Visit the new *Hourglass* Sharepoint site to find information about your weekly command newspaper. Read about our weekly features and how you can contribute photos and submit articles. Find forms for new arrivals, departures and classified ads. Check out our new Frequently Asked Questions section to read about submission deadlines and where to pick up the Hourglass each Saturday. Also, find the electronic versions of the ad pages and the TV and Entertainment Guide, updated every Saturday. Go to the KwajWeb home page and click on “Hourglass” under the Community tab. Questions about the site, call 52114.

THUMBS DOWN

To the person who keeps removing air fresheners from the first floor of the Tropics BQ.

To the people who park their bikes with Burleys attached at Surfway and block all the bike racks. It would be nice if you parked on the end racks so others could park in the middle – especially on busy days.

THE RUMOR MILL

Col. Joseph Gaines addresses circulating rumors head-on. Rumors can earn from one to five ears. One ear is an unfounded rumor, while a rumor earning five ears is the truth.

Rumor: AAFES is going to start delivering pizzas until midnight.

We asked an AAFES manager about this rumor. The following is the response we received: “In order to better serve you, we are extending our evening delivery hours for Saturday and Sunday from 5 p.m. to midnight starting July 2. This is on a 90 day trial basis; after 90 days we will review if this service is a benefit to the community. If you have any questions, please call 52735.”

THE KWAJALEIN HOURGLASS

The Kwajalein Hourglass is named for the insignia of the U.S. Army 7th Infantry Division, which liberated the island from the forces of Imperial Japan on Feb. 4, 1944.

The Kwajalein Hourglass is an authorized publication for military personnel, federal employees, contractor workers and their families assigned to U.S. Army Kwajalein Atoll. Contents of *The Hourglass* are not necessarily official views of, or endorsed by, the U.S. Government, Department of Defense, Department of the Army or USAKA. It is published Saturdays in accordance with Army Regulation 360-1 and using a network printer by Kwajalein Range Services editorial staff.

MIT/Lincoln Labs mentors through internship

Two RMI college students take advantage of internship opportunity

Article and photo by Catherine Layton
Associate Editor

College of the Marshall Islands students Toshio Langbon and Kimi Jiwirak arrived on Kwajalein June 9 to begin a 10-week information technology internship program through U.S. Army Kwajalein Atoll and Massachusetts Institute of Technology/Lincoln Laboratory. The program provides mentoring, resources, motivation and assistance to encourage interns to pursue further education and subsequent employment in the Marshall Islands, while productively contributing to Reagan Test Site IT needs.

The program includes lodging on Kwajalein, three meals per day and a weekly salary paid to the interns. After completion of the program, the interns will receive a \$1,000 scholarship after they are registered for their next

semester of college. Selection of the candidates was done through a committee of representatives from MIT/LL, and was based on an application, computer background, English skills, previous academic performance and in-person interviews. "We were looking for students who really showed an interest in computers, had earned good grades in school and were willing to work hard. Both Toshio's and Kimi's applications showed general computer knowledge and a desire to learn," said Kathy Carusone, a member of the technical staff at MIT/LL on Kwajalein.

Langbon and Jiwirak have already set up some computer systems in the training area, from setup of standard desktop computer systems to configuration of servers and networking gear, all of which are relevant to modern IT departments. Each week, some time will be spent learn-

ing about the new topic and any background material, while the remaining time will be for implementing the ideas with hands-on projects.

The students consider the course invaluable and the exposure to the technology inspiring. "I can learn a lot of stuff about computer hardware and installing an operating system and all that. I haven't ever learned this before, and when I go back, I will take some business courses and this instruction will help," said Jiwirak.

Ranny Ranis, MIT/LL technical assistant, IT guru and RMI citizen, is serving as mentor and liaison, and is in daily contact with the students. This is the fourth year for the RMI program, and Ranis has been involved each year.

Next week, the interns will travel to Roi-Namur to tour the facilities and experience the radars.

Massachusetts Institute of Technology/Lincoln Laboratory technical assistant Ranny Ranis, left, works with Toshio Langbon and Kimi Jiwirak, instructing them on the hardware aspects of computers. The interns are in week three of a 10-week program, and will be introduced to various computer systems, configurations of servers and networking.

