UNDER SECRETARY OF DEFENSE  
4000 DEFENSE PENTAGON  
WASHINGTON, D.C. 20301-4000

JUN - 2 2022

MEMORANDUM FOR SENIOR PENTAGON LEADERSHIP  
DEFENSE AGENCY AND DOD FIELD ACTIVITY DIRECTORS

SUBJECT: 2022 Department of Defense Juneteenth National Independence Day Observance

The Department recognizes June 19, 2022 as Juneteenth National Independence Day, the commemoration and recognition of the end of African American slavery in the United States. On this day we celebrate resilience, resistance, and liberation.

When General Gordon Granger arrived in Galveston, Texas to issue General Order No. 3 and secure the Union Army’s authority over Texas, he spoke not just of freedom, but “an absolute equality of personal rights.” However, that absolute equality was not immediately realized. For 400 years, African Americans reminded America of its obligation to treat all people equally under the law. Even in times of slavery, brutally enforced segregation, Jim Crow, and legally enforced inequality, Black Americans fought for their freedom: their right to vote, to hold political office, to pursue education, to hold property, and to ensure their own safety and prosperity. Even when confronted with threats of violence and death, African American leaders and activists created institutions of higher learning, local governance, the arts, faith, and more. Juneteenth calls us to recognize these remarkable achievements and what has been overcome.

The African American journey in the military has also been marked by the struggle for equality. Black Service members have served with distinction throughout the history of our Nation, and their honorable service has been critical in breaking down racial barriers in the military and civilian spheres. However, it has been only 70 years since the signing of Executive Order 9981 ending segregation in the Military Services. The history of explicit inequality is not so far removed.

In 1999, then-President Clinton posthumously pardoned Lieutenant Henry O. Flipper, the first African American to graduate from the U.S. Military Academy and the victim of racial injustice that ended his military career. In the 145 years since Lieutenant Flipper’s commissioning, the highest ranks in the Department have been held by African American Service members and civilian employees. These successes are built on the struggles and achievements of those who have gone before and serve as a reminder of our own ongoing commitment to equality.

# LOGCAP V JOB FAIR CONNECTS EBEYE RESIDENTS WITH OPPORTUNITY

BY JESSICA DAMBRUCH

More than 230 prospective Marshallese job applicants attended a LOGCAP V job fair held on Ebeye June 3 at the Wilmer Bolkheim Gym, said human resources specialist Jaclyn Lemari-Solomon.

Working closely with Ebeye officials and law enforcement, Lemari-Solomon ensured news about the job fair spread throughout the Ebeye community. Security vehicles announced the event during neighborhood patrols via a vehicle loud-speaker system. Fair announcements were posted at major thoroughfares like Kwajalein's Dock Security Checkpoint.

An estimated 300 people received the message and were able to connect with hiring managers from Kwajalein public works, trades and administrative support departments.

Making access to job opportunities more convenient for prospective applicants was important, Lemari-Solomon said.

"People were there before we were," she said, "and it was a rainy morning."

It is meaningful for Lemari-Solomon to help the community, she said. She knows people who attempt to secure jobs to support their families.

"It's hard to get a job," she said. "I know it is. You've got to have that diploma or degree."

She appreciates the support in producing the event.

"One thing I love is the unity of the com-

PHOTO COURTESY OF SCOTT ROESLER

munity," Lemari-Solomon said. "They all support the company by reaching out to everyone. It's all teamwork from everyone here—all of my coworkers. I couldn't have done it without their support. We all did it together and we were able to reach out to 200 to 300 people."

Lemari-Solomon reminds future applicants that they are always welcome at LOGCAP V Human Resources. They can check out job listings online and visit the office to talk to HR representatives. Computer and printing resources for preparing resumes can be found in the Grace Sherwood Library. There is no charge to print.

A follow-up job fair is planned. A hiring event will also occur on Enniburr June 24.

1) LOGCAP V Deputy Task Order Manager Oscar Olivares met with personnel at the Capt. Louis S. Zamperini on U.S. Army Garrison-Kwajalein Atoll June 10 to ask for ideas for improving operations and to share plans to increase training and job opportunities. 2) Olivares and dining services employees, in their first LOGCAP V group photo since the spring 2022 base operations services transition.

