FOCUSING ON SAFETY
ONE OFFICE AT A TIME - P 2

Kwajalein Atoll High School graduates Liahona Enos and Morlynn Dribo pause for a photo outside the Marshallese Cultural Center on Kwajalein Wednesday, June 28. They are two of the eight RMI graduates who received Kwajalein Range Services academic scholarships this week.

 Jordan Vinson

FOCUSING ON WORKPLACE SAFETY

FEATURE / JESSICA DAMBRUCH

Maintain a safe workplace on Kwaj and Roi this summer and you could be rewarded by the Friendly Observers Coaching Us on Safety (FOCUS) team. This year, 24 employees drawn from the KRS team will conduct worksite observations four times per month. The peer-to-peer safety initiative began on the garrison in 2015 with the mission to reward and improve workplace safety habits through positive performance coaching by fellow employees.

Behavioral trends, best practices and suggestions for improving workplace safety are discussed at bi-monthly team meetups.

“We [want] a committed team to encourage workers and reward safe behavior,” says Team Lead Elizabeth Lewis of this year’s membership. “This new group is motivated and committed. They sincerely care about their fellow coworkers, which is what we want.”

This year’s team kicked off operations May 10 and brought several familiar faces into the fold: Harden Lelet, Cliff Pryor, Melanie Carr and Mark Fredericks. To ensure that observations are effective and objective, half of the current teammates are members of the RMI workforce; 25 percent are women.

Lewis says guidance received during such a visit from the FOCUS Team is an opportunity to improve the worksite for everyone’s benefit.

“We want to reinforce positive behaviors we see,” says Lewis. “We want to address [those behaviors that are] at-risk. We want [the employees] to think about what they are doing and change behavior as necessary to do the work safely.”

To date, the FOCUS Team has visited sites as diverse as the Cold Storage warehouse, the Marine Department, the Fire Inspection office, the Real Property office, the Zamperini Dining Facility and the Kwajalein Clinic; visits to more worksites on Kwajalein and Roi-Namur are also planned. All told, a total of 175 observation visits have been completed since the May 10 kickoff, and 97 percent of those observations rated the work areas as safe. At risk behaviors observed are corrected on the spot and are considered learning moments. The FOCUS team provides data on trends of safe and at-risk behaviors observed by the KRS Safety and Health teams in order to ensure safety programs target immediate areas of concern.

“Most of the time we see positive behaviors, which is great,” Lewis says. “When we see something we can coach someone on; that’s important for us. And it’s very interesting to see our

Courtesy of FOCUS team

FOCUS team member Terry Henson observes firemen during a fire truck inspection.

RMI workforce communicate with our RMI coworkers [about] how important safety is. It’s not just a slogan to them. They’re really concerned about that employee doing something safely.”

When the FOCUS team visits your office, expect them to look for safe behaviors and to approach you when they can offer suggestions to prevent accidents, maximize comfort and boost productivity. Depending on the environment, that could mean using appropriate personal protective equipment (PPE) in industrial settings or adjusting ergonomics like posture or workspace layout to ease muscle strain and help prevent fatigue.

In recognition of safe work habits, employees may receive a safety token of appreciation which can be traded in for pastries and coffee at Sunrise Bakery on Kwajalein or snacks at Roi Surfway. Some employees prefer to keep the tokens as a memento.

“Making a positive impact on safety” is the mindset of the FOCUS team as it works to ensure Kwajalein stays accident free. Lewis encourages a community of safety communication on island.

“It’s not just a slogan,” says Lewis. “It’s from the top down, from our KRS president to every employee on the island. We want [everyone] to be safe always. I want the community to know [that we are] fellow employees and come from the same areas, whether that be construction or office, or community, or logistics. We’re here to encourage you. This is a no name, no blame situation. We don’t take people’s names down—unless they are going to receive a safety token.”

THE KWAJALEIN HOURGLASS

The Kwajalein Hourglass is named for the insignia of the U.S. Army 7th Infantry Division, which liberated the island from the forces of Imperial Japan on Feb. 4, 1944.

The Kwajalein Hourglass is an authorized publication for military personnel, federal employees, contractor workers and their families assigned to U.S. Army Garrison-Kwajalein Atoll. Contents of the Hourglass are not necessarily official views of, or endorsed by, the

U.S. Government, Department of Defense, Department of the Army or USAG-KA. It is published Saturdays in accordance with Army Regulation 360-1 and using a network printer by Kwajalein Range Services editorial staff.

RMI STUDENTS EARN SCHOLARSHIPS

HOURLASS REPORT

RMI high school graduates at Kwajalein Atoll were awarded scholarships from Kwajalein Range Services Wednesday, June 28. The eight graduates were granted the cash awards for their academic accomplishments, community outreach work on Ebeye and application essays.

