EMON BEACH MAIN PAVILION IS OPEN

BY JESSICA DAMBRUCH

U.S. Army Garrison-Kwajalein Atoll Commander Col. Tom Pugsley thanked the many personnel from the Department of Public Works for their support in completing the Emon Beach main pavilion refurbishment project April 16, ahead of schedule.

“I am excited about it” Pugsley said. It’s going to get utilized for the first time for the high school graduation coming up next month.”

Public Works crews worked for more than 11 weeks to ensure the facility was ready by April 18 before the Kwajalein High School commencement exercises. They would ultimately finish two days ahead of schedule with zero injuries.

“I really appreciate all the hard work you did at Emon,” Pugsley said, during a ribbon-cutting ceremony at the pavilion. “As you know, Emon Beach pavilion is probably the most utilized resource on the island. Thank you, on behalf of the garrison, for all your hard work. I really do appreciate you. We look forward to many more projects like this coming up in the future.”

The project engaged the expertise of every shop in

U.S. ARMY PHOTOS BY JESSICA DAMBRUCH

The newly refurbished Emon Beach main pavilion was completed ahead of schedule on April 16, just in time for spring graduation parties and more.

Public Works, said DPW supervisor Matthew Grubel. Major sections of the facility were deconstructed and laid flat. Construction included a complete refabrication of the pavilion snack bar and its new countertops, as well as the roof covering the snack bar area. Next, after significant repairs, personnel from Kelly Welchlin’s Metal Shop and James Chong-Gum’s Heavy Equipment teams re-erected the main structure and its

new roof—a significant moment in the project.

“They did an awesome job,” Grubel said. “That was a major feat.”

Paint crews worked both on and offsite to perform corrosion control and touch-ups on newly painted surfaces to extend the longevity of the repaired metal, Grubel said. The electrical team worked to update vintage systems to meet modern construction standards. The plumbing

team installed a new snack bar sink.

“Our electricians did a phenomenal job, rewiring the bulking to better standards and specifications,” Grubel said. “We had every department of DPW come together and just really orchestrate itself as a wonderful working team.”

Coordinating the flow of activity, team leaders helped assure safety on the worksite. Grubel credits DPW super-

THE KWAJALEIN HOURGLASS

The Kwajalein Hourglass is named for the insignia of the U.S. Army’s 7th Infantry Division, which liberated the island from the forces of Imperial Japan on Feb. 4, 1944. The Kwajalein Hourglass is an authorized publication for military personnel, federal employees, contractor workers and their families assigned to U.S. Army Garrison-Kwajalein Atoll.

Contents of the Hourglass are not necessarily official views of, or endorsed by, the U.S. Government, Department of Defense, Department of the Army or US-AG-KA. It is published Saturdays in accordance with Army Regulation 360-1. Phone: Defense Switching Network 254-5169 Local phone: 5-5169

visor Clint Easton as “a very instrumental person” to helping DPW teams work together and meet their mission efficiently and without injury.

“It was wonderful to have him out on top, leading us through the project. Clint was personally involved in supporting the workers—every single person—every day,” Grubel said.

DPW Director Derek Miller recognized the colossal effort to build new purlins, or roof support beams, and to rebuild the pavilion’s original columns and structure. He appreciated the significant contributions and talents of the Heavy Equipment team and the Metal Shop crew for their work on the project.

“This project is a capstone project for LOGCAP IV, which will greatly benefit the Kwajalein community,” said Miller. “The project proved reparability of degraded metal structures, so we’ll be considering repairs rather than replacements of similar metal structures in the future. This approach saved costs and time as well as the unique architecture.”

“We’re really proud of our guys,” Grubel said. “A lot of guys gave up their weekends, free time with families, to accomplish this. ... They followed safety procedures. When you look at the monolithic size of the project, it’s wonderful to be able to claim no injuries and to have it completed ahead of schedule. ... My thanks go out to the hardworking DPW men—especially the RMI—and their counterparts, the expats,” he said.

BANKS EARNS IMCOM-PACIFIC NCO OF THE QUARTER

BY MIKE BRANTLEY / USAG-KA PUBLIC AFFAIRS

Sgt. 1st Class Effie Banks, a human resources specialist and contracting officer representative for the Kwajalein post office, was recently named the winner of the Installation Management Command-Pacific Non-Commissioned Officer/Virtual Soldier Board for the second quarter of fiscal year 2022.