Celebrating the U.S. Army's Birthday

Photos by Ruth Quigley

Left to right, Jayne Cavender, Kevin Osterbauer, Parker Girod, Matt Osterbauer, Maj. Jeffrey Girod and nearly 20 other Soldiers, Family members, Department of the Army civilians and community members stand in formation before the Command Run June 17.

Sgt. Joshua Gravett stands at parade rest while holding the Army flag after the conclusion of U.S. Army Kwajalein Atoll's Command Run June 17. Stephanie Los, left, carried the Navy's colors for the run, which was a part of USAKA's Army birthday celebration.

Marshallese

Fish Market

1- 4 p.m. MONDAY, JUNE 27

Dock Security Checkpoint

Bring your K-badge, cash and a cooler through the DSC to the fenced area by the laundry and Bargain Bazaar. Fish is not inspected, however, only certain kinds of fish are allowed to be sold.

The names of Kwajalein

Kwajalein's Small Boat Marina memorializes respected commander

By Catherine Layton
Associate Editor

Col. Gary K. McMillen

The Kwajalein Small Boat Marina was re-named the Col. Gary K. McMillen Small Boat Marina on Nov. 6, 2002, following the death of former USAKA/KMR Commander Col. Gary K. McMillen. He was the 19th commander since the Army took control of Kwajalein from the Navy in 1964, serving from July 7, 1998 to July 27, 2000. McMillen graduated from University of South Florida in 1974 with a bachelors degree

in engineering technology. Designated a distinguished military graduate, he was commissioned into the Corps of Engineers from the University of Tampa. He earned a Masters of Business degree in national security strategy from the National Defense University.

Among his achievements at USAKA included transition to the 21st century during his tour, pursued the range modernization program transition from Kwajalein Missile Range to Reagan Test Site, saw infrastructure improvement on Kwaj including rehabilitation of some housing and bachelor's quarters and renovating retail and food services.

He retired after 27 years in the U.S. Army in 2001. Among his decorations were the Defense Superior

Service Award, two awards of the Legion of Merit, the Bronze Star Medal, nine awards of the Meritorious Service Medal, two awards of the Army Commendation Medal, two awards of the Army Achievement Medal, the National Defense Service Medal, the Southwest Asia Service Medal with three Bronze Service Stars and the Saudi Kuwait Liberation Medal.

McMillen died of cancer on Sept. 7, 2002, at home in Port Charlotte, Fla. According to his wife of 28 years, Pamela, McMillen wanted to return to Kwajalein after he retired to run the SBM. She stated it was his favorite place on island. Pamela McMillen returned to Kwajalein for the dedication.

Photo by Catherine Layton

The Col. Gary K. McMillen Small Boat Marina was dedicated Nov. 6, 2002, in memory of the former USAKA/KMR commander.

Recreation center named for commander of 7th Infantry Division

Maj. Gen. Charles H. Corlett

Nicknamed at West Point Military Academy "Cowboy Pete" for his knowledge of horses, Maj. Gen. Charles H. Corlett commanded the 7th Infantry Division in the taking of Kwajalein in 1944. He received orders to take command of the division and report to Admiral Chester Nimitz at Pearl Harbor, where Nimitz informed him he was to be in command of the Army forces that would capture Kwajalein Island in Operation Flintlock.

The battle at Kwajalein has been called by some the most perfect of all U.S. amphibious operations because of the flawless execution of a plan. Operation Flintlock was not the first unit commanded by Corlett.

The Corlett Recreation Center complex was completed in 1985, and was dedicated in early 1986 to Corlett.

Photo by Catherine Layton

Named for the commander of the 7th Infantry Division, Maj. Gen. Charles H. Corlett, the Corlett Recreation Center is the central hub for many island activities.

Waves, flooding at Kwajalein Atoll pique interest for University of Hawaii study

By Sheila Gideon
Managing Editor

The waves at Kwajalein Atoll were perfect for scientists from the University of Hawaii who visited Kwajalein and Roi-Namur to study wave-driven coastal flooding. They were particularly interested in flooding along island shorelines that are protected by coral reefs and how the amplitude, duration and number of flooding events might change as sea level rises. The team first visited in July 2010, then again in November 2010 and finally May 12-20 this year. Each time, varying members of the team attended. They included Mark Merrifield, Department of Oceanography professor and lead scientist; Chris Kontoes, Merrifield Lab lead technician and scientific scuba diver; Derek Young, research associate and computer guru; Carly Quisenberry, Merrifield Lab technician and scientific scuba diver; Lauren Tuthill, UH Ocean Resource and Engineering graduate student and scientific scuba diver; Chris Colgrove, UH Ocean Resource and Engineering department technician and scientific scuba diver and Bryan Rahter, UH oceanography graduate student.

