SUNSET SCIENCE WITH RTS WEATHER

FEATURE/JESSICA DAMBRUCH

There is a famous saying about red skies. "Red sky at night, sailors' delight. Red sky in morning, sailors take warning." Can we use this ancient maxim to figure out what atmospheric conditions make an excellent sunset?

We know a good sunset when we see one. RTS Weather Station Meteorologist Sean Stelten says better sunsets occur over Kwajalein when moderate amounts of high-altitude, wispy cirrus clouds are visible in the skies overhead. These clouds form the sunset canvas. After the sun sinks below the horizon, it shines on the underside of these high-up clouds in warm hues. The thicker the cirrus, the more colorful the clouds.

Sunset quality can be increased by thick layers of mid-altitude altocumulus clouds if the edge of the cloud layer does not obscure the horizon. According to Stelten light shower activity scattered on the western horizon can also cast shadows onto other higher-elevation clouds for a dazzling effect.

All that being said, RTS Weather doesn't forecast clouds.

"Sometimes we do give an idea of what type of clouds we're expecting," Stelten said. "It's very hard to pinpoint expected cloud types in the tropics."

Instead, the forecast staff recommends a high-tech solution to the community: go outside—especially if you vacation in the U.S. this summer. Stelten believes the best fiery clear sky sunsets are found there.

"[Kwaj] atmosphere is relatively pollution-free, and clear skies at sun-

set won't actually give that impressive of a show, in my opinion," said Stelten. "[In the U.S.,] there's enough pollution, whether that be car exhaust, wildfire smoke or dust in the air to really refract the sun's rays and enhance the red and orange coloring."

Back to that saying about sailors and the red skies.

"I believe that saying comes from mid-latitude sailing (nearer to the U.S.), where storm systems usually move west to east," said Stelten.

We can appreciate the ancient saying but we can't depend on it to sail in the atoll. Kwajalein storm systems move from east to west, in the opposite direction of U.S. storms.

"If the sun sets to the west and a storm system is east of your location (thus leaving or dying), then the sun would cast a red and orange coloring from the west onto the clouds in the east," said Stelten. "The opposite is true for the morning. The sun rises in the east and casts color on storms to the west. Then the storm moves west to east over your location."

Want to learn more about the skies overhead? Sky-fanatics can consult the RTS website (rts-wx.com) and visible satellite imagery (rts-wx.com/satellite-latest-images-himawari-visible). Weather radar (rts-wx.com/index.php?radar-latest-images-reflectivity-150km) can register westerly light shower activity that could also produce a good sunset.

So hit Emon Beach and watch a few more sunsets. No matter how colorful the sky on a given evening, the very best sunset is the one you witness yourself.

THE KWAJ KID SUMMER FUN ADVENTURE GUIDE

FEATURE/JESSICA DAMBRUCH

Don't let the summertime pass you by! Here is a list of things to try while you're on Kwajalein. Build an adventure kit and pick activities to try from the suggestions below. Mix and match challenges from each category for fun in the sun. When your friends ask you what you did during the break from school, you will have your island adventures to share.

THE ADVENTURE KIT

Grab these items to include in your kit for safe summer fun. Feel free to add your own supplies.

- A notebook or sketchbook and your favorite pens
- Sunscreen
- A sunhat
- Swimsuit
- Goggles, a mask and a snorkel
- Water shoes or flip flops
- A water bottle and snacks
- Bag or basket to collect shells and plants
- Crafting supplies (scissors, glue, string and paper)

THE HISTORY KID

- You live in the middle of history! Visit the historical tour sites on Kwajalein to learn more about Operation Flintlock and prehistoric life in the atoll.
- Call an office on Kwajalein and ask to speak to someone about the history of their job field.
- Find out what kids have done for fun on the other islands in the Central Pacific.

THE TECHY KID

- Learn computer programming at codecademy.com
- Design the levels and characters for your own video game.
- Take something apart and try to put it back together. Ask a parent to help you choose what to work on before you get started.
- Learn how to keep your bike safe and rust-free.
- Using materials around your house, build a water-catcher to collect rainwater for the plants in your neighborhood.
- Invent robots! Draw a picture of a robot that solves problems for people. What kind of special gadgets does it need?

