

## USASMDC FORCES

**1st Space Brigade** provides trained and ready space forces to conduct continuous global space force enhancement, space support, and space control and contingency activities in support of combatant commanders, U.S. government agencies and international partners.

**The 100th Missile Defense Brigade** (Ground-based Midcourse Defense), a multi-component brigade consisting of active-component Army and Army National Guard Soldiers in Colorado, California and Alaska defends the homeland from intercontinental ballistic missile attacks.

**The Future Warfare Center** develops and integrates innovative doctrine, concepts, and capabilities; trains and educates agile, adaptive, and ready Soldiers and Leaders; executes life-cycle management for Army Space Operations Officers (FA 40); develops the Army Space Cadre; and enables informed decision making through studies, analysis, modeling, and simulation within the capabilities of Army and Joint Space, Missile Defense, and High Altitude.

**The Technical Center** provides critical technologies that meet today's requirements and addressing future needs enabling Warfighter effectiveness in the core competencies of directed energy, space, high altitude systems, cyberspace and missile defense.

## MISSION

**USASMDC** develops and provides current and future global space, missile defense, and high altitude capabilities to the Army, joint force, and our allies and partners, to enable multi-domain combat effects; enhance deterrence, assurance, and detection of strategic attacks; and protect the nation.

## VISION

One synchronized **USASMDC** team develops and provides leading-edge space, missile defense, and high altitude forces and capabilities for the warfighter and for the Army—wherever and whenever required.

U.S. ARMY SPACE AND  
MISSILE DEFENSE COMMAND

# USASMDC

## WHO WE ARE

Increasingly advanced capabilities from our near-peer adversaries threaten America's space and missile advantages. As the Army's proponent for space, high altitude and missile defense, U.S. Army Space and Missile Defense Command prepares, trains and synchronizes across the Army, joint force, allies and partners to ensure vital space and missile defense capabilities are ready today and prepared for the future.

**USASMDC** is the Army Service Component Command to the U.S. Strategic Command and fulfills the Army's requirement to provide trained and ready space and missile defense professionals and capabilities throughout the joint force. From its split-based headquarters at Redstone Arsenal, AL, and Colorado Springs, CO, the command oversees vital Army space and missile defense elements around the globe.

## WHAT WE DO

**USASMDC** is a multi-faceted, multi-component warfighting team of two brigades, a Technical Center and Future Warfare Center, globally synchronized to provide space and missile defense capabilities supporting both the U.S. Army and U.S. Strategic Command.

Employing cutting-edge technology and incorporating feedback from the Warfighter, the command develops critical space and high altitude capabilities to maintain overmatch of the nation's near-peer adversaries and to deter, deny and defeat any challenge.

The USASMDC team operates worldwide satellite communications for crucial U.S. and allied operations; educates professionals; trains warriors; advocates concepts; wargames concepts; develops capabilities; and supports U.S. Army astronauts.

The command's trained and ready forces work together seamlessly across 11 time zones in 23 locations around the world providing multi-component forces to defend the nation 24/7/365 against intercontinental ballistic missile attacks and facilitating access to vital space-based resources.

Across oceans and continents, across time and space, the USASMDC team provides space and missile defense capabilities so combatant commanders can fight and win.

## COMMAND PRIORITIES

- Protect our homeland
- Provide combat-ready forces and capabilities
- Plan and conduct synchronized global operations
- Prepare or adopt leap-ahead concepts and technologies
- Preserve and account for the nation's critical resources
- Promote and foster a positive command climate

**“The command's trained and ready forces work together seamlessly across 11 time zones in 23 locations around the world...”**