## OLIVARES DISCUSSES CAREER PATHWAYS WITH DINING SERVICES EMPLOYEES

BY JESSICA DAMBRUCH

LOGCAP V Deputy Task Order Manager Oscar Olivares met with dining services personnel at the Capt. Louis S. Zamperini Cafeteria to discuss developing plans for future employee training opportunities. He opened the floor for staff suggestions and ideas on how to improve operations and to learn about the types of opportunities which they would be interested to pursue.

Starting small was the key to excellence, Olivares said. A day on the job should help employees feel valued.

"It's not only about the customer's experience," he said. "It's about you,

too. 'How do I feel when I come to work? How do I have value and confidence in myself because I'm working here?' It may just be a transaction with a credit card, but you want to feel proud of your work. We want to tailor training to those employees."

In working with area supervisors and managers, it would be possible to identify employees with skill sets who could receive on-the-job training, Olivares said. Excellence started with small changes over time. He described how luxury hotels achieved their high status by making many small improvements over time in everything from staff interactions to daily operations. Cashiers

and public-facing positions had skill-sets in common with administrative assistants and their training might easily lead to similar types of work in new environments. Though other work areas may be more hands-on or specialized, Olivares encouraged the employees to think beyond what they had been told they "could do."

"We all have our own interests and talents," he said. "If you are interested in something, don't worry about what you've been told you can do, if you want to try something new," he said. "You can go for it. We are interested in offering you chances to build those skills."

# COMMUNICATION WAS KEY TO SAFETY AND MISSION FOR USAKA HOST NATION ACTIVITIES CHIEF

BY JESSICA DAMBRUCH

Patrons at the Grace Sherwood Library, won't be able to miss the copies of The Marshallese Primer on the shelves. The little paper booklets are the product of an in-house effort to help the atoll communities communicate better, and they began with the efforts of a new guy.

Think back to June 2001. Back in those days, the official name of the installation was U.S. Army-Kwajalein Atoll—or USAKA, rather than USAG-KA—Raytheon was the prime contractor supporting Army operations and David Coffey had just stepped off the plane and was ready to assume responsibilities as chief of the USAKA Host Nation Office.

Coffey, a father of four with a background in Army Special Forces and a graduate degree in international studies, was already a scuba diver and travel aficionado. He could have led a comfortable tour filled with leisure.

He had other plans.

During a July 2001 interview, Coffey told Kwajalein Hourglass feature writer KW Hillis that he had identified an objective.

"I've only been here two weeks, but I watch the people in USAKA riding their bicycles past the Marshallese and not waving or smiling," he said, in a July 2001 interview. "When I do wave and smile, the Marshallese smile right back, but they look a little shocked and surprised. I intend to do my best to do something about that while I'm here. [Build] a closer relationship, and I don't mean between governments, but between the people that work together.

separate lives."

The result was a Marshallese language primer, spearheaded by Coffey during his tour, and produced with assistance from a team of Marshallese interns and volunteers.

The booklet contains photos, drawings and opens with a dedication to Joachim and Leonard deBrum "for their efforts to capture, save and share a photographic glimpse of post-missionary Marshallese history."

In the weeks that follow, KHG will share more of Coffey's thoughts about work on the booklet. Beginning this week, sections of the pamphlet will run in the KHG to help us keep talking.

If you are a newcomer, this is a chance to begin learning some Marshallese language rules you can put into practice around the atoll.

First, practice pronunciation with the guide on the following page and a few observations from the book's introduction, written by Coffey himself.

There might be a quiz.

\*\*\*

**About The Marshallese Primer  
By David S. Coffey  
Chief, USAKA Host Nation Office  
June 2001-2005**

"This book has been over 40 years in the making. The U.S. Army took command of the missile range in 1964. Since that time, communication and interaction with our Marshallese hosts has been hampered by a language and cultural barrier.

Poor communications impact the efficiency and safety of USAKA operations and detract from the quality of life that comes through a broader understanding

## New Host Nation chief no stranger to overseas assignments

By KW Hillis  
Feature Writer

Adventure and travel were two reasons Maj. David Coffey entered the Army's Special Forces over 12 years ago and two of his reasons for taking on the Host Nation chief, or Foreign Area Officer, position on Kwajalein Atoll.

"FAO has all the travel and other [good things]," Coffey said. "Even better, I can take my family with me now."