THE MAKER-BUILDER KID

- Learn to make your own playdough.
- Make a musical instrument your own using materials found around your home.
- Draw from real life! Kwajalein is a beautiful place full of color and light. Go outside and draw things you see in the natural world. Keep a daily journal of drawings, poems, stories and observations about what you do.
- Grab your phone and take short video clips that you can turn into a movie about your life on Kwaj.
- Make a city out of trash! Grab a glue and some markers and turn recyclable bottles, cans, paper tubes and plastics into tiny buildings, bridges and roads.
- Make a sun catcher out of plastic bottles that you color with markers. You can hang this up in a window.
- Go on a walk and collect small objects around the island. Everything will make a different sound. Choose the sounds you like the best and make the objects into wind chimes.

THE GREAT OUTDOORS KID

- With a friend, practice swimming skills like holding your breath and treading water.
- Check out the tidal zone and tide pools. Remember to wear safety gear like water shoes and gloves. Always bring a buddy and call in visits to the pools to the Security and Access Office before you go. Ask parents for help.
- Not old enough yet to scuba dive? No problem. Ask members of the diving community to share their stories about diving safety and the cool things they've seen underwater.
- Grab a trash bag and pick up the plastics on the beach with a friend. You'll be doing the world a big favor!
- Go for a walk and count how many different kinds of birds and plants you see. Keep a log of the species that live on the island. Notice anything new each week?

THE GLOBAL KID

- Hop online and follow news about the earth and environment for one week. Make a list of the problems that people around the world are trying to solve. Can you think of anything you can do to help them?
- Go online to NASA.gov and check out what the astronauts at the International Space Station (ISS) are doing.
- Become a mapmaker! Team up with your friends and draw maps of your own made-up country. You get to add and name mountains, rivers, streams, waterfalls—everything! Next, put your maps together to make a content. What do you have to add to between the borders to make your countries stick together and get along?

THE ANTHROPOLOGIST KID

- Visit the Marshallese Cultural Center
- Visit Ebeye with a friend or a parent.
- Learn ten new words in Marshallese
- On vacation? Keep a travel journal of things you see. You can keep it with your phone or in a journal.
- Did you know pirates sailed to Kwajalein Atoll? Do some research and find out how far they sailed to get here.
- Get a star chart and check out the night sky. How many constellations do you see?
- People who work on Kwajalein came here from all over the world. How many languages do you hear everyday?

RESIDENTIAL INTERNET

FREQUENTLY ASKED QUESTIONS

DynCorp International, as your internet service provider for the past month, truly appreciates our valuable customers and would like to address some questions and issues that have been brought to our attention.

Q. Why has the price of internet service increased?

A. As the new service provider, we are responsible for all aspects of operational service and support expenses to include US based internet service, internet equipment repairs and replacement, technical support labor, materials, and spare parts which impacts the price of service. The price is based on the number of customers and the cost of internet service expenses.

Q. When and how do subscribers get their bill? Email? Postal mail?

A. We are implementing a system capable of sending monthly invoices via email and expect it to be operational for the July 2018 billing period. Internet invoices will be sent 7 days prior to the 1st of each month when this system is operational. Until then you need to pay your monthly bill in Building 702.

Q. The Internet Service Agreement states "You agree to allow us and our agents the right to enter your property at which the service will be provided at reasonable times....". What is the definition of reasonable times? Will there be prior coordination?"

A. Residential technical support is provided Tuesday thru Saturday between the hours of 08:00 – 16:30 hrs. All technical support requiring visits to a personal residence will be coordinated with the customer.

Q. How were the changes to the residential internet service announced to the community?

A. To provide advanced notice of the upcoming changes in residential internet service, we advertised in four issues of the Hourglass and on the Roller channel that customers would need to sign up and pay for the new internet service beginning 1 May 2018.

Q. What changed when DI took over internet service?

A. The network equipment and infrastructure supplying the

internet service to your residence did not change at the time the internet providers changed. Anyone having internet connectivity issues should call the Internet Help Desk at 5-9000 to submit a service ticket requesting technical support as their first course of action.

Q. After a week of testing my internet speeds to detect the advertised increase there was no change. Why is the internet speed not faster?

A. There was no advertised attempt or plan to increase the internet speed. We only increased the amount of total bandwidth provided, which does not impact the speed. The additional 200MB in bandwidth is being allocated to offset peak congestion times (typically between 7-10pm and on weekends) so that users will be able to experience a consistent throughput of input/output data and not notice any slowness or lag in their 4MB down and 1MB up on a per connection basis.