Banks competed with four other Soldiers from around the Pacific for the honor, which was held virtually. She will compete for NCO of the Year for IMCOM-P later this year.

Banks submitted a Soldier Record Brief and biography prior to answering 20 questions on Army Doctrine; wrote a 500-word essay on leadership; wrote an information paper on the Army Career Intermission program; and provided a reflective writing in under 250 words.

Banks is from Hampton, Virginia, and has served in the Army for 15 years.

"Believe it or not the reflective writing was the hardest because I had all these ideas, which ended in about 570 words," said Banks. "I had to cut that in half to 250 words and still have it make sense."

Banks said she enjoys engaging with the community and helping others, and is also USAG-KA's Sexual Harassment/Assault Response and Prevention Victim Advocate, in addition to her other duties.

KWAJ KIDS TACKLE CYS NINJA WARRIOR CHALLENGE

1

2

3

4

BY JESSICA DAMBRUCH

Young island residents enrolled in U.S. Army Garrison-Kwajalein Atoll Child and Youth Services programs participated in the finale of the Ninja Warrior Challenge April 16 at the Namo Weto Youth Center.

The outdoor obstacle course was the culmination of a month of fun fitness training. During weekly activities, CYS personnel led physical training designed to help build balance, endurance and cardio skills, as much as personal confidence.

Parent and youth volunteers helped guide each participant through the challenges, beginning with a rope-pull on scooter boards and a run through a bouncy-ball “gauntlet” fixed to the Emon Beach Park swing sets.

After a first run through the course, participants opted to attempt the challenges multiple times. It was the ice water dunk tank—the grand finale—that kept them coming back, several said.

Special thanks to all of the volunteers and CYS staff for producing this fun event.

5

1) Volunteer Alex Strong cheers on a young island resident. 2) The youngest member of the Nickell family is all about this obstacle course. 3) Kai Bates crosses the tightrope challenge. 4) Solomon Howe runs through the tire challenge, followed closely by Urijah Corder. 5) Jameson Jackson zips through the scooter board challenge. 6) The ice water dunk was the last challenge in the obstacle course—and the most popular.

NOTICE OF AVAILABILITY

PUBLIC NOTICE

The United States Department of the Air Force, Global Strike Command and Space Launch Delta 30 of the U.S. Space Force has prepared a Draft Document of Environmental Protection for the Ground Based Strategic Deterrent Test Program Environmental Assessment/Overseas Environmental Assessment, in accordance with the U.S. Army Kwajalein Atoll (USAKA) Environmental Standards and Procedures (UES), Section (§) 2-17.3.1(j).

The 2021 EA/OEA analyzed the implementation of the GBSD Test Program, which represents the modernization of the U.S. land-based nuclear arsenal, eventually replacing the aging Minuteman III intercontinental ballistic missile system.

Before DAF can make future decisions to transition the Minuteman III weapon system from active status to the GBSD weapon system, developmental and operational program testing of the new system must occur.

Because the proposed GBSD Test Program would overlap several years of Minuteman III flight testing, the Proposed Action analyzed in the 2021 EA/OEA took into consideration actions and re-

MINUTEMAN III MODIFICATION/FUZE MODERNIZATION FLIGHT TESTS AND GROUND BASED STRATEGIC DETERRENT (GBSD) TEST PROGRAM DRAFT DOCUMENT OF ENVIRONMENTAL PROTECTION (DEP)

sulting impacts that would occur from conducting both GBSD and Minuteman III test programs in parallel.

All missile demonstration programs proposed to occur at USAKA and within the Republic of the Marshall Islands territorial waters must comply with the UES. The Draft DEP outlines the activities proposed to occur at USAKA and within the RMI.

Target locations would include the Kwajalein Missile Impact Scoring System, offshore of Illeginni Islet, and land impact on Illeginni Islet.

For GBSD flight tests conducted at U.S. Army Garrison-Kwajalein Atoll, up to approximately nine test reentry vehicle impacts per year would be conducted starting in fiscal year 2024 and continuing until FY 2029. While most test RVs would be targeted at the KMISS ocean area or deep waters in the vicinity of Illeginni Islet, up to three total land RV impacts may be possible at Illeginni Islet through FY 2029.