All awardees are the children of current KRS Team employees and are the most recent batch of scholarship recipients in a program KRS has sponsored for several years. Congratulations go to Morlynn Dribo, Liahona Enos, Pearson Jesse, Pedro Jilong, Alice Joji, Cheryl Longbata, Bina Martinez and John Reim.

All graduates plan to attend college: Half will enroll at the College of the Marshall Islands in Majuro, while others will attend Brigham Young University-Hawaii, Palau Community College and Maui Job Corps.

The graduates were awarded academic scholarships from KRS for their scholastic achievements and dedication to aiding others in their community. **LEFT:** The group pauses for a photo at the Marshallese Cultural Center.

HOURLASS REPORT

Featured in the photo at right is a dog-rose cowrie, also known as the eglantine cowrie (*Mauritia eglantina*), one of the more populous species of cowries at Kwajalein Atoll and in the greater Marshall Islands. A mostly nocturnal mollusk that falls within the Cypraeidae family of small sea snails, the dog-rose cowrie can be found in shallow depths, mostly on lagoon facing shores of reefs and islands.

There is a note of caution here, however: *Mauritia eglantina* closely resembles a similar species of cowrie, the Arabian cowrie (*Mauritia arabica*), which is also found at Kwajalein Atoll. According to former long-time Kwaj resident Scott Johnson, a local authority on marine biology, both species feature the same pattern of light-to-dark brown irregular lines and speckles along its shell, making them very difficult to distinguish.

All cowries, regardless of their species, are mostly inactive during the day, opting to hide themselves deep inside reef ledges and crevices to avoid being preyed upon. Usually it is only

U.S. Army photo by Jordan Vinson

An Arabian cowrie (*Mauritia arabica*) is spotted combing a tide pool alongside sea cucumbers during a nighttime sweep of Sally Point on Roi-Namur last weekend. Unfortunately, its mantle was not exposed at the time of the photo.

during the night that they reveal themselves and stretch their soft mantles over their shells and get to feeding. Because of their nocturnal nature, most people see only the shells—long after the snail has passed away or been plucked out by an octopus beak.

Seeing one alive navigating the reef is special. To increase your chances of seeing one with your own eyes, head out to the reef with a flashlight during low tide after sundown. Or better yet, do a nighttime scuba dive.

Note: According to Johnson, more than 60 individual cowrie species have been identified at Kwajalein Atoll.

NAVY CORPSMAN RECIEVES MEDAL

HOURLASS REPORT

Navy Hospital Corpsman Petty Officer 1st Class Raymond Downen was awarded the Army Achievement Medal on Kwajalein, June 23. U.S. Army Garrison-Kwajalein Atoll Commander Col. Michael Larsen presented the medal to Downen for the lifesaving support he provided to a Kwajalein-Ebeye ferry passenger, June 16.

As a member of Naval Mobile Construction Battalion 1, Downen had spent that day on Ebeye working on humanitarian assistance construction projects. After he and his group boarded the ferry to return to Kwaj, a Seabee alerted Downen to an elderly woman lying prone on the floor of the vessel. The corpsman used his medical training to provide crucial first aid to the woman, who was suffering from heat-related illness.

His quick action was key to resuscitating the woman and staving off long-term effects from the medical emergency. Following the presentation of the medal to Downen, Larsen said the corpsman's training and actions were vital to the woman's health and recovery.

"You are the perfect example of the right person being in right place, at the right time," Larsen said. "I am sure that woman and her family are grateful for your actions that day, and so am I. You are a great credit to our garrison team."

Nikki Maxwell

Navy Hospital Corpsman Petty Officer 1st Class Raymond Downen, middle, is awarded the Army Achievement Medal for his quick medical support actions aboard a Kwaj-Ebeye ferry several weeks ago. Col. Larsen and Command Sgt. Maj. Angela Rawlings awarded Downen the medal.

CLOCKWISE FROM LEFT: A Marshallese employee picks up a few items Saturday, June 24, during AAFES' Marshallese Shopping Day. Riza Walker, Jeanna Larsen, Nikki Cole and Ornela Kilgore pose during Col. Larsen's farewell event Sunday, June 25, in the MP Room. Chris Schofill, Tony Janoski and Dan Clabo (pictured from left) celebrate a sizeable yellowfin catch at the Kwaj Small Boat Marina a couple of weeks ago.

Roi-Namur volleyball studs get in an afternoon match Saturday, June 24, at the sand court near the Adult Pool on Roi.

This is Kyle. He has been tasked with getting the mail to Roi expeditiously.

When you see him on Kwaj, tell him thank you.

FROM LEFT: Roi's famous Coconut Cup Race is advertised at a palm tree near the Roi-Namur Golf Course. Kyle Namidik, an employee of the garrison post office, is recognized for his efforts to get the mail to Roi.