Coffey and two of his four children, Sean, 10 and Lindsey, 8, moved here from Fort Jackson, S.C., almost three weeks ago. His wife, Wendy, is still in the states finishing up her teaching certificate and will move to Kwajalein in early December, with their two youngest children, Gregory, 6 and Cecil, 2.

While in Special Forces, Coffey commanded three A-Teams at Fort Lewis, Wash., in both the 2nd and 3rd Battalions, 1st Special Forces Group (Airborne). During these assignments, his teams deployed to many places including Haiti, Thailand, Malaysia and Indonesia. He then attended the Defense Language Institute in California to learn Vietnamese. He also has ratings in Thai and Laotian, but is most comfortable speaking Thai.

Coffey's last assignment was to finish his graduate degree in international studies with a focus on Southeast Asia at the University of South Carolina. The degree is part of the FAO training required to take on the Host

(Photo by KW Hillis)  
Maj. David Coffey takes over as Host Nation chief, following a career in Army Special Forces.

Nation chief position.

Becoming a FAO takes at least three, and sometimes up to four and a half years, to complete because it requires language school, graduate school and in-country training, Coffey said. Although this position is completely different from his Special Forces assignments, he said he will draw on his former experiences to perform this job.

"I don't feel like I could have done this job with just FAO training," Coffey said. "Without previous experience overseas, I would have been ill-prepared for this job."

**COMING FRIDAY: An interview with the new range commander, Lt. Col. Clarence E. Johnson.**

His previous experience also speeded up his training.

"I got constructive credit for the [in-country training] because I have nine years living overseas," Coffey said. "I already had language, and already completed a third of graduate school on my own."

Since his arrival, Coffey has identified his biggest challenge.

"I've only been here two weeks, but I watch the people in USAKA riding their bicycles past the Marshallese and not waving or smiling," he said. "When I do wave and smile, the Marshallese smile right back, but they look a little shocked and surprised. I intend to do my best to do something about that while I'm here. [Build] a closer relationship, and I don't mean between governments, but between the people that work together. We're on adjacent islands yet have such separate lives."

A boat owner and scuba diver, Coffey is evaluating what hobbies he will focus on while stationed on Kwajalein.

One thing about Special Forces is that "your hobbies were your work," Coffey said. "My hobbies were jumping out of airplanes, scuba diving and travel. Since I don't do that for work anymore, I have to look at that ... I may get back into [diving] since my wife has shown an interest in it. Regardless of what I do with whatever spare time I may have, I look forward to working and playing with all the people here."

The Kwajalein Hourglass interviewed Host Nation chief David Coffey in July 2001, shortly after his arrival on the atoll. During his tour, Coffey would work to produce The USAKA Marshallese Primer with a team of interns and volunteers. The booklet is still in use today.

**NO MATTER WHAT FIELD  
YOU ARE IN,  
OPSEC APPLIES TO YOU.**

U.S. ARMY

and interaction with our Marshallese neighbors.

One obstacle has been a lack of language tools.

Those with the desire to learn Marshallese have had difficulty finding books, tapes, or other materials to study. This problem is further exacerbated because there is not much consensus within the Marshallese community about how to spell many words. The most widely used biblical spellings often do not match dictionary spellings.

My personal experience is that time spent arguing over the correct spelling of a Marshallese word is time that could have been spent communicating.

This primer is not in any way expected to settle the arguments over correct spelling and for the most part reflects common use as opposed to any authoritative spelling.

Putting this primer together was more difficult for these reasons and that is why it is important to recognize the contributions of the many people who brought this project to fruition.

I would like to thank the Marshallese interns who worked in the USAKA Host Nation Office between 2003 and 2005.

Twilyn Sheet, LoAnne Bulles, Pauline Alfred, Timothy Samuel, and Joemi Keju constructed the initial language lessons, provided sound advice and contributed much of the labor that went into this project. They are trailblazers for young Marshallese in many ways and it is fitting that their work be recorded in a durable form.

The Host Nation Office staff contributed innumerable hours and the same enthusiasm they put into all host nation projects. Noda Lojkar, Maryanne Lane, Anne Greene and Stephan Notarianni all made significant contributions to this effort. Although this was one small part of their great body of work, it might well turn out to be one of the most permanent and far-reaching.

Alan Taylor joined the Host Nation Office late in the project, but it could not have been completed without him. His expertise in the Marshallese language was crucial to completing the project and responsible for the quality of the final product.

