- First DoD Contracts Office to go fully operational with standard procurement system.

U.S. SMDC/ARSTRAT Contracting and Acquisition Management Office provides customer support through innovative acquisition methods while exercising sound business judgment and full compliance with the law.

The Contracting and Acquisition Management Office (CAMO) is the contracting and acquisition element of the U.S. Army Space and Missile Defense Command /U.S. Army Forces Strategic Command (SMDC/ARSTRAT) located in Huntsville, Ala.. CAMO's main office is located in Huntsville, Ala., with Directorates in Colorado Springs, Colo.; Frederick, Md; and at the U.S. Army Kwajalein Atoll/Reagan Test Site in the Marshall Islands.

Overview

Contracting and Acquisition Management Office (CAMO) provides value-added acquisition business solutions and world class acquisition support for the warfighters and Department of Defense customers, while ensuring to protect the best interests of the American taxpayers.

CAMO supports the vision of the Federal Acquisition Regulation system, which is to deliver on a timely basis the best value product or service to our customers, while maintaining the public's trust and fulfilling public policy objectives. CAMO supports this vision with a dedicated staff of approximately 70 acquisition professionals/business advisors managing approximately 2000 active contracts with an aggregate value exceeding \$15 billion.

CAMO ensures that every small business concern and Historically Black Colleges and Universities and Minority Institution (HBCU/MI) that wishes to do business with SMDC/ARSTRAT has the necessary knowledge to successfully participate either as a prime contractor or a subcontractor. Our goal is to maintain the SMDC/ARSTRAT Small Business Office as a premier organization for the promotion of and assistance to small business, small disadvantaged business, woman-owned small business and HBCU/MI. We intend to continue to provide timely and useful information about programs and opportunities to the business community.

CAMO awards grants and cooperative agreements to colleges and universities, including HBCU/MIs to perform various research and development for engineering programs throughout these institutions.

We excel in supporting the AbilityOne Program, formerly Javits-Wagner-O'Day, which helps thousands of people who are blind or have other severe disabilities find employment. The program coordinates its activities with nonprofit organizations across the country to employ these individuals and provide goods and services to the federal government at a fair price.

CAMO's contracting professionals are empowered within their areas of responsibility including selection, negotiation, and administration of contracts to satisfy customers in terms of cost, quality, and timeliness of the delivered product or service. CAMO's contracting officers are allowed wide latitude in exercising sound business judgment while ensuring that customers' requirements are met and contractors receive fair and impartial treatment. We partner with industry and academia to maintain close working relationships to ensure that our customers are capable of accomplishing their missions with success. Main customers include Missile Defense Agency (MDA), various Program Executive Offices (PEO), and U.S. Medical Command (MEDCOM).