Q. I am seeing a lot more "spinning circles" the last couple of weeks. Why I am getting less up/down speed than I have ever gotten?

A. The bandwidth of the MINTA (residential internet) circuit was 500MB up/down for a user base of ~ 700 users, before we transitioned the service. The increase of the 200MB now equals 700MB up/down which is provided to ensure there is no degradation of speed on a per user basis during peak hours. Subscribers are setup to receive 4MB down and 1MB up to their residence.

Q. Does the modem I receive when I sign up for service belong to me? If not, may I purchase and install my own?

A. No, the modem you receive when you sign up for service must be turned in to the Internet Help Desk when you terminate or disconnect your service. You may purchase and install your own model of modem, but the personal modem will not be supported by the Internet Help Desk.

Q. Are there any additional fees I should know about?

A. Customers who elect to disconnect service or who are disconnected due to non-payment, will be assessed a reconnection fee of \$75.

KOMMOL TATA.

I want to give a "Thumbs Up" for the great sound in the newly re-opened Yuk theater. My husband and I went to a movie there on Saturday and the sound quality was wonderful.

-Jacque Phelon

Kommel Tata to the Air Force parachute team that visited USAG-KA. You guys rock! That was such a great show. Thanks for visiting! Also, Kommol Tata to the Bakery for the fantastic ciabatta bread and chocolate croissants. I'm loving the taste.

-Kwaj Resident

WHAT'S THAT IN THE SKY?

- 1) Members of the 320th Special Tactics Squadron from Kadena Air Force Base in Okinawa, Japan executed aerial training operations at Bucholz Army Air Field June 19-21. Check out next week's Kwajalein Hourglass for the full story.
- 2) Members of the Kwajalein Community marvel at the unusual sight as the jumpers circle in the Kwaj sky.

COMMUNITY CLASSIFIEDS

HELP WANTED

To research and apply for government employment opportunities on U.S. Army Garrison-Kwajalein Atoll and worldwide, visit www.usajobs.gov.

KFS, LLC has an opening for a Staff Environmental Technician (Remediation) on USAG-KA. Please forward email or resume to vlabelc@kfs-llc.com.

FMWR is hiring Umpires, Referees, Scorekeepers and Timekeepers. All interested candidates may send their resumes to frankie.bradshaw@dyn-intl.com.

FMWR is hiring Lifeguards. All lifeguard applicants should send their resumes to Clifford.pryor@dyn-intl.com.

COMMUNITY NOTICE

Kwajalein Residents, FMWR and DPW will be making some improvements to the Tennis Courts from June 19 – 27. The current carpet will be removed and replaced with a new surface. We apologize for the inconvenience.

Facility Manager Evacuation Coordinator Training convenes the first and third Wednesday of each month at 10 a.m. in Fire Station Training Room, Bldg. 904. Classes are limited to 15 people. Call 5-3364 to sign up for class.

E-wareness: Petroleum Product Storage Tank Weekly Inspection. Each department owner of petroleum product storage tanks

is required to: Each department must inspect tanks weekly via trained custodian:

- Examine tank and piping for evidence of leaks and weeps.
- Examine tank for evidence of fuel/water within interstitial spaces.
- Inspect secondary containment area and ensure locks are in place (if applicable).
- Inspect leak detection system and alarm panels to ensure they are functional.
- Verify adequate spill response kit is readily available.

Aikuj wor juon eo jen kajojo department ej jeek e tank ko:

- Etale tank ko im baib ko ne ewor ettal ie.
- Etale tank ko ne ewor fuel/dren ilo kota ko ak ijoko rekitilik im jeja am loe.
- Jeek e nien dren/fuel ko jet bwe ren kilek im lock ne rej aikuj lock.
- Etale leak detection system im alarm panel ko bwe rej aikuj jerbal wot.
- Kamool ke ebojak spill response kit ko nan ien ko enaj wor spill ko.

New Residential Internet users must sign-up and pick-up a modem at Building 702. Please call the DynCorp Help Desk with questions at 5-9000.

Stress Reduction Training will be offered Friday, June 29 at 1 p.m. Learn how stress may be impact-

ing your health as well as useful strategies to reduce and manage stress. Training will be held upstairs in the Hospital Conference Room. Supervisors are encouraged to come learn tools for their employees.