Others outside my staff made significant contributions to this project also. These include Cris and Eric Linborg whose involvement with, and dedica-

tion to, the Marshallese culture is unsurpassed, and goes way beyond this project. Sue Rosoff provided significant input to the Primer directly and is also responsible for capturing important Marshallese history in the form of the DeBrum photo digitization project. Romeo Alfred and Mark Stege provided expert review and final editing suggestions. Connie Guidi provided the cover design and art layout as well as overall formatting for the project. These people all contributed directly to the final version of the Primer.

Others who contributed significantly include Michael and Seagull Kabua and the many, many Marshallese who patiently educate the USAKA “ribelle” and their culture. This includes all those who demonstrate Marshallese crafts and traditions at USAKA events, those who welcome us so warmly at cultural exchanges, and those who volunteer their time and effort that the USAKA Marshallese Cultural Center.

These efforts help to lower the barriers to understanding and help improve communication and understanding between the USAKA community and our hosts and neighbors. The Marshallese Primer is an attempt to repay and reinforce the contributions of all these people.

## MARSHALLESE PRIMER PRONUNCIATION GUIDE

	SOUND DESCRIPTION	MARSHALLESE
<i>a</i>	<i>Fluctuates between father and America</i>	<i>aet, ñan, ta</i>
<i>ā</i>	<i>Fluctuates between fat and hallelujah, often a combination of sand and send. Mouth open, sound formed in back of mouth</i>	<i>āj, nāāt, mā</i>
<i>e</i>	<i>Similar to late; in final position, often similar to quickly. Mouth open, sound formed in the back of mouth.</i>	<i>emon, ewi</i>
<i>i</i>	<i>Similar to be; between two consonants, similar to tin</i>	<i>ni, bwin</i>
<i>o</i>	<i>Similar to go, in final position, can combine lone/lunar</i>	<i>roñ, ko, jook, bidro</i>
<i>ō</i>	<i>Similar to mother</i>	<i>wōt, mōnōnō</i>
<i>u</i>	<i>Similar to rule</i>	<i>juon, illu</i>
<i>ū</i>	<i>Like the oo in book with the lips spread rather than rounded</i>	<i>būbū, nejū</i>
<i>b</i>	<i>Similar to bottle, varies between the English b and p, never aspirated when at the end—keep your mouth closed instead of releasing the air at the end</i>	<i>ba, bokbok, jab</i>
<i>t</i>	<i>Varies between the English t and d; tongue touches the upper teeth instead of the hard palate, never aspirated</i>	<i>tutu, ettoñ</i>
<i>j</i>	<i>Generally a soft j sound, nearer to ch and approaching s sometimes; like an unreleased t when in the final letter</i>	<i>jeje, ejab</i>
<i>l</i>	<i>Similar to ball, tongue touches front teeth</i>	<i>laddrik, drelon, al</i>
<i>m</i>	<i>Similar to moon, someone</i>	<i>emman, am</i>
<i>n</i>	<i>Similar to onion, tongue touches just about front teeth</i>	<i>enno, men</i>
<i>ñ</i>	<i>Like singer, very nasal sound</i>	<i>jañ, iññā</i>
<i>k</i>	<i>Varies between the English k and g, never with aspiration, sound made nearer the back of the throat</i>	<i>mik, katak, kiki</i>
<i>r</i>	<i>A trilled r—tongue tip tripped</i>	<i>ren, irro</i>
<i>w</i>	<i>Similar to way</i>	<i>wōn, ewi</i>

# COFA NEGOTIATIONS BEGIN ON KWAJALEIN

BY JESSICA DAMBRUCH

**Delegations** from the United States and the Republic of the Marshall Islands safely completed the first round of negotiations for the Compact of Free Association, a set of provisions governing financial, defense and economics agreements between the two nations, following the arrival of U.S. and RMI team members at Bucholz Army Airfield Tuesday, June 14.

U.S. Ambassador to the RMI Roxanne Cabral and USAG-KA Commander Col. Tom Pugsley welcomed U.S. Special Presidential Envoy Ambassador and negotiations team leader Joseph Yun. Traveling with Yun were members of the U.S. delegation representing the Department of the Interior, U.S. Indo-Pacific Command and the U.S. State Department.