The Draft DEP is available at <https://gbsdtesteaocia.govsupport.us/> and in the following locations:

1) Office Lobby of the Republic of the Marshall Islands Environmental Protec-

tion Authority, Majuro, Marshall Islands

2) Office Lobby of the Republic of the Marshall Islands Environmental Protection Authority, Ebeye, Marshall Islands

Public comments on the Draft DEP will be accepted from April 26 to May 26, and can be provided in either of the following ways:

(1) The Comments tab at <https://gbsdtesteaocia.govsupport.us/>

(2) E mail comments by May 26, 2022 to gbsdtesteaocia-comments@govsupport.us

(3) Mail comments, postmarked no later than May 26 to: USASMD, ATTN: SMD-EN (D. Hasley), P.O. Box 1500, Huntsville, AL 35807

Kwajalein residents— smoking is permitted only in designated smoking areas. All smoking and cigarette butt receptacles must be at least 50 feet from the entrance of facilities.

USAG-KA Policy Memorandum 600-8 sets forth specific policies designed for protection from the negative impact of tobacco use. Smoking cessation programs are available. For more information, contact Mary Beth Dawicki at 5-5362 or by email at Marybeth.Dawicki@internationalsosgs.us.

POWERED BY

MAKE THE CONNECTION

The USS Sturgis arriving in Panama. A former Liberty Ship, the Sturgis was part of the U.S. Army Nuclear Power Program. From 1968-72, the Sturgis and its sister ship, the power ship Andrew Weber, provided enough power to support increased traffic through the Panama Canal as a result of the Vietnam War. The Sturgis left the Reserve Fleet for Galveston, Texas, to be decommissioned in 2015.

U.S. ARMY SPACE AND MISSILE DEFENSE COMMAND HISTORY

BY SHARON WATKINS-LANG, USASMD C HISTORIAN

On April 24, 1968, the Sentinel Systems Command issued General Order Number 1. The order states in part that the MAR II Floating Power Plant is hereby designated as Power Ship Andrew J. Webber in honor of Master Sgt. Andrew J. Weber.

Posthumously awarded the Legion of Merit, Weber had served with the Nike-Zeus and Nike-X program from December 1961 until his death on April 29, 1965, as a military radar technician and test observer.

During this period, Weber “distinguished himself by exceptionally meritorious service,” as the test noncommissioned officer in the engineering and service test effort at White Sands Missile Range, New Mexico, and Kwajalein Missile Range.

The citation notes that Weber “achieved outstanding effectiveness” with a “technical skill, professional competence, and willingness to assume responsibilities far greater than those normally expected.”

While at White Sands, Weber helped to implement the Audio-Visual Information System test – “a new and revolutionary approach to the maintenance of radar equipment.” Weber was commended for “his sound judgment, discernment and diplomacy” as well as “his perseverance, foresight, and professional knowledge” which insured the success of the highly technical project.

Tragedy Strikes on Kwajalein

In February and March of 1965, range operations on Kwajalein required a

blackout across the island.

Weber and Sgt. 1st Class Nick Charnego attended a party and began the walk back to their quarters when they were struck by a station wagon driven by a co-worker on Feb. 28

While Charnego was treated at the Kwajalein Hospital, Weber suffered more serious injuries and was evacuated to Tripler Army Medical Center in Honolulu the next day. With continued improvement, on March 23, Weber transferred to William Beaumont Army Medical Center, Fort Bliss, Texas. On April 29, Weber passed away. He was 38 years old. Weber was survived by his mother Elsie, wife Aria and children Cynthia and Paul.

High-Powered Legacy

Weber’s memory lives on. He became the namesake for a masterwork of late-1960s nautical engineering.

In January 1968, as the General Order was issued, the newly named “Power Ship Andrew Weber” was still under construction. As part of the Nike-X complex on KMR, the ship was developed by General Electric Company under a \$9 million contract with the Honolulu Engineering District of the Corps of Engineers.

Built on a surplus World War II U.S. Navy dry dock, the MAR II Power Plant measured 240 feet long and 101 feet wide. Equipped with three 1,650-kilowatt diesel generators and two 8,400-kilowatt gas turbine sets, the floating power plant was designed to provide 20,000 kilowatts of power—enough electricity for a community of 25,000 people, to support the Multifunction Array Radar

II, a tactical version of the MAR, under construction on Roi-Namur. It was the first American floating power plant designed with both diesel and gas-turbine power units. With three modes of operation—Standby, Surveillance and Maximum Traffic—the frequency and voltage could be controlled either from the barge itself or remotely from Kwajalein.

In June 1968, however, while transiting the Panama Canal enroute from Maryland to Kwajalein Missile Range, the Secretary of the Army Stanley Resor redeployed the Weber, assigning it to the Panama Canal Zone.

