

## U.S. SPACE COMMAND OVERVIEW

Located at Peterson Space Force Base in Colorado Springs, Colorado, the U.S Space Command is at the forefront dedicated to working with allies and partners to plan, execute, educate, and integrate military defense assets into multi-domain trans-regional operations in order to deter aggression, defend national interests, and when necessary, defeat threats.

## CONNECTING AIR, LAND, SEA & CYBER

With adversaries and technologies evolving and advancing, our competitors have demonstrated their intent to hold our space capabilities at risk. Therefore we will always defend our nations interests, deter aggression, and support our allies and partners.

# TRANS REGIONAL MISSILE DEFENSE Coordinator

## TRANS-REGIONAL MISSILE DEFENSE COORDINATOR

JFCC IMD conducts trans-regional missile defense planning and operations support, synchronizes capability development to enhance warfighter posture, supports CCMD plan execution, and informs senior leader decisions.

## MISSILE DEFEAT and JFCC IMD CONTRIBUTIONS

Conducts global missile defense operations support:

- 24/7/365 Missile Defense Operations Center
- Manages planning, scheduling, and deconflicting of HLD missile defense assets across the globe
- Interaction with Joint Staff, CCMDs and other government agencies
- Interacts with Combatant Commands Joint Staff to ALL Missile Defense matters

## NIMBLE TITAN

Is the premier global forum for Integrated Air and Missile Defense (IAMD) policy experimentation and concept development. It is a continuing series of two-year campaigns that strengthens international partnerships, influences the development of missile defense policies and concepts, and informs missile defense capability development for nations and international organizations from the Euro-Atlantic, Indo-Pacific, Middle Eastern, and North American regions.

## JOINT FORCES TRAINER: JOINT MISSILE DEFENSE AND MISSILE WARNING

The Joint Ballistic Missile Defense Training Center of Excellence is responsible for training the Joint Force on all things Missile Defense and Missile Warning.

## INTEGRATED MISSILE DEFENSE

JFCC IMD began operations in January 2005. The Command includes Army, Navy, Marine Corps, Air Force, and Space Force personnel, as well as U.S. Government Civilians and contractor personnel. The Headquarters is co-located at the Missile Defense Agency (MDA) in the Missile Defense Integration and Operations Center (MDIOC) at Schriever Space Force Base, Colorado.

### MISSILE DEFENSE CONTRIBUTIONS TO SPACE

- Resiliency and diversification of the missile warning mission
- Global Sensor Management
- Advocacy for multi mission capabilities

### SPACE CONTRIBUTIONS TO MISSILE DEFENSE

- Proliferated space-based sensors to detect, attribute, track, and target
- On-orbit track fusion
- Platforms for potential future space-based effects