All team members tested negative for COVID-19 upon arrival and remained isolated from the USAG-KA community during their visit for community health and safety. The visitors underwent a routine health screening at BAAF before being isolated at the Kwaj Lodge, an island facility utilized for repatriation.

After months of delays protracted by COVID-19 protocols and subsequent health and travel restrictions, the delegations met for a first face-to-face meeting at the Kwajalein High School Davye Davis Multi-Purpose Room that same afternoon.

Following introductions, RMI delegation chief negotiator and Minister of Foreign Affairs and Trade Kitlang Kabua, greeted the U.S. delegation mem-

*USAG-KA Commander Tom Pugsley, left, and Legal Counsel Benjamin Clancy, right, masked up to attend the first round of COFA negotiations. Pictured here is the U.S. half of the conference area.*

bers with special welcome gifts. The traditionally handcrafted items were laid at U.S. place settings. Due to the strict rules of the meeting, the gifts could not be presented in person, as is customary.

During the three days of discussions, both teams explored topics of mutual interest before adjournment. Dates for the second round of talks will be announced in the future.

Hosting the negotiations was made possible on USAG-KA through the execution of a strict “travel bubble” and adherence to the garrison’s active quar-

antine protocols. Additional preparations in the meeting area allowed the two groups to interact safely. The conference-style arrangement utilized airy gaps between delegations seating areas to accommodate social distancing and included “breakout” discussion areas separated by acrylic shields.

Since RMI travel restrictions were instituted in 2020, similar “bubble” operations have been utilized to safely accommodate the movements of search and rescue teams and Criminal Investigation Division activities.

During the meetings, the entire school was cordoned off to the local community and specially provisioned with personal protective equipment until proceedings adjourned June 16. Following decontamination, the facility will be accessible but will remain closed until the beginning of the school year.

Minister Kabua joined the RMI COFA negotiation team in 2020. She has previously served the RMI government as the Minister of Sports, Education and Training, and was elected to the Nitijela, the Marshallese legislature, in 2019.

Ambassador Yun, whose former diplomatic assignments include ambassadorial duty in Malaysia, has worked for more than 33 years in the U.S. foreign service. Highlights in his career include service as the Principal Deputy Assistant Secretary in the State Department Bureau of East Asian and Pacific Affairs and as the U.S. Special Representative for North Korea Policy. Yun was named as the U.S. Special Presidential Envoy for Compact Negotiations by U.S. President Joe Biden in March.

The COFA was signed into federal law following official adoption by the U.S. Congress in October 1986 and last renewed in 2003. In recent years, the agreement has been addressed in discussions of Marshallese healthcare, education and land utilization. Its provisions include Marshallese access to U.S. domestic programs and other citizen services, disaster management assistance resources and continued use of the Ronald Reagan Ballistic Missile Defense Test Site.

In a March press release, U.S. Secretary of State Anthony Blinken described the U.S. relationship with Indo-Pacific compact nations as “special and long-standing.”

“The Compacts reflect the close relationships between the United States and the Freely Associated States and are a critical source of regional security, stability, and prosperity. Through these negotiations, we will strengthen our enduring partnerships with our close Pacific Island partners and ensure a free and open and prosperous Indo-Pacific region.”

1) Members of the U.S. delegation undergo a health screening administered by RMI Head Quarantine Nurse Taina Kubulala at Bucholz Army Airfield. 2) U.S. Special Presidential Envoy for Compact Negotiations Joseph Yun, far left, U.S. Ambassador Karen Stewart, U.S. Department of State Senior Foreign Service Officer Taylor Ruggles and U.S. Ambassador to the Republic of the Marshall Islands Roxanne Cabral join a transport cart to the Kwaj Lodge. 3) U.S. Department of the Interior Deputy Assistant Secretary Keone Nakoa puts on one of the gifts the RMI delegation provided to U.S. team members. 4) An outrigger canoe from the Office of the RMI Liaison is visible above a sea of blue table linens and fresh greens in the Davye Davis Multi-Purpose Room at Kwajalein High School as the RMI delegation, left, and U.S. delegation, right, commemorate the closing signing of the first round of the COFA negotiations with a photo. The all-purpose auditorium was converted into a conference space to allow the Compact delegations to socially distance during proceedings.

