS has the following job openings. For contract hire positions, call Sheri Hendrix, 256-890-8710. For all others, call Donna English, 51300. Full job descriptions and requirements for contract openings are located online at [www.krsjv.com](http://www.krsjv.com). Job descriptions for other openings are located at Human Resources, Building 700.**

NEED EXTRA money? KRS employment applications are continually accepted for all Community Services departments and the Human Resources temporary pool for casual positions. Some examples of these positions are: sport officials, scorekeepers, delivery drivers, lifeguards, catering/dining room workers, medical office receptionists, temporary office support, etc. For more information, call the KRS HR Office at 54916.

KRS/CHUGACH/AIRSCAN health benefits. The 2008 Aetna Insurance cards for KRS/Chugach/AirScan employees have been mailed. Only members who made changes to their benefits during the 2008 open enrollment period will receive a new Aetna ID card. Changes include name changes, new members, dependent changes, and members moving into a new plan/account. If no changes were made to your benefits information from 2007 to 2008, continue to use your existing insurance card. If you find an error, lost, misplaced, or did not receive your card(s), contact Health Benefits to have a new card re-issued to you at 51888(Grace) or 50939(Marilyn).

CALIBRATION LAB hours are 1-5 p.m., Tuesday-Thursday, on Kwajalein and 9-11 a.m. and 1-5 p.m., Fridays, on Roi-Namur.

GOVERNMENT FURNISHINGS are assigned to the occupant upon arrival. Residents are responsible for the care and security of this property. Residents are not authorized to trade or remove government property from any quarters. Call 53434, to arrange for delivery or return of furnishings and hospitality kits. If items are placed outside or unattended, the occupant will be charged for losses or damage.

CHILD AND Youth Services cash operations office hours are 8:30 a.m.-12:30 p.m., and 2:30-6 p.m., Tuesday-Friday and 8 a.m.-noon and 2:30-5 p.m., Saturdays.

HOSPITAL BUSINESS office/cashier hours have changed. Hours are now 8-11:45 a.m. and 1:15-4:30 p.m., Tuesday through Saturday, and 8 a.m.-12:15 p.m., Fridays. These match the pharmacy hours of operation. For an appointment to review your account status, call 52220.

ALL CARGO AND BAGGAGE transiting between Kwajalein and Roi-Namur needs to be checked no later than 30 minutes prior to posted flight close-out times. On Kwajalein, all cargo and baggage needs to be brought to the main terminal area in Building 901 for processing. All baggage, dive gear, snorkel gear, golf bags, surfboards, wakeboards, etc., will not be accepted at the passenger check-in counter. Each passenger may have only one carry-on bag that meets the established size requirement.

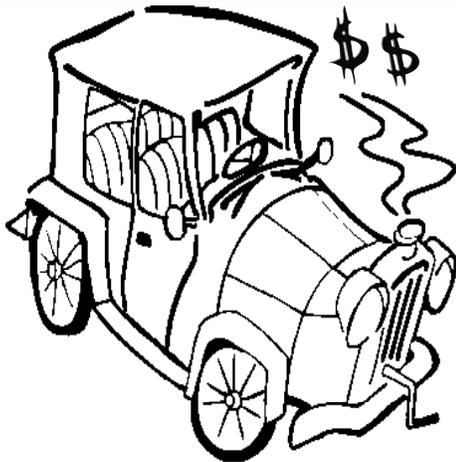

ALCOHOLICS ANONYMOUS meetings are held at 6 p.m., Wednesdays and Sundays, in the Religious Education Building upstairs across from the library. There will be an open AA meeting Jan. 27. Everyone is welcome. Questions? 50227.

THE *HOURLAS* has copies of the Feb. 5, 1994 issue, commemorating the 50th anniversary of Operation Flintlock, available to the public. To obtain a copy of this historic issue, come to the AFN office next to Grace Sherwood Library on the second floor of Building 805.

U.S. ARMY KWAJALEIN ATOLL Policy 200-1 has established the Eniwetak Conservation Area. The policy prohibits approaching or anchoring within 300 meters of Eniwetak Islet, accessing Eniwetak Islet without authorization, fishing, boating, diving, snorkeling or skin diving within the ECA, taking, killing, harvesting, harassing or endangering marine or terrestrial wildlife resource or habitat within the ECA. The policy is applicable to all USAKA residents, visitors, and any persons present for any reason on U.S.-controlled defense sites (persons granted access to USAKA under provisions of USAKA Reg. 109-10, Entry and Exit procedures). Violation of the policy may result in termination of employment at USAKA, administrative bar or termination of recreational privileges including boating and diving. Questions regarding the ECA should be addressed to USAKA Environmental, 55449, or Kwajalein Range Services Environmental, 51134.

The Denver Bronco cheerleaders will present a youth cheerleading clinic at 3:30 p.m., Tuesday and a performance for the entire community at 7 p.m., Wednesday. Both events at Richardson Theater.

**If it's not movin', it shouldn't be runnin.'**

**Vehicle engines left idling waste fuel and money and could create a safety hazard. If a vehicle is not being driven, engines should be shut off.**

**News shorts**

Scott Galloway has been selected to enter the U.S. Air Force through the Officer Training School. Galloway is the son of Lexy and Cowboy. He was one of 171 individuals chosen as part of the OTS Selection Board 08OT01. He plans on becoming an Air Force pilot.

Suzanne Pyle received a Six Sigma Black belt certification on Monday.