The study was conducted at Kwajalein because the tidal range is relatively high compared to other island regions in the Pacific. It allowed the team to examine waves during high spring tides to get an idea of how wave conditions on the reef might change as water levels increase. Roi-Namur was an ideal study site because it is exposed to strong swell events during the winter months; also, coastal flooding events have occurred there in the past, notably in December 2008. In addition, they were able to

Chris Kontoes and Carly Quisenberry replace one of the pressure sensors on the reef flat at Roi-Namur.

examine waves over a wide fringing reef, as well as wave-driven currents through the shallow channel between Namur and 1st Island.

A typical day's work was normally conducted during low tide. They worked to recover, redeploy, clean, download, prep and pack their instruments. They also deployed and recovered deep sensors via scuba.

After the study was conducted, Merrifield explained, "The Roi-Namur observations have allowed us to test wave models that describe ... processes and we can now incorporate these results into predictions of coastal water level as a function of incident wave height, tide level and background sea level." Based on their findings, they concluded that while the December 2008 flooding incident on Roi was rare in terms of how energetic the waves were during that wind event, they now know the flooding probability is actually higher than one might expect. There is a probability that weaker, more frequent wave events could produce flooding if it happened during peak spring tides.

Work on Roi didn't come without some unique challenges. "It was interesting conducting field work while keeping an eye out for unexploded ordnance," Merrifield said. "We of course didn't experience any problems, but it added a little drama when you drop a boat anchor next to a rather large, intact shell. It was also humbling to work in a historic site where so many gave their lives during the war."

The UH team experienced some of what Roi has to offer while on-island. They toured the World War II ruins, made time for recreational diving and visited with the local residents. Quisenberry said, "Every trip we wish we had more time to explore the reefs and enjoy the slow pace of Roi life."

As for future plans, Merrifield would love to return and extend their study to the atoll channels. "The currents are so energetic through those gaps and there is a lot to be learned regarding lagoon-ocean exchange and mixing."

Chris Kontoes and Carly Quisenberry recover a current profiler deployed at a 50-foot depth.

Kwaj fly population reduced by 60 percent

Hourglass Reports

The fly population on Kwajalein has dropped in recent months because of the implementation of measures recommended during Public Health Command's visit in January, said Anthony J. Hoover, U.S. Army Kwajalein Atoll Environmental Engineer. One of the greatest contributing factors was the elimination of food waste from the compost site at the dump, he explained.

While the fly population has decreased by more than 60 percent, there are still measures the community can take to reduce it further, especially in the BQ and family housing areas. You can help the pest management department keep Kwajalein as pest-free as possible. According to Billy Abston, supervisor of the pest management department, you should:

- Bag your food waste and secure the top properly by taping or using a twist tie.
- Don't leave burgers, hotdogs, chicken or other food on the grills at the beaches.
- Keep your yards free of rotting vegetation.
- Bag and properly dispose of pet droppings.

Photo by Hafiz Issadeen

- Check yards, BQs and industrial areas for standing water which gives the mosquito a place to lay their eggs and for the larvae to mature into a biting adult.

Military Casualties

Lance Cpl. Jason D. Hill, 20, of Poway, Calif., died June 11 while conducting combat operations in Helmand province, Afghanistan. He was assigned to 3rd Battalion, 4th Marine Regiment, 1st Marine Division, I Marine Expeditionary Force, Camp Pendleton, Calif.

Staff Sgt. Nicholas P. Bellard, 26, of El Paso, Texas, and **Sgt. Glenn M. Sewell**, 23, of Live Oak, Texas, died June 13 in Wasit province, Iraq, of wounds suffered when enemy forces attacked their unit with an improvised explosive device. They were assigned to the 6th Squadron, 9th Cavalry Regiment, 3rd Brigade Combat Team, 1st Cavalry Division, Fort Hood, Texas.

Staff Sgt. Jeremy A. Katzenberger, 26, of Weatherby Lake, Mo., died June 14 in Paktika province, Afghanistan, of wounds suffered when insurgents attacked his unit with small arms fire. He was assigned to the 1st Battalion, 75th Ranger Regiment, Hunter Army Airfield, Ga.