## USAG-KA CELEBRATES ARMY BIRTHDAY

BY JESSICA DAMBRUCH

USAG-KA Commander Col. Tom Pugsley met with members of the island community June 11 at the Capt. Louis S. Zamperini Cafeteria for a celebration of the 247th U.S. Army Birthday. Special lunch menus for the event were prepared on Kwajalein, and on Roi for June 14.

The cake-cutting ceremony tradition honors the expertise of all Soldiers earned through time in service. The Soldiers with the greatest and fewest years take the sabre together to make the first slice. On Kwajalein, two Army captains accepted the honors. William Thygerson, who served as an Army captain, joined the U.S. armed forces in 1964. Capt. Hardy Temoney II joined in 2013, became the youngest Soldier to conduct honors for two consecutive years.

Following the cake-cutting, dining services personnel shared out the cake amongst afternoon lunchtime patrons.

Thygerson, a former resident, recently returned to the island to work with the USAG-KA Department of Public Works. He said he was delighted to be part of this year's ceremony and joined in singing the Army song with the active-duty personnel present.

Chief Warrant Officer 4 Yessenia Johnson, USAG-KA Food Services manager, asked if Thygerson would perform the birthday honors, he said.

"The chief said, 'We are looking for the Soldier with the most years of service, and we think you fit the bill,'" Thygerson said.

1) A birthday cake to honor the Army's 247 years of service to the United States. 2) From left, William Thygerson, USAG-KA Commander Col. Tom Pugsley, and Capt. Hardy Temoney II get ready to enjoy Army birthday cake at the Zamperini Cafeteria. Temoney and Thygerson, who served as a captain in the Army, performed cake-cutting honors.

# DOD PREPARING FOR CLIMATE CHANGE IMPACTS, OFFICIAL SAYS

PHOTO BY GREG NASH, U.S. ARMY CORPS OF ENGINEERS - BALTIMORE DISTRICT

Matt Whitbeck, U.S. Fish and Wildlife Service supervisory biologist, examines shoreline protection improvements during a coastal resiliency project tour at Smith Island near Ewell, Maryland, Oct. 7, 2021.

## EXTERNAL REPORT

By David Vergun, DOD News

**Climate change** has serious implications for national security, said the Defense Department’s chief sustainability officer and senior advisor for climate.

Joe Bryan joined a panel discussion yesterday on “U.S. Climate Security Investments: Changing Plans into Actions” at a virtual Center for Climate and Security event.

“Climate change is dramatically increasing the demand for military operations and, at the same time, impacting our readiness and our ability to meet those demands while imposing unsustainable costs on the department,” he said.

Among the global effects of climate change are a warmer climate; changing precipitation patterns; and, more frequent, intense and unpredictable extreme weather.

Besides climate impacts on the physical environment, climate change is altering technology and markets as the world adjusts to the reality and a rapidly advancing energy transition, he said.

Climate change also affects the militaries of allies and partners, as well as competitors and adversaries. The nations that are most resilient and best able to manage the effects of climate change will secure an advantage, Bryan said.

For the U.S. military to maintain its advantage, it will need to continue investing in items that mitigate the effects of climate change, he said.

As such, the department’s portion of President Joe Biden’s fiscal year 2023 budget request makes significant new investments that will make installations and operations more resilient to climate change and increase operational capability, he said.

“Our climate investments are not only aligned with mission objectives, increasing resiliency and enhancing combat capability, but those investments are absolutely necessary for future mission success,” he said.

Bryan provided an overview of DOD’s portion of the budget request related to

The aircraft and its crew ferried passengers and cargo between New Zealand and Antarctica in support of the 2020-21 Operation Deep Freeze mission. 2) A new 350 kilowatt-hour solar array was installed near the Hill Aerospace Museum at Hill Air Force Base, Utah, June 25, 2021. Rocky Mountain Power built the array and will own and operate it for the next 25 years as part of its Blue Sky program. The base will add the energy generated to its power grid.

climate change initiatives:

- \$2 billion investment for installation resiliency and adaptation, including \$550 million for the Energy Resilience and Conservation Improvement Program.
- \$20 million in contingency preparedness that includes incorporating climate risk scenarios in war games and exercises, humanitarian assistance, disaster relief and defense support to civil authorities’ activities.
- Nearly \$250 million in operational energy and buying power to improve the efficiency of operational platforms while increasing their

capability and mitigating logistics risk.