The zone, which operated under the jurisdiction of the Secretary of the Army on behalf of the U.S. president, received its electrical power from the hydroelectric plant on Gatun Lake. In 1968, political unrest in the country coupled with a severe drought threatened the power supply. While in Panama, the Weber would supplement the USS Sturgis, the first floating nuclear power station.

According to COE records, the combined operations of the Sturgis and the Andrew Weber, saved over one trillion gallons between October 1968 and October 1972. This volume of water would allow fifteen additional ships to pass through the Panama Canal each day supporting the increased traffic at the height of the Vietnam War.

During this period, the Andrew Weber remained under the jurisdiction of the Honolulu Engineering District giving it the largest geographical range of operations of all districts in the Corps. In spring 1970, however, management of the ship and the power plant transferred to the Office of the Corps of Engineers.

We next find the Weber in the records, in Fort Lauderdale, Florida. From Nov. 8 to Dec. 15, 1976, an LT 529 ocean-going tug from the Army’s 73rd Transportation Engineering Company towed the Weber from Florida to Fort Belvoir, Virginia, where it probably joined the USS Sturgis in the James River Reserve Fleet outside Fort Eustis. (On April 16, 2015, the USS Sturgis left the Reserve Fleet for Galveston, Texas, to be decommissioned.)

Along with other Army-operated barges and ships, on Oct. 1, 1977, the Weber transferred to the U.S. Navy.

Over the next decade, the Weber made it to the Pacific Ocean with a transfer to Guam. There it would provide power to military bases and support the Guam Power Authority.

Following Typhoon Omar in 1992, the government of Guam authorized the refurbishment of the Andrew Weber to provide 16 megawatts of electricity to address the emergency requirements. As costs rose, however, the project was terminated in 1994.

The Andrew J. Weber YFP-14A was one of 16 vessels scuttled as part of a military target practice program in calendar year 2001. The 6,000-ton vessel was sunk on July 19, 2001. It currently lies at a depth of 12,600 feet about 250 nautical miles southeast of Agana, Guam, but Weber is remembered in the history of the Kwajalein Missile Range and USASMD C history.

U.S. ARMY PHOTOS BY STAFF SGT. TAE HARRISON

Army senior leaders join policy contributors from across the force to sign the Parenthood, Pregnancy and Postpartum Army directive on April 19, 2022 at the Pentagon. Pictured from left to right first row: Gabriel Camarillo, Undersecretary of the Army; Lt. Col. Kelly Bell; Maj. Sam Winkler; Christine E. Wormuth, Secretary of the Army; Staff Sgt. Nicole Pierce; Amy Kramer. Second row from left to right: Lt. Gen. Gary Brito, Army G-1; Gen. Joseph M. Martin, vice chief of staff of the Army; Command Sgt. Maj. Michael Grinston, sergeant major of the Army.

SOLDIERS INSPIRE NEW ARMY DIRECTIVE ON PARENTHOOD, PREGNANCY AND POSTPARTUM POLICIES

EXTERNAL REPORT

By U.S. Army Public Affairs

WASHINGTON—What began as a grass-roots effort by Soldiers to identify issues facing pregnant and postpartum Soldiers became formal policy April 21, when Army Secretary Christine Wormuth signed a directive aimed at improving opportunities for Soldiers to advance their careers while providing the time and flexibility needed to care for growing families.

The Army's Parenthood, Pregnancy and Postpartum directive makes a number of significant policy changes and program improvements, including expanding postpartum operational and training deferments, extending exemptions for physical fitness testing and the Army Body Composition Program, standardizing convalescent leave in cases of pregnancy loss, allowing select professional military education attendance while pregnant, creating stabilization while undergoing fertility treatments, and increasing family care plan flexibility.

"We recruit Soldiers, but we retain Families," said Gen. James McConville, Chief of Staff of the Army. "Winning the war for talent means making sure our best and brightest people don't have to choose between service and Family."

The directive contains 12 components. Six of them are entirely new—five of which were suggested from Soldier feedback—and the other six are updates to existing policies.

Although four components were re-

Secretary of the Army Christine E. Wormuth signs the new Army Parenthood, Pregnancy and Postpartum Directive on April 19, 2022. The directive will help new Army moms transition back to duty and also assist all Soldier parents in caring for military children.

quired by Congress, the Army expanded on the initial requirements to improve the health and quality of life for all parents.