Pfc. Eric D. Soufrine, 20, of Woodbridge, Conn., died June 14 in Farah province, Afghanistan, of wounds suffered when insurgents attacked his unit using an improvised explosive device. He was assigned to the 4th Battalion, 42nd

Field Artillery Regiment, 1st Brigade Combat Team, 4th Infantry Division, Fort Carson, Colo.

Pvt. Ryan J. Larson, 19, of Friendship, Wis., died June 15 at Kandahar province, Afghanistan, of wounds suffered when insurgents attacked his unit with an improvised explosive device. He was assigned to 1st Battalion, 5th Infantry Regiment, 1st Stryker Brigade Combat Team, 25th Infantry Division, Fort Wainwright, Alaska.

Sgt. Mark A. Bradley, 25, of Cuba, N.Y., died June 16 while conducting combat operations in Helmand province, Afghanistan. He was assigned to 3rd Battalion, 2nd Marine Regiment, 2nd Marine Division, II Marine Expeditionary Force, Camp Lejeune, N.C.

Spc. Marcos A. Cintron, 32, of Orlando, Fla., died June 16 at a medical facility in Boston, Mass., of wounds suffered June 6 at Baghdad, Iraq, when insurgents attacked his unit with indirect fire. He was assigned to the 1st Battalion, 7th Field Artillery Regiment, 2nd Brigade Combat Team, 1st Infantry Division, Fort Riley, Kan.

Spc. Scott D. Smith, 36, of Indianapolis, died June 17 at Khowst province, Afghanistan, of injuries

suffered in a non-combat related incident. He was assigned to the 81st Troop Command, Indiana Army National Guard, Indianapolis.

Sgt. 1st Class Alvin A. Boatwright, 33, of Lodge, S.C.; **Sgt. Edward F. Dixon III**, 37, of Whiteman Air Force Base, Mo.; **Sgt. Alan L. Snyder**, 28, Blackstone, Mass., and **Spc. Tyler R. Kreinz**, 21, of Beloit, Wis., died June 18 in Uruzgan province, Afghanistan of injuries suffered during a vehicle roll-over. They were assigned to the 4th Battalion, 70th Armor Regiment, 170th Infantry Brigade Combat Team, Baumholder, Germany.

Pfc. Brian J. Backus, 21, of Saginaw Township, Mich., died June 18, in Kandahar province, Afghanistan, of wounds suffered when insurgents attacked his unit with small arms fire. He was assigned to the 2nd Battalion, 87th Infantry Regiment, 3rd Brigade Combat Team, 10th Mountain Division, Fort Drum, N.Y.

Pfc. Josue Ibarra, 21, of Midland, Texas, died June 19 from wounds received while conducting combat operations in Helmand province, Afghanistan. He was assigned to 1st Battalion, 12th Marine Regiment, 3rd Marine Division, Kaneohe Bay, Hawaii.

DISPATCH FROM ROI

New community activities manager ready to amplify fun for Roi Rats

Article and photo by Kate Keeler
Community Contributor

Expect new spice in life on Roi-Namur with Laura Pasquarella-Swain now in the driver's seat at Community Activities.

"I'm most looking forward to offering Roi lots of new creative ideas," Pasquarella-Swain said. "We'll start with cribbage and backgammon nights already in the works, throw in some Zumba dancing for exercise and an open mic night at the bar. We'll offer fun for all the different needs of the whole community."

Along with her long history as a social butterfly on Kwajalein Atoll, Pasquarella-Swain's background

Laura Pasquarella-Swain

of event planning, owning her own successful catering business, Café Roi manager, ECCF leader, hobby shop instructor and all around recreation professional make her just the woman to make Roi the 'Happiest Place on the Atoll.'

Congratulations, Laura; the Roi Rats are lucky to have you!

Upcoming Events at Roi-Namur

- **4 p.m., Sunday:** Tie Dye party at the pool; Tony Stephens' PCS party
- **July 3:** Coconut Cup Race at the Surf Shack
- **July 4:** Ski Boat, Volleyball, Horseshoes, Kayaks, BBQ at the pavilion
- **July 21:** Open Mic Night at Outrigger
- **Sept. 5:** Labor Day weekend party
- **Sept. 11:** ECCF Chili Cook-Off

Cooking secrets from Roi-Namur kitchen

Hourglass Reports

Roi residents know how to **R**cook! From fun appetizers to easy desserts, the community on Roi loves to share food and good times every chance they get. Now they are sharing their favorite recipes with the entire atoll in the *Hourglass*. Try these recipes and you'll be eating like they do on Roi.