Ongoing Smoking/Tobacco Cessation offered. Please call EAP at 5-5362 or make an appointment with a physician.

Grief and Grieving Group will be offered for 4 weeks starting Tuesday, July 10 at 4:30 p.m. Please call EAP for further information. 5-5362.

Amnesty Boxes. Anyone in possession of ammunition or pyrotechnics, please deposit into one of the designated amnesty boxes located on Kwajalein or Roi at the Kwaj Small Boat Marina, Kwaj Air Terminal (Bldg. 902) and Roi Air Terminal. If items are too large in size/quantity or if you have any safety concerns notify EOD at 5-1433/1550 to arrange for collection. These boxes are not UXO collection points. For UXO, notify EOD... DO NOT TOUCH!

WEEKLY WEATHER LOOKOUT

RTS WEATHER STATION STAFF

WEATHER DISCUSSION: Someone asked if the first half of 2018 is the wettest ever. Yes, it is. Another record broken and June isn't over yet. From January to June we have received over 79 inches of rain. The next highest total for any Jan-June time-frame is a measly 69 inches back in 1951.

An active weather pattern was on top of Kwajalein Thursday-Saturday with abundant rain in the area and low level circulations causing some west winds. This remains so into next week as the InterTropical Convergence Zone will be moving north of our region over the weekend then meandering on top of us, then north, then on top again. For this upcoming week there will be periods of rain, then a break for one to two days before the rains continue. Expect moderate winds at 7-12 knots from NE-S, with exception of gusts from convective storms as experienced this past Thursday. Tune in to the daily forecast on channel 14-2 or rts-wx.com or call 5-3347 for more daily details.

SATURDAY/SUNDAY/MONDAY FORECAST: Scattered showers Saturday and Sunday, widely scattered showers Monday. Winds NE on Saturday becoming SE by Monday at 7-12 knots.

MID-WEEK FORECAST: Days with scattered rain (30-50 percent), days with isolated rain (10 percent coverage). Winds NE-S at 7-13 knots.

USAG-KA PET OWNERS: UNITED AIRLINES PET TRAVEL POLICY CHANGE

United Airlines implemented several new policies and customer requirements for pet air transportation to improve the safety of the travel experience. Pet owners can find the new pet standards at: <https://www.united.com/ual/en/us/fly/travel/animals/petsafe.html#petsafetable>.

For details about United Airlines' possible exceptions to policy based on your individual pet situation, contact Terrance Dominique, General Manager, United Airlines (Kwajalein office) by phone at 5-1015 or email: terrance.dominique@united.com.

PLEASE NOTE:

* There will be NO exception to policy allowing Contract personnel to travel on military ATI flights with pets. Commercial flight arrangements must be made.

* United Airlines will NOT accept reservations for the listed brachycephalic (short- or snub-nosed) dogs and cats and strong-jawed dog breeds, out of concern for higher adverse health risks.

* United Airlines will accept pre-reservations between 30 days in advance (maximum) and five (5) days (minimum) prior to travel for customers traveling with their pets and/or for pets traveling alone

* United Airlines will require the customer to provide PetSafe with several pieces of information (e.g. documents, photos, crate information, etc.) before any reservation is confirmed.

* United will not accept crates taller than 30 inches, including the 700 series crates.

U.S. Army Garrison Kwajalein Atoll understands that all pets are valued members of the family. Please plan accordingly and take responsibility for your animals to avoid any unfortunate situations. For additional travel options, pet owners are encouraged to check with other locally operating commercial airlines including Air Marshall Islands and Nauru Airlines.

LUNCH

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	June 30
Turkey Vegetable Soup	Bombay Chicken	Beef Noodle Soup	Chicken Gumbo Soup	Corn Chowder	Orange Chicken	Meatloaf
Roast Turkey	Smothered Pork Chops	Chicken Cordon Bleu	Jambalaya	Jerk Chicken	Beef & Broccoli	Savory Baked Chicken
Glazed Ham	Dirty Rice	Baked Parmesan Fish	BBQ Chicken	Beef Curry	Steamed Rice	Mashed Potatoes

DINNER

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	June 30
Pizza	Pasta Bar	Taco Tuesday	Steak Night	Fried Chicken	Wing Bar	Hamburger Bar