These changes affect over 400,000 parents within the total force, including 29,000 single father Soldiers, who outnumber single mother Soldiers by a 3-to-1 ratio. Under this directive, all of the components—which previously existed in over 20 Army regulations—are

consolidated in one document to provide a resource for leaders to assist military families.

Brigade-level leaders will be required to establish their own policies to reinforce the directive.

Army Directive 2022-06 (Parenthood, Pregnancy and Postpartum) can be found at Army Publishing Directorate at: <https://armypubs.army.mil/Product-Maps/PubForm/ArmyDir.aspx>.

COMMUNITY CLASSIFIEDS

The community wants to hear from you. Email announcements and advertisements to kwajaleinhourglass@amentum.com Wednesdays by close of business. Ads received after deadline will be published in the next issue of The Kwajalein Hourglass.

ARMY REGULATIONS
TOBACCO USE. USAG-KA Policy Memorandum 600-8 protects others from the negative impact of tobacco use. On USAG-KA, smoking is permitted in designated smoking areas only. Smoking and cigarette butt receptacles must be at least 50 feet from the entrance of facilities.

CANDLES and open flames are not permitted in BQ rooms. The Kwajalein Fire Department thanks you for keeping your neighbors safe.

CLASSES
ALCOHOLICS ANONYMOUS. Open meetings for this group are Tuesdays at 6:30 p.m. in the REB, Room 213.

BLDG. COORDINATOR TRAINING. This training for building managers is required by AR 420-1. Kwaj training occurs on the first and third Wednesdays of each month at 10 a.m. in the Religious Education Building. Roi-Namur training occurs on the second Wednesday each month at 9:30 a.m. in C-building. Call 5-3364 to register.

SMOKING CESSATION. Ongoing smoking and tobacco cessation counseling is available. Call the EAP at 5-5362 or email marybeth.mawicki@internationalsosgs.us for more.

FACILITIES
RACQUETBALL COURT CODE. Residents can obtain the door code from the MWR Desk at the Grace Sherwood Library. The code will not be given out over the phone. Contact MWR at 5-3331 with questions.

HELP WANTED
To research and apply for government employment opportunities on U.S. Army Garrison-Kwajalein Atoll and worldwide, visit usajobs.gov. Write to kwajalein.hourglass@amentum.com to remove your listing.

WEEKLY INSPECTIONS OF HAZARDOUS MATERIALS, WASTES, AND PETROLEUM PRODUCTS

All hazardous materials, wastes, and petroleum products storage areas, including the exteriors of aboveground storage tanks, shall be inspected weekly to detect leaking or deteriorating containers. An HMWPP storage facility is an area or stationary fixture that contains 55 gallons of an HMWPP for more than 72 hours. Questions? Call VECTRUS Environmental at 5-1134.

Aolep jikin kakkwon HMWPP, bar einwot tank ko rej bed ilon, rej aikuj in inspect aolep week non lale im jela ke emor im joraan tank ko ak ewor ettal ilo tank ko. Ijoko jikin kakwon HMWPP tank ej ijoko me 55-gallon tank ko etto lok aer bed jen 72 awa. Kajjitok? Kurlok VECTRUS Environmental ilo 5-1134.

Contact Vectrus Environmental at 5-1134 for information.

Please notify island veterinary services as soon as possible if you plan to PCS with your pet. COVID has created increased delays in some necessary testing needed for most destinations outside of CONUS.

If a Fluorescent Antibody Virus Neutralization test is needed for your PCS, it could take eight weeks to receive results. You should allow three to six months to leave Kwajalein with your pet(s), however if you need to leave on shorter notice, Vet Services may be able to help.

Kwajalein Veterinary Services

Phone: 5-2017

Email: kwajaleinveterinaryclinic@internationalsosgs.us

WILL YOUR PET PCS SOON?

RMI TRAVEL ISSUANCE #37

Effective March 31, the Republic of the Marshall Islands government has insituted Travel Issuance 37. This travel restriction applies through April 30.

UNITED AIRLINES FLIGHTS FOR APRIL-MAY

Monday
UA155 (HNL)

Check-in: 3:30 – 4:45 p.m.

Tuesday
UA154 (GUM)

Check-in: 10:45 – 11:15 a.m.

PROVOST MARSHAL'S OFFICE NOW ACCEPTING DIGITAL FORMS ONLY

Effective April 1, the Provost Marshal's Office will no longer accept hard copy forms. Only forms sent digitally will be accepted. All 55R's, Community Exchange, 480's and Day Guest forms will be sent to usarmy.bucholz.311-sig-cmd.mbx.usag-pmo@army.mil. All documents must come from your servicing Human Resources representative. All forms must be received 14 days prior to the beginning of travel of the sponsored. Questions regarding forms can be directed to the above mailbox or at 5-4416/3739.