A bike-less Kwaj resident tries a new mode of transport with the wind at his back on Roi last weekend.

WEEKLY WEATHER OUTLOOK

RTS WEATHER STATION STAFF

WEATHER DISCUSSION: We received 1.87" of rain Thursday nite, some of us got soaked riding home from BINGO! The June total is now 10.8" or 142% of normal. The Inter-tropical Convergence Zone (ITCZ) still remains across our latitude. Series of waves propogating westward along the ITCZ has been bringing the rain this past week. Satellite and other observations show a few more waves upstream to pass by this weekend.

Saturday will be isolated showers, but Sunday looks at least occasional rain and potential washout. Then ITCZ will drift southward resulting in reduced shower coverage going into Monday and for the 4th of July beach activities. ITCZ remains a little further south for next week.

SATURDAY/SUNDAY/MONDAY FORECAST: Fair weather Saturday with ENE winds at 10-15 knots. Occasional rain Sunday, scattered showers Monday, widely scattered Tuesday. Winds Monday and Tuesday ENE-SE at 5-12 knots.

MID-WEEK FORECAST: Widely scattered showers most of next week. Winds ENE-ESE at 10-15 knots.

Notice of Availability
USAG-KA Draft Final Verification Assessment Report for Kwajalein FN 713

The US Army Garrison, Kwajalein Atoll (USAG-KA) conducted removal actions at the Kwajalein Facility Number (FN) 713. The U.S. Army Kwajalein Atoll Environmental Standards (UES) require that results of removal actions be described in a Verification Assessment Report (VAR) document. The Draft Final VAR provides a summary of the completed cleanup activities for this site and provides regulatory agencies and the public opportunities to review and comment. The Draft Final VAR for the Kwajalein FN 713, dated March 2017, provides a

summary of the completed removal action activities at this site. The goal of the removal actions at FN 713 was to eliminate all materials with contamination above the established cleanup levels. The "No Further Action/Response Complete" (NFA/RC) determination can be applied to the majority of the site.

The public is invited to review and comment on the Draft Final Kwajalein FN 713 VAR in person or on line. In Person: Hard copies and comment forms for the Draft Final Kwajalein FN 713 Verification Assessment Report are currently available for public review at the following locations:

- U.S. Army Kwajalein Atoll Grace Sherwood Public Library (on Kwajalein)
- U.S. Army Kwajalein Atoll Roi-Namur Library (on Roi-Namur)
- Republic of the Marshall Islands Environmental Protection Authority Office (on Majuro)
- Republic of the Marshall Islands Environmental Protection Authority Office (on Ebeye)

On Line: Computer users with internet access can download documents and information related to the cleanup activities at the U.S. Army Kwajalein Atoll Cleanup website at www.usagkacleanup.info.

Questions about the site cleanup plan can be directed by phone to Nikki Maxwell, USAG-KA Public Affairs Office, (805) 355-4848.

Written comments on the Draft Final Kwajalein FN 713 Verification Assessment Report can be made one of four ways:

- 1) Hand written comments can be filled out and submitted at the above locations,
- 2) Through the www.usagkacleanup.info comment portal for the Draft Final Kwajalein FN 713 Verification Assessment Report document,
- 3) Emailed to comments@usagkacleanup.info, or
- 4) Mailed to Derek Miller: Attn: Draft Final Kwajalein FN 713 Verification Assessment Report Comments, USAG-KA DPW, CMR 701, Building 730, APO, AP 96555-9998.

A period of at least 30 days is provided for public comment. Comments should be mailed for receipt no later than 4 August 2017.

THIS WEEK IN KWAJALEIN HOURGLASS HISTORY

The Great Photo Giveaway

The *HourGlass* staff cleaned out the files last week and came up with a box of photos of people and places at KMR which the paper can no longer use. Beginning Monday, July 9, these photos will be displayed on the bulletin board in Grace Sherwood Library. Go up and look them over. If you see one you'd like for your Kwaj scrapbook, ask the librarian to put your name on it. On Friday, come pick up your picture. The librarian will make up a new display each week until all the photos are gone.

From July 6, 1979

Each week, the Hourglass asks three residents for their opinions about items of local interest. This week's question is

What does Independence Day mean to you? How do you plan to celebrate it?

(Asked at Range Command)

Rose Marie Maroon
USAKA Range Command secretary

In my opinion, the greatest day in the history of our country. The signing assured freedom from unreasonable constraints. I plan to spend it watching the fireworks display since I haven't seen one in years and I'm really looking forward to it."

Ira Lee Stewart
Communications management specialist

"I will try to remember the sacrifices made by all to ensure our nation's, and my own independence. I'll spend the day participating in a number of activities — diving, partying and of course, watching the fireworks."

From July 3, 1990