- More than \$800 million in science and technology investments that includes hybrid tactical vehicles, to enhance capability like extended range and persistence and provide silent watch. It also includes investments in new technologies like blended wing body aircraft, which have the potential to increase range and payload while improving efficiency.

“These investments ... put us in a position to make real progress against our climate and mission objectives,” he said.

# WHERE TO MAKE A SAFE SUMMER SPLASH

Check out the maps to become reacquainted with the safe swim zones around Kwajalein and Roi-Namur. Forward any questions to USAG-KA Safety at 5-1442 or FMWR at 5-3400.

The highlighted areas are the only unrestricted swimming areas at Kwajalein: Coral Sands, Camp Hamilton, Emon Beach and North Point. A flotation device is recommended 100 feet from shore and required for distances of more than 300 feet from shore. The buddy system or shore watch is required.

The highlighted areas are the only unrestricted swimming areas at Roi-Namur (Areas 1, 2, 3, 6, 12 and 13). A flotation device is recommended 100 feet from shore and required for distances of more than 300 feet from shore. The buddy system or shore watch is required.

**Work and play safely.**

For additional weather information, please click the logo to visit the RTS Weather Station online.

**RTS WEATHER STATION STAFF**

**WEATHER DISCUSSION**

A quiet end to the workweek could give way to occasional stormy weather over the weekend. The subtropical ridge in the lower altitudes will ensure moderate trades to prevail and keep shower coverage down for the most part; however, the wild card this weekend is an area of upper-altitude low pressure which, depending on its development and movement, could bring an elevated risk for lightning and some strong wind gusts.

Looking ahead to next week, the Intertropical Convergence Zone will lift into the central Marshalls, bringing elevated chances for rainfall and strong wind gusts from Tuesday afternoon into Thursday morning. A lingering and weakened ITCZ looks to bring occasional showers for the remainder of the week.

**SATURDAY**

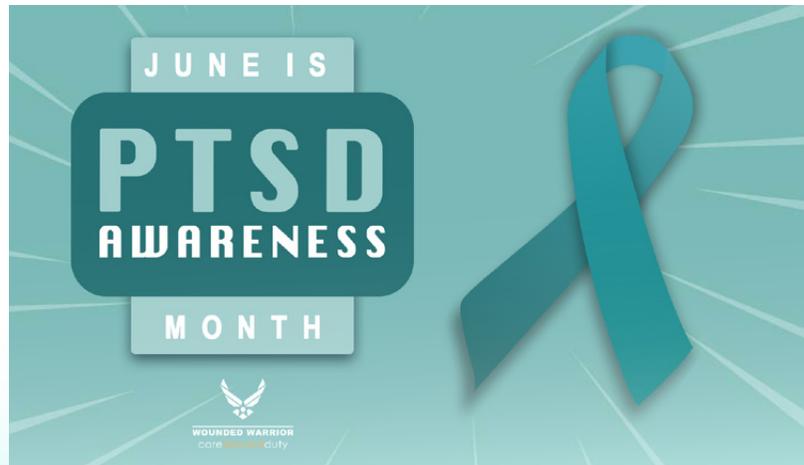

Mostly sunny with stray showers. Winds NE-E at 11-17 knots with a few higher gusts.

**SUNDAY AND MONDAY**

Partly sunny to occasionally mostly cloudy with widely scattered showers and isolated thunderstorms. Winds NE-E at 11-17 knots with strong gusts possible near showers and thunderstorms.

**TUESDAY THROUGH THURSDAY**

Periods of showers and stray thunderstorms from Tuesday afternoon into Thursday morning, followed by isolated to widely scattered showers and a stray thunderstorm or two to close out the workweek. Winds NE-SE at 5-15 knots. Strong gusts possible, mainly on Tuesday.

**HELP US PROTECT OUR MISSION. OPSEC DOESN'T END WHEN YOU PCS. PLEASE THINK BEFORE POSTING PHOTOS AND VIDEOS TO SOCIAL MEDIA.**

**RMI TRAVEL ISSUANCE #39**

The Republic of the Marshall Islands government has insituted Travel Issuance 39. This travel restriction applies through June 30.

**UNITED AIRLINES FLIGHTS FOR JUNE - JULY**

**Monday**  
 UA155 (HNL)  
 Check-in: 3:30 – 4:15 p.m.

**Tuesday**  
 UA154 (GUM)  
 Check-in: 10:45 – 11:15 a.m.