This week's recipe is from Carol Rivard, shift supervisor at Café Roi. Rivard is new to Roi, just arriving on island in March from her world travels. She has cooked in several fabulous places including Maui, Montana, New Zealand, Alaska and the South Pole, picking up new recipes and ideas wherever she went. Now she is cooking on Roi and loving it. Rivard's philosophy is that food should be simple, approachable and made with the best available ingredients. She also feels food should have a part in enjoying life. Roi residents have been extremely happy to have her fresh ideas at the café and she is happy to share her recipes.

Recipe: Quick Shrimp Scampi Pasta

- | | |
|--|--------------------------------|
| 2 lb. large prawns, peeled with tail-on | 1 cup peas, frozen |
| 1 lb. fettuccine or linguine pasta, cooked | 1 cup white wine |
| 2-3 cloves of garlic, chopped | ¼ cup lemon juice |
| ½ medium red onion, sliced thin | 2 cups chicken or veggie broth |
| ½ lb. mushrooms, sliced | 3 Tbs. cornstarch |
| 2 Roma tomatoes, diced | Sea salt and pepper |

Italian herbs of your choice such as basil, oregano, thyme or a combination

In a saucepan, combine white wine and broth over medium-high heat. Bring to a boil, reduce heat and simmer for 5 minutes. Mix cornstarch and lemon juice in a bowl to form a paste and add to wine mixture while stirring. Add salt, pepper, 2 tsp. garlic and choice of herbs. Keep warm. In a large skillet over medium-high heat, melt 3 Tbs. of butter with enough olive oil to coat the bottom of the pan. Sauté shrimp in the butter and oil mixture, stirring occasionally to keep shrimp from overcooking. When the shrimp are partially pink, add onions, garlic & mushrooms. Add your choice of Italian herbs, salt & pepper. When the shrimp are bright pink on both sides, add sauce and pasta, turn the heat down to low and cook just until pasta is hot. Remove from heat, add peas and chopped tomatoes. Serve immediately topped with shredded parmesan.

Baked Beans	Corn on the Cob	Three-Cheese Pasta	Baked Potatoes	Mashed Potatoes	Chow Mein	Spaghetti Marinara

THEN AND NOW - "THE FERRY"

Photo Hourglass Archives

Photo by Catherine Layton

The ferry that runs between Kwajalein and Ebeye is part of a daily logistical wheel that primarily enables the RMI workforce to report for their jobs on Kwajalein. The initial ferry, named the *Tarlang*, or "storm-proof" in Marshallese, was a modified landing ship tank that carried about 400 passengers and crew on three decks. Often the *Tarlang* would sail midnight cruises to Bigej, and passengers could dance on the upper deck under the stars. In the late '80s, the *Tarlang* was replaced by four modified landing craft units, which make up to 17 runs per day. The current LCUs are slated to be replaced in early 2012 by four new 75-foot, 150-passenger vessels, being constructed now by Blount Boats, Inc., according to Kwajalein port engineer David Layton.

2011 Honor Roll for semester ending June 10

High honor roll (3.6667 and higher; *=4.0 grade average): *Grade 7:* Alex Burnley, Addison Cossey, Hannah DeLange, Allison Hibberts, Samuel Jahnke, Liliana Klinger, Kornkanok Mahachai, Kaile'a Moseley*, Danielle Rivera*, David Sholar*, Michael Sykes*, Adam Tiffany and Eric Tiffany; *Grade 8:* Mereille Bishop, Jordan Hadley and Molly Premo; *Grade 9:* Leightyn Cossey, Rachel DeLange, Maddy Greene*, Jennifer Hibberts*, Stephanie Hibberts, John Sholar*, Andrea Tiffany* and Shenandoah Wrobel; *Grade 10:* Kori Dowell*, Megan George, Mary McPhatter*, Alexis Nelson*, Eva Seelye, Shannon Wilkinson, Renu Nonthra-Frase and Ashlee Skinner; *Grade 11:* Jonathan Bishop*, Colby McGlenn and Jacob Jahnke; *Grade 12:* Melissa Peacock* and Cayley Corrado