BUCHOLZ ARMY AIRFIELD PERIMETER ROAD CLOSURE THROUGH MAY 2

Now through May 2, the Bucholz Army Airfield perimeter road is closed to through traffic from 6 p.m. to 6 a.m. for nighttime construction operations on and around the airfield and runway. Parsons, San Juan Construction, RHB and ACME thank you for helping keeping you and your family safe.

Please
don't add
to the problem.

Pollution and litter in and around the world's oceans poses a growing problem. Plastic waste and other discarded trash endangers wildlife, negatively affects natural habitats and ruins the natural world for all of us. Please remember to discard trash in the proper receptacles around Kwajalein.

U.S. ENTRY REQUIREMENT
A REMINDER TO ALL
DEPARTING ON UNITED AIRLINES

It is a requirement of the Centers for Disease Control and Prevention that all passengers have a negative COVID test one day prior to departure.

How does this impact you? If you are traveling to the U.S., you must call the hospital no later than a week prior to your departure to schedule your COVID test. Payment will be expected at the time of service.

*EXCEPTION: Government, Active Duty or DoD Civilians/dependents traveling on official orders do not require a COVID test to fly on United Airlines.

ATTENTION ALL
USAG-KA RESIDENTS

Remember, it is illegal to remove cultural resources from the atoll.

This includes any protected species, unexploded ordnance, WWII-era artifacts and ancient Marshallese artifacts.

These resources are protected under U.S. federal and RMI law.

Please do not remove these precious pieces of atoll history from Kwajalein. For any questions about cultural resources, please contact the Kwajalein Archaeology Office at 5-9502.

QUARTERLY INNOVATION
CHALLENGE
The Garrison Commander wants to
hear from you.

U.S. Army Garrison-Kwajalein Atoll is looking for great ideas to help make innovations and improvements to our island community life. You can help.

You can win the Quarterly Innovation Challenge.

Winners will receive an official innovator's award and a special AAFES gift card presented by Col. Tom Pugsley.

- Submit your great idea:**
- Call the Commander's Hotline at 5-1098
 - Send an email to USAG-KA Public Affairs Officer Mike Brantley, at james.m.brantley4.civ@army.mil
 - USAG-KA Command thanks AAFES for supporting this special community initiative.

BAAF PERIMETER ROAD CLOSED FOR CONSTRUCTION

The Bucholz Army Airfield perimeter road will be closed during airfield construction work on the following dates from 6 a.m. - 6 p.m.: April 24, May 1, 8 and 15.

PROTECT YOUR WORKERS FROM
HEAT STRESS

Learn more about heat stress at: www.cdc.gov/niosh/topics/heatstress

DEPARTMENT OF HEALTH AND HUMAN SERVICES
Centers for Disease Control and Prevention
National Institute for Occupational Safety and Health

Develop an acclimatization plan

Acclimatization is the result of beneficial physiological adaptations (e.g., increased sweating efficiency and stabilization of the circulation) that occur after gradual increased exposure to a hot environment.

TIP 1

Gradually increase the time spent in hot environmental conditions over a 7-14 day period.

TIP 2

For new workers, the schedule should be no more than 20% exposure to heat on day 1 and an increase of no more than 20% exposure on each additional day.

TIP 3

For workers who have had previous experience with the job, the acclimatization schedule should be no more than:

DAY 1	DAY 2	DAY 3	DAY 4
50% EXPOSURE	60% EXPOSURE	80% EXPOSURE	100% EXPOSURE

Set up a buddy system

Check your workers routinely to make sure...

- ☑ they make use of readily available water and shade.
- ☑ they don't have heat-related symptoms.

Schedule and encourage frequent rest breaks...

...with water breaks in shaded or air-conditioned recovery areas.

Emphasize the need for appropriate clothing

Encourage workers to wear clothing that is...

Cotton clothing can be soaked in water to aid cooling.

- 4 Be aware that protective clothing or personal protective equipment may increase the risk of heat stress.
-

Encourage workers to drink plenty of fluids...

...such as drinking small amounts of water before becoming thirsty.

During moderate activity in moderately hot conditions, workers should drink about...

GLOBAL CAREERS WITH VECTRUS
